Religious Symbols And God A Philosophical Study Of Tillich's Theology

John P. Clayton

Religious Symbols And God A Philosophical Study Of Tillich's Theology:

Religious Symbols and God William L. Rowe, 1968 *William L. Rowe on Philosophy of Religion* William L. Rowe, Nick Trakakis, 2017-05-15 William Rowe is one of the leading thinkers in contemporary philosophy of religion. Although he is best known for his contributions to the problem of evil, he has produced innovative and influential work across a wide array of subjects at the interface between philosophy and religion. He has, for example, written extensively on the existentialist theologian Paul Tillich on the challenging problem of divine freedom and on the traditional arguments in support of the existence of God. His work in these areas is distinguished by its clarity, rigour, originality, and sensitivity towards the claims of his theistic opponents. Indeed, Rowe's work has played a pivotal role in the remarkable revival of analytic philosophy of religion since the 1970s. The present collection brings together for the first time Rowe's most significant contributions to the philosophy of religion. This diverse but representative selection of Rowe's writings will provide students, professional scholars, as well as general readers with stimulating and accessible discussions on such topics as the philosophical theology of Paul Tillich, the problem of evil, divine freedom, arguments for the existence of God, religious experience, life after death, and religious pluralism. *Paul Tillich and Asian Religions* Ka-fu Keith Chan, Yau-nang William Ng, 2017-08-21 This volume investigates Paul Tillich's relationship to Asian religions and locates Tillich in a global religious context. It appreciates Tillich's heritage within the western and eastern religious contexts and explores the possibility of global religious cultural understanding through the dialogue of Tillich's thought and East-West religious cultural matrix. [Tillich: A Guide for the Perplexed](#) Andrew O'Neill, 2008-11-25 A new addition to the Guides for the Perplexed series, this new book on Tillich will analyse, clarify, and connect the most central and difficult of Tillich's theological concepts. [Tillich](#) Donald W. Musser, Joseph Price, 2010-02-01 Abingdon Pillars of Theology is a series for the college and seminary classroom designed to help students grasp the basic and necessary facts, influence, and significance of major theologians. Written by major scholars, these books will outline the context, methodology, organizing principles, primary contributions, and major writings of people who have shaped theology as we know it today. Tillich served as a theological pioneer, exploring boundaries and traversing creatively between the territories of philosophy and theology, between the faith and culture, between Christianity and Buddhism, between the academy and the public. He was a thinker who theorized about everything and who attempted to show what matters and why. From the book **Dictionary Of Modern American Philosophers** John R. Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non-academic philosophers and a large number of female and minority thinkers whose work has been neglected. It includes those intellectuals involved in the development of psychology, pedagogy, sociology, anthropology, education, theology, political science, and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and

suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought Writings in the Philosophy of Religion / Religionsphilosophische Schriften John P. Clayton,2020-03-23 No detailed description available for Writings in the Philosophy of Religion Religionsphilosophische Schriften *Spirituality, Philosophy and Education* David Carr,John Haldane,2003-12-16 The contributors of this collection are all highly respected educational practitioners policymakers and philosophers The book examines the meaning role and possibilities of spirituality in education from a wide range of perspectives **Thomism and the ontological theology of Paul Tillich** Donald J. Keefe,2023-08-28 **Wrestling with Doubt** Frank D. Rees,2001 Rees provides a theological analysis of doubts as a constructive element within the Christian experience of faith He considers three theological frameworks each of which offers an interpretation of doubt and two life story theologies that deal with faith and doubt **Paul Tillich's Philosophy of Art** Michael Palmer,2017-04-10 No detailed description available for Paul Tillich s Philosophy of Art Ethics and the Future of Religion W. Royce Clark,2022-02-03 W Royce Clark observes that humanity appears to be jeopardizing our own future in a chaos of mutual antagonism and hypocrisy Religions have traditionally provided ethical guidance but because their absolutized metaphysics are incompatible with each other we cannot rely on any one of them in a religiously pluralistic culture The ethics of various religions are also built on theocratic or authoritarian foundations which are incompatible with any democratic society Finally many of their premises are very ancient so not relevant or appropriate in our modern scientific world The Western Enlightenment brought challenges against religion s singularity exclusivity heteronomy and anti scientific assumptions all of which disrupted their ethics and the Absolute metaphysical grounds upon which those ethics rested raising the question of whether a freestanding ethic was possible Inasmuch as the primary claim of most religions was regarded as beyond challenge but was a conflation of history and myth modern historical method created more doubt than certainty about such allegedly certain doctrines as Jesus is the Son of God By the end of the 20th century the impossibility of validating such primary Christological claims from a historical approach became evident despite the articulate attempts at credibility in the brilliant works of John Dominic Crossan and Wolfhart Pannenberg which remained unconvincing in important ways Between 1832 and 2014 innovative Christian theologians such as Schleiermacher Hegel Tillich and Scharlemann took a detour from the futility of historical verification This study examines their remarkable attempts at a form of corroboration of the basic Christological claim even if their primary interests were more in Christology than ethics The question Clark takes up here is whether or not these figures have thereby provided a base for a universal ethic or the only answer is for principles freestanding from any religion *The Concept of Correlation* John P. Clayton,2011-12-22 No

detailed description available for [The Concept of Correlation](#) [Twentieth-Century Philosophy of Religion](#) Graham Oppy, N. N. Trakakis, 2014-09-11 The twentieth century saw religion challenged by the rise of science and secularism a confrontation which resulted in an astonishingly diverse range of philosophical views about religion and religious belief Many of the major philosophers of the twentieth century James Bergson Russell Wittgenstein Ayer Heidegger and Derrida significantly engaged with religious thought Idiosyncratic thinkers such as Whitehead Levinas and Weil further contributed to the extraordinary diversity of philosophical investigation of religion across the century In their turn leading theologians and religious philosophers notably Buber Tillich and Barth directly engaged with the philosophy of religion Later philosophy of religion became a distinct field of study led by the work of Hick Alston Plantinga and Swinburne *Twentieth Century Philosophy of Religion* provides an accessible overview of the major strands in the rich tapestry of twentieth century thought about religion and will be an indispensable resource for any interested in contemporary philosophy of religion *Cosmological Fine-Tuning Arguments* Jason Waller, 2019-09-05 If the physical constants initial conditions or laws of nature in our universe had been even slightly different then the evolution of life would have been impossible This observation has led many philosophers and scientists to ask the natural next question why is our universe so fine tuned for life The debates around this question are wide ranging multi disciplinary complicated technical and at times heated This study is a comprehensive investigation of these debates and the many metaphysical and epistemological questions raised by cosmological fine tuning Waller s study reaches two significant and controversial conclusions First he concludes that the criticisms directed at the multiverse hypothesis by theists and at the theistic hypothesis by naturalists are largely unsuccessful Neither of these options can plausibly be excluded Choosing between them seems to turn on primitive and so hard to justify metaphysical intuitions Second in order to break the philosophical deadlock Waller moves the debate from the level of universes to the level of possible worlds Arguing that possible worlds are also fine tuned in an important and interesting sense Waller concludes that the only plausible explanation for the fine tuning of the actual world is to posit the existence of some kind of God like thing **Kant and Religion** Allen W. Wood, 2020-05-28 Explores Kant s philosophy of religion and morality through his *Religion within the Boundaries of Mere Reason* **The God Beyond Belief** Nick Trakakis, 2006-11-03 This study of Professor William Rowe s defense of atheism on the basis of evil assesses the literature that has developed in response to Rowe s work closely examining two strategies mystery the idea that God may have reasons beyond our comprehension for permitting evil and theodicy explanations as to why God allows evil to flourish The book unearths difficulties in both concluding that the God of theism must be beyond belief [My Revision Notes OCR A Level Religious Studies: Philosophy of Religion](#) Julian Waterfield, Chris Eyre, 2018-04-16 Exam board OCR Level A level Subject Religious Studies First teaching September 2016 First exams Summer 2017 Target success in OCR A Level Religious Studies with this proven formula for effective structured revision key content coverage is combined with exam style tasks and practical tips to create a revision guide you can rely on

The History of Western Philosophy of Religion Graham Oppy, N. N. Trakakis, 2016-09-17 The History of Western Philosophy of Religion brings together an international team of over 100 leading scholars to provide authoritative exposition of how history's most important philosophical thinkers from antiquity to the present day have sought to analyse the concepts and tenets central to Western religious belief especially Christianity Divided chronologically into five volumes The History of Western Philosophy of Religion is designed to be accessible to a wide range of readers from the scholar looking for original insight and the latest research findings to the student wishing for a masterly encapsulation of a particular philosopher's views Together these volumes provide an indispensable resource for anyone conducting research or teaching in the philosophy of religion and related fields such as theology religious studies the history of philosophy and the history of ideas

The Evidential Argument from Evil William L. Rowe, Paul Draper, Richard Swinburne, Eleonore Stump, Alvin Plantinga, William P. Alston, Stephen J. Wykstra, Peter van Inwagen, Bruce Russell, Richard M. Gale, 2008-10-17 Is evil evidence against the existence of God A collection of essays by philosophers theologians and other scholars Even if God and evil are compatible it remains hotly contested whether evil renders belief in God unreasonable The Evidential Argument from Evil presents five classic statements on this issue by eminent philosophers and theologians and places them in dialogue with eleven original essays reflecting new thinking by these and other scholars The volume focuses on two versions of the argument The first affirms that there is no reason for God to permit either certain specific horrors or the variety and profusion of undeserved suffering The second asserts that pleasure and pain given their biological role are better explained by hypotheses other than theism Contributors include William P. Alston Paul Draper Richard M. Gale Daniel Howard Snyder Alvin Plantinga William L. Rowe Bruce Russell Eleonore Stump Richard G. Swinburne Peter van Inwagen and Stephen John Wykstra

Thank you very much for downloading **Religious Symbols And God A Philosophical Study Of Tillich's Theology**. Maybe you have knowledge that, people have look numerous times for their favorite books like this Religious Symbols And God A Philosophical Study Of Tillich's Theology, but end up in malicious downloads.
