Ibrahim, 2022-05-17 An expert in the study of Islam answers thirty important questions about Muhammad offering a clear and concise guide to his life and religious significance This companion volume to the author's A Concise Guide to the Quran answers many of the key questions non Muslims have about Muhammad reveals the importance of Muhammad for Christian Muslim and Jewish Muslim interfaith relations and examines Muslim and non Muslim primary sources This introductory guide is written for anyone with little to no knowledge of Islam who wants to learn about Muslims their beliefs and their prophet Religion in Multicultural Education Farideh Salili, Rumjahn Hoosain, 2006-05-01 The National Association for Multicultural Education in Washington D C listed a number of issues that the school curriculum should address with reference to multicultural education including racism sexism classism linguisticism ablism ageism heterosexism and religious intolerance It is noteworthy that of all these issues religion is about the only one that throughout history people are willing to die for although whether what is at issue is really religion or other things such as territory is another matter It is also interesting that all the others have isms in their names but religious issues are characterized by intolerance Perhaps we should try to understand this intolerance and look at what steps might help to alleviate it However while intolerance might seem a simple thing understanding what is behind it and how it plays such a crucial role in religion requires what we refer to in the Introduction chapter as a multifaceted approach at multiple levels It is not enough just to try to dispel stereotypes of followers of other religions or to point out commonalities in world religions We should for example try to understand and appreciate how adherents of other religions try to answer questions regarding their adaptation to the contemporary environment It is through understanding how different religions coexist side by side at various levels that we truly come to learn about religion in multicultural education *The Religions Book*, 2014-02-06 The Religions Book clearly and simply explains all of the important information about the world's major and many minor religions in an easy to access format Using easy to follow graphics and artworks succinct quotations and thoroughly accessible text The Religions Book explores the beliefs that underpin religious traditions around the globe and how they developed From primal beliefs to the world's great faiths and the continuing quest for spiritual meaning in our complex world The Religions Book gets to the heart of what it means to believe in God and religion's place in society The Religions Book includes A dedicated section for each of the world's five major faiths Islam Christianity Judaism Buddhism and Hinduism Primal beliefs ancient and classical mythology and new religions Brief biographies and context boxes to give the full historical context of selected religions The clear and concise summaries graphics and quotations in The Religions Book will help even the complete novice understand the ideas behind faiths and the place of religion in the world The Lives of Muhammad Kecia Ali, 2014-10-07 Kecia Ali delves into the many ways the Prophet's life story has been told from the earliest days of Islam to the present by both Muslims and non Muslims Emphasizing the major transformations since the nineteenth century she shows

Curtis IV offers the first comprehensive examination of the rituals ethics theologies and religious narratives of the Nation of Islam showing how the movement combined elements of Afro Eurasian Islamic traditions with African American traditions to create a new form of Islamic faith Considering everything from bean pies to religious cartoons clothing styles to prayer rituals Curtis explains how the practice of Islam in the movement included the disciplining and purifying of the black body the reorientation of African American historical consciousness toward the Muslim world an engagement with both mainstream Islamic texts and the prophecies of Elijah Muhammad and the development of a holistic approach to political religious and social liberation Curtis's analysis pushes beyond essentialist ideas about what it means to be Muslim and offers a view of the importance of local processes in identity formation and the appropriation of Islamic traditions
