Remembering Tomorrow:

The Collected Sermons of Fred B. Craddock Fred B. Craddock, 2011-04-04 This collection of more than fifty of Fred Craddock's sermons provides a glimpse of a master preacher at work. Amazingly only one of the sermons was preached from a manuscript written in advance as Craddock considered a sermon to be an event in the world of sound. As a result the selections here wonderfully reflect and preserve Craddock's voice and engage readers with all the immediacy of the spoken word.

Popular Music in the Classroom David Whitt, 2020-06-25 Popular music has long been a subject of academic inquiry with college courses taught on Elvis Presley, Bob Dylan and the Beatles along with more contemporary artists like Beyoncé and Outkast. This collection of essays draws upon the knowledge and expertise of instructors from a variety of disciplines who have taught classes on popular music. Topics include the analysis of music genres such as American folk, Latin American protest music and Black music, exploring the musical catalog and socio-cultural relevance of specific artists and discussing how popular music can be used to teach subjects such as history, identity, race, gender and politics. Instructional strategies for educators are provided.

Trickbox of Memory Felicitas Macgilchrist, Rosalie Metro, 2020 Reach into this trickbox of memory and rummage around; you may find a tiny spaceship or perhaps a signpost, a parade, a raised fist, an entire museum. The essays in *Trickbox of Memory* Essays on Power and Disorderly Pasts draw on literary criticism, post-qualitative inquiry, new materialism and political activism to dismember and reanimate the field of memory studies. In the trickbox, concepts rub up against each other, pieces chip off, things leak, glitter gets everywhere. Things are damaged, their edges are ragged. Some show the potential for repair in the future. The chapters in this volume respond to the observation that in today's moment of political danger, expected pasts can easily be instrumentalized in the service of fascism. *Trickbox of Memory* interrupts the expected to throw history into disarray by focusing on the subtlety of how power relations are enacted and contested in reference to the past, assembling a transnational constellation of scholars and practitioners who offer new tricks for working critically with disorderly pasts.

universities explosive growth intersected with the turmoil of the 1960s fomenting an unprecedented crisis where dissent over racial inequality and the Vietnam War erupted into direct action Torn by internal power struggles and demonized by conservative voices higher education never fully recovered resulting in decades of underfunding and today's woefully inequitable system As Schrecker's magisterial history makes blazingly clear the complex blend of troubles that disrupted the university in that pivotal period haunts the ivory tower to this day
