Remnants Of War:

The Remnants of War John Mueller, 2007 Mueller argues that war is an idea like dueling or slavery that has been substantially discredited reduced to its remnants or dregs and thugs are the residual combatants **Aftermath: The Remnants of War** Donovan Webster, 2011-06-29 In riveting and revelatory detail *Aftermath* documents the ways in which wars have transformed the terrain of the battlefield into landscapes of memory and enduring terror in France where millions of acres of farmland are cordoned off to all but a corps of demolition experts responsible for the undetonated bombs and mines of World War I that are now rising up in fields gardens and backyards in a sixty square mile area outside Stalingrad that was a cauldron of destruction in 1941 and is today an endless field of bones in the Nevada deserts where America waged a hidden nuclear war against itself in the 1950s the results of which are only now becoming apparent in Vietnam where a nation's effort to remove the physical detritus of war has created psychological and genetic devastation in Kuwait where terrifyingly sophisticated warfare was followed by the Sisyphean task of making an uninhabitable desert capable of sustaining life *Aftermath* excavates our century's darkest history revealing that the destruction of the past remains deeply inextricably embedded in the present Explosive Remnants of War Stockholm International Peace Research Institute, 1985

Aftermath Donovan Webster, 1996 In riveting and revelatory detail *Aftermath* documents the ways in which wars have transformed the terrain of the battlefield into landscapes of enduring terror and memory in France where millions of acres of farmland are cordoned off to all but a corps of demolition experts responsible for the undetonated bombs and mines of World War I that are now rising up in fields gardens and backyards in a sixty square mile area outside Stalingrad that was a cauldron of destruction in 1941 and is today an endless field of bones in the Nevada deserts where America waged a hidden nuclear war against itself in the 1950s the results of which are only now becoming apparent in Vietnam where a nation's effort to remove the physical detritus of war has created biologic and psychological devastation in Kuwait where terrifyingly sophisticated warfare was followed by the Sisyphean task of making an uninhabitable desert capable of sustaining life Only now at century's end can we begin to see how the destructive often lethal remnants of past wars remain deeply fatally embedded in the present *Remnants of War*, 1983 **The Law of War** William H. Boothby, Wolff Heintschel von Heinegg, 2018-03-29 In 2015 the United States Department of Defense published its long awaited Law of War Manual making a significant statement on the position of the US government on important military matters Whilst readers recognise the Manual's legal and strategic importance they may question whether particular statements of law are legally accurate or complete This book offers a unique in depth review of the complete Manual including revisions on a paragraph by paragraph line by line and word by word basis The authors offer their personal assessment of the DoD's declared view as to the law that regulates the conduct of warfare a subject of unparalleled current importance William H Boothby and Wolff Heintschel von Heinegg offer a balanced articulate and authoritative critique for readers perusing the Manual in whatever capacity **The**

Law of Armed Conflict and the Use of Force Frauke Lachenmann, Rüdiger Wolfrum, 2017 This volume collects articles on the law of armed conflict and the use of force from the Max Planck Encyclopedia of Public International Law to facilitate easy access to content from the leading reference work in international law Security Cecilia Bailliet, 2009 Drawing on scholars and practitioners from law and philosophy this book offers new insights on Security as a term of art subject to normative evolution and gaps Review of the role of international organisations the changing face of armed conflict human rights and democratic guarantees as measures of security and the challenge of climate change provides rich topics for consideration

Remnants of War, 1983 *Humanizing the Laws of War* Robin Geiß, Andreas Zimmermann, Stefanie Haumer, 2017-06-15 Over the past 150 years the International Committee of the Red Cross ICRC has been one of the main drivers of progressive development in international humanitarian law whilst assuming various roles in the humanization of the laws of war With select contributions from international experts this book critically assesses the ICRC's unique influence in international norm creation It provides a detailed analysis of the workings of the International Red Cross Red Crescent Movement and ICRC by addressing the milestone achievements as well as the failures shortcomings and controversies over time Crucially the contributions highlight the lessons to be learnt for future challenges in the development of international humanitarian law This book will be of particular interest to scholars and students of international law but also to practitioners working in the field of international humanitarian law at both governmental and non governmental organizations

A History of the Laws of War: Volume 3 Alexander Gillespie, 2011-10-07 This unique work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and ascribing rules to them protecting civilians who are either inadvertently or intentionally caught up between them and controlling the use of particular classes of weapons that may be used in times of conflict Thus it is that this work is divided into three substantial parts Volume 1 on the laws affecting combatants and captives Volume 2 on civilians and Volume 3 on the law of arms control This third volume deals with the question of the control of weaponry from the Bronze Age to the Nuclear Age In doing so it divides into two parts namely conventional weapons and Weapons of Mass Destruction The examination of the history of arms control of conventional weapons begins with the control of weaponry so that one side could achieve a military advantage over another This pattern which only began to change centuries after the advent of gunpowder was later supplemented by ideals to control types of conventional weapons because their impacts upon opposing combatants were inhumane By the late twentieth century the concerns over inhumane conventional weapons were being supplemented by concerns over indiscriminate conventional weapons The focus on indiscriminate weapons when applied on a mass scale is the

core of the second part of the volume Weapons of Mass Destruction are primarily weapons of the latter half of the twentieth century Although both chemical and biological warfare have long historical lineages it was only after the Second World War that technological developments meant that these weapons could be applied to cause large scale damage to non combatants thi is unlike uclear weapons which are a truly modern invention Despite being the newest Weapon of Mass Destruction they are also the weapon of which most international attention has been applied although the frameworks by which they were contained in the last century appear inadequate to address the needs of current times As a work of reference this set of three books is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself

War and Ideas John Mueller,2013-09-13 This book collects the key essays together with updating notes and commentary of Professor John Mueller on war and the role of ideas and opinions Mueller has maintained that war and peace are in essence merely ideas and that war has waned as the notion that peace is a decidedly good idea has gained currency The first part of the book extends this argument noting that as ideas have spread war is losing out not only in the developed world but now in the developing one and that even civil war is in marked decline It also assesses and critiques theories arguing that this phenomenon is caused by the rising acceptance of democracy and or capitalism The second part argues that the Cold War was at base a clash of ideas that were seen to be threatening not of arms balances domestic systems geography or international structure It also maintains that there has been a considerable tendency to exaggerate security threats currently in particular the one presented by international terrorism and to see them in excessively military terms The third section deals with the role public opinion plays in foreign policy and argues that many earlier conclusions about opinion during the Korean and Vietnam Wars including especially ones concerning the importance of casualties in determining popular support for war apply to more recent military ventures in the Persian Gulf Bosnia Iraq and Afghanistan It also assesses the difficulties leaders and idea entrepreneurs often encounter when they try to manage or manipulate public opinion This book will be of much interest to students of international relations security studies foreign policy and international history

The 1998-2000 Eritrea-Ethiopia War and Its Aftermath in International Legal Perspective Andrea de Guttry,Harry H. G. Post,Gabriella Venturini,2021-04-01 This book centres on the war that raged between Eritrea and Ethiopia from 1998 to 2000 a war that caused great loss of life and tremendous devastation It analyses the war in great detail from an international legal perspective the nature and the state of the boundary conflict preceding the actual armed conflict the military actions themselves the role of the UN peace keeping mission the responsibility for the multitude of explosive remnants of the war left behind Ample attention is paid to the decisions of the Eritrea Ethiopia Claims Commission and the Eritrea Ethiopia Boundary Commission This study is not limited to the war and the period immediately following it it also examines its more extended aftermath prolonging the analysis as far as the more recent improvement in the relations

between Eritrea and Ethiopia away from a situation of no war no peace that prevailed after the armed conflict ended The analysis of the war and its aftermath is not only in terms of international legal issues it has been placed in a wider than strictly legal perspective The book is a valuable work for academics and practitioners in international law human rights and humanitarian law in particular for political scientists diplomats civil servants historians and all those others seriously interested in the Horn of Africa Andrea de Guttry is Full Professor of Public International Law at the Scuola Superiore Sant Anna in Pisa Italy Harry H G Post is Adjunct Professor in the Facult Libre de Droit of the Universit Catholique de Lille in Lille France Gabriella Venturini is Professor Emerita in the Dipartimento di Studi internazionali giuridici e storico politici of the Universit degli Studi di Milano in Milan Italy

Controlling the Weapons of War Brian Rappert, 2013-05-13 A fresh examination of the ethical and intellectual issues and dilemmas associated with attempts to establish formal humanitarian limits on weaponry This new study considers how governments non governmental organizations academics political commentators and others have responded to the predicaments associated with imposing classifications about the relative acceptability of force and what is accomplished in their strategies for doing so It develops these issues through combining thematic and conceptual analysis with the examination of varied cases of prohibitions on conventional and unconventional weapons through customary and statutory laws multilateral treaties UN resolutions and national legislation The book will appeal to students of security studies military technology peace studies international relations and discourse theory

The Environmental Consequences of War Jay E. Austin, Carl E. Bruch, 2000-10-26 The environmental devastation caused by military conflict has been witnessed in the wake of the Vietnam War the Gulf War and the Kosovo conflict This book brings together leading international lawyers military officers scientists and economists to examine the legal political economic and scientific implications of wartime damage to the natural environment and public health The book considers issues raised by the application of humanitarian norms and legal rules designed to protect the environment and the destructive nature of war Contributors offer an analysis and critique of the existing law of war framework lessons from peacetime environmental law means of scientific assessment and economic valuation of ecological and public health damage and proposals for future legal and institutional developments This book provides a contemporary forum for interdisciplinary analysis of armed conflict and the environment and explores ways to prevent and redress wartime environmental damage

Return to Vietnam Mia Martin Hobbs, 2021-10-14 Between 1981 and 2016 thousands of American and Australian Vietnam War veterans returned to Vi t Nam This comparative transnational oral history offers the first historical study of these return journeys It shows how veterans returned in search of resolution or peace manifesting in shifting nostalgic visions of Vietnam Different national war narratives shaped their returns Australians followed the Anzac pilgrimage tradition whereas for Americans the return was an anti war act Veterans met former enemies visited battlefields mourned friends found new relationships and addressed enduring legacies of war Many found their memories of war eased by witnessing Vi t Nam at peace Yet this peacetime reality

also challenged veterans wartime connection to Vietnamese spaces The place they were nostalgic for was Vietnam a space in war memory not Vi t Nam the country Veterans drew from wartime narratives to negotiate this displacement performing nostalgic practices to reclaim their sense of belonging

The Law of Armed Conflict Gary D. Solis,2016-04-18 Newly revised and expanded The Law of Armed Conflict 2nd edition introduces law students and undergraduates to the law of war in an age of terrorism What law of armed conflict LOAC or its civilian counterpart international humanitarian law IHL applies in a particular armed conflict Are terrorists legally bound by that law What constitutes a war crime What or who is a lawful target and how are targeting decisions made What are rules of engagement and who formulates them How can an autonomous weapon system be bound by the law of armed conflict Why were the Guant namo military commissions a failure This book takes students through these LOACIHL questions and more employing real world examples and legal opinions from the US and abroad From Nuremberg to 9 11 from courts martial to the US Supreme Court from the nineteenth century to the twenty first the law of war is explained interpreted and applied

Ecology of War & Peace Tom H. Hastings,2000 How do mobilization for war and the actual war effort affect the environment How do ecological conditions encourage war What are possible non violent solutions to the ecological conflict dynamic Ecology of War Peace attempts to answer these questions in readable prose with an unapologetic bias toward non violence
