## **Remaking The Chinese State Strategies Society And Security:**

Remaking the Chinese State Jianmin Zhao, Bruce J. Dickson, 2001 After more than twenty years of economic and political reform China is a vastly different country to that left by Mao Almost all the characteristic policies and practices of the Maoist era have been abandoned with the goals of revolution in foreign and domestic policy being replaced by an emphasis on economic modernization accompanied by radical social transformation and an increasingly significant international role Yet despite these dramatic changes other fundamental features of China's policy remain unchanged This book explores the strategies of reform in China and their implications for its domestic and foreign policies It challenges the misconceptions that no political reforms are taking place and that China is eagerly embracing capitalism It also challenges the view that China does not abide by international norms and practices on military and security matters Its contributors all highly respected scholars avoid simple generalisations about the nature of China's politics or future path instead offering comparisons and contrasts between policy areas and regions to create a more complete picture of this complex country

workers urban homeowners to environmentalists nationalists to dissidents ethnic minorities to Hong Kong residents Wright shows that with the exception of the latter popular protest has achieved adequate government responses to the public's most serious grievances Yet Wright cautions that this may not last forever For Chinese citizens that engage in protest often suffer serious emotional and physical costs As a result they have developed an unhealthy relationship with the regime In this context Xi Jinping's recent efforts to restrict public expression may backfire leading to an explosive dynamic that may threaten the political stability that China's ruling elites so desire
