## **Renaissance Culture In Context Theory And Practice:**

*Renaissance Culture in Context* Jean R. Brink, 2017-07-05 Scholarly traditions of the nineteenth and twentieth centuries have led us to assume that national traditions were defining in a way that they may not have been during the Renaissance when Latin remained an international language This collection interrogates the historical importance of national traditions many of which depend upon geographical boundaries that took their shape only after the emergence of the nation state in the modern period In a seminal essay on Scottish literature R D S Jack delineates the problems of defining a national literature Zirka Zaremba Filipczak traces connections between Italy and The Netherlands while Jozef Ijsewijn examines the use of Italian models by neo Latin authors and Francis M Higman offers a preliminary study of European translations of Reformation authors Paul W Knoll reminds us that the division between western and eastern Europe dates from this century by demonstrating the impact of Italian humanism on Polish universities Divisions among disciplines are also challenged by the contributors to this volume Arthur F Kinney brilliantly shows that literature is enriched by an understanding of historical and political texts Jacqueline L Glomski questions the division between historiography and art while Howard Mayer Brown indicates the importance of literary concepts such as rhetoric and genre for the Italian madrigal and Norman K Farmer Jr of theological texts for interpreting poetry Minna Skafte Jensen traces the impact of a major reformer on some Danish poets Conceptual forms of internationality are explored in essays by Bart Westerweel on time Bruce P Lenman on geography and Karen Skovgaard Petersena and Karin Tilmans on historiography Taken together the essays in this volume offer a compelling and persuasive justification for an interdisciplinary and international approach to the study of Renaissance culture

Schirg,2019-07-08 For a long time studies on northern antiquarianism have focused on individual nations This volume introduces this phenomenon in a transnational perspective In the course of the 17th and 18th centuries the Baltic Sea was at the centre of a culture of debate whose networks encompassed numerous European centres of learning When the countries around the Baltic began to explore their own antiquities in this period the prevailing climate of competition between Sweden Denmark Russia and the German countries soon permeated the construction and presentation of their own pasts Exploring the ancient literatures and monuments of Iceland Sweden or Denmark studying runic writings or the Sami tradition the northern scholars were establishing an individual architecture of history and so extending the horizon of their emerging nations both geographically and historically The contributions in this volume provide case studies illustrating the role that scholarship art and literature played in establishing and maintaining national claims around the Baltic Sea The variety of methods combined for this purpose makes this book of interest to intellectual historians as well as historians of art and early modern science

Anthropology and Archaeology *Theatre and empire* Tristan Marshall,2018-04-30 Theatre and empire looks at the genesis of British national identity in the reign of King James VI and I While devolution is currently decentralising Britain this book examines how the idea of a united kingdom was created in the first place It does this by studying two things the political language of the King s project to replace England Scotland and Wales with a single kingdom of Great Britain and cultural representations of empire on the public and private stages The book argues that between 1603 and 1625 a group of playwrights celebrated a new national consciousness in works as diverse as Middleton s Hengist King of Kent Rowley s The Birth of Merlin and Shakespeare s Cymbeline Specifically Jacobean interdisciplinary studies are few compared with Elizabethan and Caroline works but the book attempts to redress the balance by offering a fresh appraisal of James Stuart s reign Looking at both established and little known plays and playwrights Theatre and empire rewrites our understanding of

the political and cultural context of the Jacobean stage      **National Thought in Europe** Joseph Theodoor Leerssen, 2006 Ranging widely across countries and centuries *National Thought in Europe* critically analyzes the growth of nationalism from its beginnings in medieval ethnic prejudice to the romantic era's belief in a national soul A fertile pan European exchange of ideas often rooted in literature led to a notion of a nation's cultural individuality that transformed the map of Europe By looking deeply at the cultural contexts of nationalism Joep Leerssen not only helps readers understand the continent's past but he also provides a surprising perspective on contemporary European identity politics      *Memory Ireland* Oona Frawley, 2012-03-29 In the second volume of a series that will ultimately include four the authors consider Irish diasporic memory and memory practices While the Irish diaspora has become the subject of a wide range of scholarship there has been little work focused on its relationship to memory The first half of the volume asks how diasporic memory functions in different places and times and what forms it takes on As an island nation with a history of emigration Ireland has developed a rich diasporic cultural memory one that draws on multiple traditions and historiographies of both home and away Native traditions are not imported wholesale but instead develop their own curious hybridity reflecting the nature of emigrant memory that absorbs new ways of thinking about home How do immigrants remember their homeland How do descendants of immigrants remember a land they rarely visit How does diasporic memory pass through families and how is it represented in cultural forms such as literature festivals and souvenirs In its second half this volume shifts its attention to the concept of memory practices ways of cultural remembering that result from and are shaped by particular cultural forms Many of these cultural forms embody memory materially through language music and photography and because of their distinctive expressions of culture give rise to distinctive memory practices Gathering the leading voices in Irish studies this volume opens new pathways into the body of Irish cultural memory demonstrating time and again the ways in which memory is supported by the negotiations of individuals within wider cultural contexts Contributors include Aidan Arrowsmith Hasia Diner Joep Leerssen Paul Muldoon Nuala Ní Dhomhnaill      *Networks, Regions and Nations* Robert Stein, Judith Pollmann, 2010 This volume offers a fascinating insight into the continuities and discontinuities in the formation of identities in the Low Countries and its neighbouring countries It is an important contribution to the ongoing debates about national and other identities      **Shakespeare's As You Like It** M. Hunt, 2008-02-04 This book is a study of *As You Like It* which shows how the play represents issues of interest to literate playgoers of its time as well as speculatively to Shakespeare himself      **Reading the Early Modern Passions** Gail Kern Paster, Katherine Rowe, Mary Floyd-Wilson, 2004-06 Authors here investigate specific emotions such as sadness courage and fear Others turn to emotions spread throughout society by contemporary events such as a ruler's death the outbreak of war or religious schism and discuss how such emotions have widespread consequences in both social practice and theory      **Lies Like Truth** Arthur F. Kinney, 2001 Kinney proposes a new way of reading this period's texts drawing us closer to the way dramatic plays such as *Macbeth* were understood from

early modern times to beyond today's technological revolution In the course of this inquiry he seeks to determine whether the 1623 text of Macbeth that we now have is anything like the original 1606 performance      **The Oxford Guide to Literature in English Translation** Peter France, 2000 This guide highlights the place of translation in our culture encouraging awareness of the process of translating and the choices involved making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Hungarian Korean to Turkish For some works e.g. Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available

*Shakespeare and Scotland* Willy Maley, Andrew Murphy, 2018-07-30 Shakespeare and Scotland is a timely collection of new essays in which leading scholars on both sides of the Atlantic address a neglected national context for an exemplary body of dramatic work too often viewed within a narrow English milieu or against a broad British backdrop These essays explore from a variety of critical perspectives the playwright's place in Scotland and the place of Scotland in his work From critical reception to dramatic and cinematic adaptation the contributors engage with the complexity of Shakespeare's Scotland and Scotland's Shakespeare The influence of Scotland on Shakespeare's writing and later on his reception is set alongside the dramatic effects that Shakespeare's work had on the development of Scottish literature from the Globe to globalisation and from Captain Jamy and King James to radical productions at the Citizens Theatre in Glasgow      "A Pearl of Powerful Learning": The University of Cracow in the Fifteenth Century Paul Knoll, 2016-08-09 Winner of The Polish Institute of Arts and Sciences of America's 2018 Oskar Halecki Award and Winner of the Early Slavic Studies Association 2016 Book Prize The first fully developed history of the University of Cracow in this period in over a century A Pearl of Powerful Learning The University of Cracow in the Fifteenth Century places the school in the context of late medieval universities traces the process of its foundation analyzes its institutional growth its setting in the Polish royal capital its role in national life and provides a social and geographical profile of students and faculty The book includes extended treatment of the content of intellectual life and accomplishments of the school with reference to the works of its most important scholars in the medieval arts curriculum medicine law and theology The emergence of early Renaissance humanist interests at the university is also discussed Winner of the Early Slavic Studies Association 2016 Book Prize for most outstanding recent scholarly monograph on pre-modern Slavdom The work was described by the prize committee as A thoughtful highly informed and nuanced history of the University of Cracow an important institution in a pivotal period of Poland's history Knoll's treatment of such important issues as the role of the University in national life and the controversial and highly technical matter of the impact of Humanism are dealt with tactfully and thoughtfully The book will become the definitive work on this topic and will ensure that the material will rapidly be absorbed into general histories of education and of

*Allegory, Space and the Material World in the Writings of Edmund Spenser* Christopher Burlinson, 2006 An examination of the way in which the material world is depicted in *The Faerie Queene* This book provides a radical reassessment of Spenserian allegory in particular of *The Faerie Queene* in the light of contemporary historical and theoretical interests in space and material culture It explores the ambiguous and fluctuating attention to materiality objects and substance in the poetics of *The Faerie Queene* and discusses the way that Spenser's creation of allegorical meaning makes use of this materiality and transforms it It suggests further that a critical engagement with materiality which has been so important to the recent study of early modern drama must come in the case of allegorical narrative through a study of narrative and physical space and in this context it goes on to provide a reading of the spatial dimensions of the poem quests and battles forests castles and hovels and the spatial characteristics of Spenser's other writings The book reaffirms the need to place Spenser in his historical contexts philosophical and scientific military and architectural in early modern England Ireland and Europe but also provides a critical reassessment of this literary historicism Dr CHRISTOPHER BURLINSON is a Research Fellow in English at Emmanuel College Cambridge
