A. Russell, 1994 The Arabick Interest of the Natural Philosophers in Seventeenth Century England deals with the remarkably widespread interest in Arabic in seventeenth century England among Biblical scholars and theologians natural philosophers and Fellows of the Royal Society and others It led to the institutionalisation of Arabic studies at Oxford and Cambridge Universities where Arabic chairs were set up and immense manuscript collections were established and utilised Fourteen historians examine the extent and sources of this Arabic interest in areas ranging from religion astronomy mathematics medicine philosophy philology and alchemy to botany Arabic is shown to have been a significant component of the rise of Protestant intellectual tradition and the evolution of secular scholarship at universities *Oxf. Hist. Soc*, 1898 Landmark Cases in Succession

Law Brian Sloan, 2019-10-31 The Landmark Cases series highlights the historical antecedents of what are widely considered to be the leading cases in a discipline and seeks to provide contexts in which to better understand how and why certain cases came to be regarded as the landmark cases in any given field Succession law's long pedigree, near universal application, immense capacity for human interest stories, somewhat uncertain future in England and Wales, and close connection to demographics make it an ideal candidate for a Landmark Cases volume The distinguished contributors to this collection consider cases ranging from 1720 to 2017 covering issues such as will making and interpretation, the position of beneficiaries and personal representatives, testamentary promises, and the extent of testamentary freedom in England and Wales and beyond The cases are relevant not only to scholars and students of succession law per se but also those working in fields such as tax, trusts, tort, and land law They raise issues as diverse as class, colonialism, familial dynamics, expectations, and obligations, mental health, and the proper roles of the legal profession and the welfare state The collection will provoke much discussion on what makes a landmark case as well as on the peculiarities and limitations of the case law method **The Oxford**

Handbook of the History of the Book in Early Modern England Adam Smyth, 2023 How were books in early modern England made, circulated, sold, stored, read, marked, altered, preserved, and destroyed The Oxford Handbook to the History of the Book in Early Modern England provides a stimulating account of the very newest work in the field and an exploration of how new thinking might develop Written by scholars working at the cutting edge of the subject from the UK and North America, the volume combines lucidity, scholarly expertise, intellectual precision, and an imaginative structure that will enable contributors to show why the history of the book matters This volume analyses in a lively manner the nature and role of the book in early modern England and also considers critically how we can talk about the history of books *The Athenaeum*

, 1888 **Arthurian Literature XXX** Elizabeth Archibald, David F. Johnson, 2013-12 Arthurian Literature has established its position as the home for a great diversity of new research into Arthurian matters It delivers fascinating material across genres, periods, and theoretical issues **TIMES LITERARY SUPPLEMENT** **Religion, Reform and Modernity in the**

Eighteenth Century Robert G. Ingram, 2007 A new interpretation of English history and religion in the eighteenth century The eighteenth century has long divided critical opinion Some contend that it witnessed the birth of the modern world while others counter that England remained an ancien regime, confessional state This book takes issue with both positions, arguing that the former overstate the newness of the age and largely misdiagnose the causes of change while the latter rightly point to the persistence of more traditional modes of thought and behaviour but downplay the era's fundamental uncertainty and misplace the reasons for and the timeline of its passage The overwhelming catalyst for change is here seen to be war rather than long-term social and economic changes Archbishop Thomas Secker, 1693-1768, the Cranmer of his age, and the hitherto neglected church reforms he spearheaded form the particular focus of the book This is the first full, archivally based study of a crucial but frequently ignored figure **ROBERT G INGRAM** is Assistant Professor at the Department of History, Ohio

University **Brill's Companion to Cassius Dio** ,2023-02-27 This Companion is the first of its kind on the Roman historian Cassius Dio It introduces the reader to the life and work of one of the most fundamental but previously neglected historians in the Roman historical cannon Together the eighteen chapters focus on Cassius Dio s background as a Graeco Roman intellectual from Bithynia who worked his way up the political hierarchy in Rome and analyzes his Roman History as the product of a politically engaged historian who carefully ties Rome s constitutional situation together with the city s history
