**Trust Territory of the Pacific Islands.  
High Commissioner**

## **Remaking Micronesia Discourses Over Development In A Pacific Territory 1944 198:**

*Remaking Micronesia* David L. Hanlon, 1998-03-01 America's efforts at economic development in the Caroline Mariana and Marshall Islands proved to be about transforming in dramatic fashion people who occupied real estate deemed vital to American strategic concerns. Called Micronesians, these island people were regarded as other and their otherness came to be seen as incompatible with American interests. And so underneath the liberal rhetoric that surrounded arguments, proposals and programs for economic development was a deeper purpose: America's domination would be sustained by the remaking of these islands into places that had the look, feel, sound, smell and taste of America. Had the many and varied plans actually succeeded? However, the gap between intent and effect holds a rich and deeply entangled history. *Remaking Micronesia* stands as an important, imaginative, much-needed contribution to the study of Micronesia, American policy in the Pacific and the larger debate about development. It will be an important source of insight and critique for scholars and students working at the intersection of history, culture and power in the Pacific. [The Cambridge History of the Pacific Ocean: Volume 2, The Pacific Ocean since 1800](#) Anne Perez Hattori, Jane Samson, 2023-01-05 Volume II of *The Cambridge History of the Pacific Ocean* focuses on the latest era of Pacific history, examining the period from 1800 to the present day. This volume discusses advances and emerging trends in the historiography of the colonial era before outlining the main themes of the twentieth century when the idea of a Pacific-centred century emerged. It concludes by exploring how history and the past inform preparations for the emerging challenges of the future. These essays emphasise the importance of understanding how the postcolonial period shaped the modern Pacific and its historians. [Suburban Empire](#) Lauren Hirshberg, 2022-03-15 *Suburban Empire* takes readers to the US missile base at Kwajalein Atoll in the Marshall Islands at the matrix of postwar US imperial expansion, the Cold War nuclear arms race and the tide of anti-colonial struggles rippling across the world. Hirshberg shows that the displacement of indigenous Marshallese within Kwajalein Atoll mirrors the segregation and spatial politics of the mainland US as local and global iterations of US empire took hold. Tracing how Marshall Islanders navigated US military control over their lands, *Suburban Empire* reveals that Cold War era suburbanization was perfectly congruent with US colonization, military testing and nuclear fallout. The structures of suburban segregation cloaked the destructive history of control and militarism under a veil of small town innocence. **Living in a Nuclear World** Bernadette Bensaude-Vincent, Soraya Boudia, Kyoko Sato, 2022-03-10 The Fukushima disaster invites us to look back and probe how nuclear technology has shaped the world we live in and how we have come to live with it. Since the first nuclear detonation, Trinity test and the bombings of Hiroshima and Nagasaki in 1945, nuclear technology has profoundly affected world history and geopolitics as well as our daily life and natural world. It has always been an instrument for national security, a marker of national sovereignty, a site of technological innovation and a promise of energy abundance. It has also introduced permanent pollution and the age of the Anthropocene. This volume presents a new perspective on nuclear

history and politics by focusing on four interconnected themes violence and survival control and containment normalizing through denial and presumptions memories and futures and exploring their relationships and consequences It proposes an original reflection on nuclear technology from a long term comparative and transnational perspective It brings together contributions from researchers from different disciplines anthropology history STS and countries US France Japan on a variety of local national and transnational subjects Finally this book offers an important and valuable insight into other global and Anthropocene challenges such as climate change
