Dorner, 2016-03-24 This is Volume 1 of a 4 volume set World Religions and Cults Volume 1 Bodie Hodge, Roger Patterson, 2015-08-13 Religions in today's culture seem to be multiplying Have you ever wondered why certain religions believe and practice what they do Or how they view the Bible This volume delves into these and other engaging questions such as How can a Christian witness to people in these religions Do these other religions believe in creation and a Creator How do we deal with these religions from a biblical authority perspective Many religions and cults discussed in this first volume openly affirm that the Bible is true but then something gets in their way And there is a common factor every time man's fallible opinions In one way or another the Bible gets demoted reinterpreted or completely ignored Man's ideas are used to throw the Bible's clear teaching out the window while false teachings are promoted This book is a must for laymen church leaders teachers and students to understand the trends in our culture and around the world where certain religions dominate helping you discern truth and guard your faith When you understand a religion's origins and teachings you are in a better position to know how to proclaim the gospel of Jesus Christ as you take the good news to those in false religions

Totalitarianism and Political Religions, Volume 1 Hans Maier, 2004-10-14 We are used to distinguishing the despotic regimes of the 20th century communism fascism National Socialism Maoism very precisely according to place and time origins and influences But what should we call that which they have in common On this question there has been and is still a passionate debate This book documents the first international conference on this theme a conference that took place in September of 1994 at the University of Munich The book shows how new models for understanding political history arose from the experience of modern despotic regimes Here the most important concepts totalitarianism and political religions are discussed and tested in terms of their usefulness

Approaching the World's Religions, Volume 1 Robert Boyd, 2017-05-04 Philosophically Thinking about World Religions is different from other works in the discipline today It deviates from the typical approaches used for the study of world religions Its goal is to engage readers in thinking hard about world religions not about the data surrounding those traditions By focusing on philosophical questions each reader should be challenged to do their own investigations that may reveal the heart of these traditions Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions Pluralism which is the predominate assumption today ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory By taking an open inclusivist approach all religious traditions may engage at the table of dialogue The final essay is about justice and social affairs While that discussion is couched within the context of a particular tradition each religious tradition must have the discussion But it must be more than an intrareligious dialogue it must become an interreligious dialogue Religion and

Johnston,2014-01-27 Recent Reference Books in Religion provides incisive summaries and evaluations of more than 350 contemporary reference works on religious traditions ancient and modern that have been published in English French and German For maximum usefulness to readers Professor Johnston has broadly defined religion to include not just the world religion of Christianity Judaism Islam Hinduism and Buddhism but also such alternative approaches as mythology folklore and the philosophy of ethics Each entry analyzing a particular work includes full bibliographic details as well as commentary outstanding articles and contributors are highlighted strengths and weaknesses are carefully noted and weighed Readers are directed to volumes whose strengths and weaknesses are carefully noted and weighed Readers are directed to volumes whose strengths complement the weaknesses of others An indispensable guide in any religious studies collection Recent Reference Books in Religion 2nd Edition includes works published through the end of 1997 It also includes a Glossary that describes types and functions of reference books and five indexes Titles Authors Topics Persons and Places **The Critique of Religion and Religion's Critique** ,2020-04-14 In The Critique of Religion and Religion s Critique On Dialectical Religiology Dustin J Byrd compiles numerous essays honouring the life and work of the Critical Theorist Rudolf J Siebert His dialectical religiology rooted in the critical theory of the Frankfurt School especially Theodor Adorno Max Horkheimer Walter Benjamin Herbert Marcuse Erich Fromm Leo L wenthal and J rgen

Habermas is both a theory and method of understanding religion's critique of modernity and modernity's critique of religion. Born out of the Enlightenment and its most important thinkers i.e. Kant, Hegel, Marx, Nietzsche, and Freud, religion is understood to be dialectical in nature. It contains within it both revolutionary and emancipatory elements but also reactionary and regressive elements which perpetuate mankind's continual debasement, enslavement, and oppression. Thus, religion by nature is conflicted within itself and thus stands against itself. Dialectical Religiology attempts to rescue those elements of religion from the dustbin of history and reintroduce them into society via their determinate negation. As such, it attempts to resolve the social, political, theological, and philosophical antagonisms that plague the modern world in hopes of producing a more peaceful, justice-filled, equal, and reconciled society. The contributors to this book recognize the tremendous contributions of Dr. Rudolf J. Siebert in the fields of philosophy, sociology, history, and theology and have profited from his long career. This book attempts to honour that life and work. Contributors include Edmund Arens, Gregory Baum, Francis Brassard, Dustin J. Byrd, Denis R. Janz, Gottfried K. Enzlen, Mislav Kuko, Michael R. Ott, Rudolf J. Siebert, Hans K. Weitensteiner, and Brian C. Wilson.
