Brent Larson, 2008 The research question addressed in this project is how does a school wide read affect reluctant ninth grade readers The motivation for this research project and the following capstone emanated from a teacher's desire to share his love of literature and reading with his students and colleagues The author tested the possibility of developing a school wide read that would not only encourage reluctant readers but help build a community of learners This community was comprised of students faculty staff and administrators as well Data was collected on a small group of reluctant readers who were not illiterate but better described as aliterate The author documents the details of the school wide read and describes the successes and struggles of implementing the project The results showed that while many involved with the school wide read had high praise for the project the efficacy of this activity is hard to determine Ultimately a school wide read is not a panacea for reluctant readers
