The International Politics of Eurasia: v. 3: The Politics of Religion in Russia and the New States of Eurasia S. Frederick Starr, Karen Dawisha, 2016-06-16 First Published in 2015 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states The contributors were chosen not only for their recognized expertise but also to ensure a stimulating diversity of perspectives and a dynamic mix of approaches This is Volume 3 The Politics of Religion in Russia and the New States of Eurasia Christianity in the Twentieth Century Brian Stanley, 2018 This book charts the transformation of one of the world's great religions during an age marked by world wars genocide nationalism decolonization and powerful ideological currents many of them hostile to Christianity Amazon.com Broken Altars Thomas Albert Howard, 2025-03-25 A sweeping history of the violence perpetrated by governments committed to extreme forms of secularism in the twentieth century A popular truism derived from the Enlightenment holds that violence is somehow inherent to religion to which political secularism offers a liberating solution But this assumption ignores a glaring modern reality that putatively progressive regimes committed to secularism have possessed just as much and often a vastly greater capacity for violence as those tied to a religious identity In Broken Altars Thomas Albert Howard presents a powerful account of the sheer numbers misery deaths and destruction visited on religious communities by secularist regimes in the twentieth century Presenting three principal forms of modern secularism that have arisen since the Enlightenment passive secularism combative secularism and eliminationist secularism Howard argues that the latter two have been especially violence prone Westerners do not fully grasp this however because they often mistake the first form passive secularism for secularism as a whole But a disconcertingly more complicated picture emerges with the adoption of a broader global vision Admitting different species of secularism greater historical perspective and case studies drawn from the former Soviet Union Turkey Mexico Spain Czechoslovakia Albania Mongolia and China among other countries Howard calls into question the conventional tale of modernity as the pacifying triumph of secularism over a benighted religious past **The American Bibliography of Slavic and East European Studies** Pat Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology **The Christian Right & US Foreign Policy in the 21st Century** Mohd Afandi Salleh, 2020-01-07 This book is about the role of the Christian Right in the US foreign policy decision making process It reveals that the Christian Right

has long been fascinated with some international issues in general and US foreign policy in particular. The interest of the movement in international issues increased markedly during the George W Bush administration 2000-2009. During this period the movement successfully widened its activism from domestic social conservative issues to foreign policy issues by participating in articulating and lobbying for its religious version of American foreign policy. In assessing the role of the Christian Right in US foreign policy making, this dissertation examines aspects of US foreign policy namely Israel, international religious freedom and global humanitarianism. Based on these three aspects, the Christian Right is seen as skilled in framing and defining issues. The Christian Right seems effective in selecting and prioritizing international issues that have a reasonable chance of being picked up on by foreign policy decision makers especially in Congress. Moreover, the Christian Right has shown its maturity in seeking engagement and cooperation with other organizations regardless of whether they are secular or religious to advance its international goals. Finally, in pursuing and conveying its international agenda, the Christian Right has adopted a more moderate and mundane approach. Instead of using its traditional religious rhetoric, the Christian Right has successfully projected its foreign policy preferences into the conventional realist discourse of American foreign policy that was largely based on the objective of national interest and national security.

Islam in Russia: The Politics of Identity and Security Shireen Hunter, 2016-09-16. The Dark Side of Church/State Separation Stephen Strehle, 2017-09-08. The Dark Side of Church/State Separation analyzes the Enlightenment's attack upon the Judeo-Christian tradition and its impact upon the development of secular regimes in France, Germany and Russia. Such regimes followed the anti-Semitic, anti-Christian agenda of the French Enlightenment in blaming the Judeo-Christian tradition for all the ills of European society and believing that human beings can develop their own set of values and purposes through rational means apart from any revelation from God or Scripture. Stephen Strehle's analysis extends our understanding of church/state relations and its history. He confirms the spiritual roots of modern anti-Semitism within the ideology of the Enlightenment and recognizes the intimate relationship between anti-Semitism and anti-Christianity. Strehle questions the absolute doctrine of church/state separation given its background in the bigotries of the philosophes. He notes the nefarious motives of subsequent regimes which used the French doctrine to replace the religious community with the state and its secular ideology. This detailed historical analysis of original sources and secondary literature is woven together with special appreciation for the philosophical and theological ideas that contributed to the

emergence of political institutions Readers will gain an understanding of the most influential ideas shaping the modern world and present day culture
