Singer, Peter Salovey, 2010-06-15 A theory for psychologists on the role of memory in personality psychology In The Remembered Self Jefferson A. **Revolutionary Memory** Cary Nelson,2013-10-11 Revolutionary Memory is the most important book yet to be published about the vital tradition of leftwing American Poetry As Cary Nelson shows it is not only our image of the past but also our sense of the present and future that changes when we recover these revolutionary memories Making a forceful case for political poetry as poetry Nelson brings to bear his extraordinary knowledge of American poets radical movements and social struggles in order to bring out an undervalued strength in a literature often left at the canon's edge Focused in part of the red decade of the 1930s RevolutionaryMemory revitalizes biographical criticism for writers on the margin and shows us for the first time how progressive poets fused their work into a powerful chorus of political voices Richly detailed and beautifully illustrated with period engravings and woodcuts Revolutionary Memory brings that chorus dramatically to life and set a cultural agenda for future work      **Celebrating Canada** Mathew Hayday,Raymond B. Blake,2017-01-06 Holidays are a key to helping us understand the transformation of national regional community and ethnic identities In Celebrating Canada Matthew Hayday and Raymond Blake situate Canada in an international context as they examine the history and evolution of our national and provincial holidays and annual celebrations The contributors to this volume examine such holidays as Dominion Day Victoria Day Quebec's Fête Nationale and Canadian Thanksgiving among many others They also examine how Canadians celebrate the national days of other countries like the Fourth of July and how Dominion Day was observed in the United Kingdom Drawing heavily on primary source research and theories of nationalism identities and invented traditions the essays in this collection deepen our understanding of how these holidays have influenced the evolution of Canadian identities      *John Updike Remembered* Jack A. Thurston, 2003-01-14 Poetry makes nothing happen wrote W H Auden in 1939 expressing a belief that came to dominate American literary institutions in the late 1940s the idea that good poetry cannot and should not be politically engaged By contrast Michael Thurston here looks back to the 1920s and 1930s to a generation of poets who wrote with the precise hope and the deep conviction that they would move their audiences to action He offers an engaging new look at the political poetry of Edwin Rolfe Langston Hughes Ezra Pound and Muriel Rukeyser Thurston combines close textual reading of the poems with research into their historical context to reveal how these four poets deployed the resources of tradition and experimentation to contest and redefine political common sense In the process he demonstrates that the aesthetic censure under which much partisan writing has labored needs dramatic revision Although each of these poets worked with different forms and toward different ends Thurston shows that their strategies succeed as poetry He argues that partisan poetry demands reflection not only on how we evaluate poems but also on what we value in poems and therefore which poems we elevate

**Lyric Poetry** Mutlu Blasing, 2009-01-10 Lyric poetry has long been regarded as the intensely private emotional expression of individuals powerful precisely because it draws readers into personal worlds But who exactly is the I in a lyric poem and how is it created In Lyric Poetry Mutlu Blasing argues that the individual in a lyric is only a virtual entity and that lyric poetry takes its power from the public emotional power of language itself In the first major new theory of the lyric to be put forward in decades Blasing proposes that lyric poetry is a public discourse deeply rooted in the mother tongue She looks to poetic linguistic and psychoanalytic theory to help unravel the intricate historical processes that generate speaking subjects and concludes that lyric forms convey both personal and communal emotional histories in language Focusing on the work of such diverse twentieth century American poets as T S Eliot Ezra Pound Wallace Stevens and Anne Sexton Blasing demonstrates the ways that the lyric I speaks from first to last as a creation of poetic language      **Concrete Encoded**

Nathaniel Wolfson, 2025-11-04 A study of concrete art and poetry its implications and influence in Brazil Concrete art and

poetry burst onto Brazil's cultural stage in the 1950s while the country was embarking on a dizzying period of modernization. Bringing together key poets and visual artists alongside less recognized figures, Nathaniel Wolfson shows that concretism was hardly socially inert as pundits have suggested. Rather, it presciently grappled with an emerging information age that would soon reorganize human relations globally. *Concrete Encoded* describes a nascent cybernetic imaginary. Concretism has long been considered Brazil's most global aesthetic movement. Wolfson traces new circles of international theorists and practitioners involved in critical technological thought. Wolfson argues that concrete poetry is the quintessential literary genre of the early information age. He shows that Brazilian poets, artists, and designers contested the military dictatorship's technological authoritarianism and information gathering operations. Vigorous experimentalists turned their attention to form and semantics, unveiling both the creative and nefarious possibilities of algorithmic writing. A highly original work, *Concrete Encoded* reckons with aesthetic responses from Brazil to an advancing capitalist and digital era.
