Boundaries of Personal Property Arianna Pretto-Sakmann, 2005-08-15 This study of the boundaries of personal property has an inward and an outward perspective with the intellectual emphasis on the latter The inward looking inquiry considers shares as items of personal property Nowadays those who think of themselves as shareholders often stand one step removed from the share itself They hold what this book christens a sub share This part of the book asks in what sense shares and sub shares can be conceived to be things how those things are alienated and how they are protected in litigation The outward looking inquiry then asks whether personal property can be contemplated as a sub category of the law of things and more particularly as the law of all things locatable in space alienable or vindicable in court The outward inquiry considers three boundaries Within the law of property the line between realty and personalty proves relatively uncontroversial the second boundary lies between property and obligations the third between wealth and non wealth The second boundary is the main concern Respect for it necessitates a differentiation between the law of property in the strict sense and the all encompassing law of wealth even where the consequence might be to exclude shares and sub shares from the law of property In

maintaining the value of careful proprietary taxonomy and in reviving the underlying concepts on which it depends this book opposes modern scepticism as to the possibility and desirability of precision in legal classification In these commitments it could fairly be styled a post modern study of personal property Winner of the SLS Birks Prize for Outstanding Legal Scholarship 2006 Second Prize El documental expandido : pantalla y espacio Jacobo Sucari,2012-12 El documental contemporáneo despliega la pantalla bidimensional de la televisión o del cine en nuevos formatos en los que el recorrido espacial del espectador por la sala de exposiciones como la multiplicidad narrativa o el acceso aleatorio a la información tienen especial incidencia a la hora de concebir y desarrollar nuevos procesos de representación documental El Documental expandido sugiere nuevas fórmulas y maneras de representación que podemos englobar en un ámbito post media es decir que trasciende las características propias de una tradición visual para generar un modelo en el que se añaden el cine el vídeo la fotografía el texto el sonido la informática y la instalación Esta singular estrategia expositiva del documental contemporáneo es consecuencia de un proceso de hibridación motivado por las nuevas tecnologías de la imagen la búsqueda de nuevos canales de difusión y el desarrollo de lenguajes expresivos ligados a la necesidad de pensar un presente complejo Digitalia
