Unpackaging Art of the 1980s Alison Pearlman, 2003-06-15 American art of the 1980s is as misunderstood as it is notorious. Critics of the time feared that market hype and self promotion threatened the integrity of art. They lashed out at contemporary art questioning the validity of particular media and methods and dividing the art into opposing camps. While controversies have since subsided, critics still view art of the 1980s as a stylistic battlefield. Alison Pearlman rejects this picture which is truer of the period's criticism than of its art. Pearlman reassesses the works and careers of six artists who became critics' biggest targets. In each of three chapters she pairs two artists the critics viewed as emblematic of a given trend: Julian Schnabel and David Salle in association with Neo Expressionism; Jean Michel Basquiat and Keith Haring vis vis Graffiti Art; and Peter Halley and Jeff Koons in relation to Simulationism. Pearlman shows how all these artists shared important but unrecognized influences and approaches a crucial and overwhelming inheritance of 1960s and 1970s Conceptualism, a Warholian understanding of public identity and a deliberate and nuanced use of past styles and media. Through in depth discussions of works from Haring's body paintings of Grace Jones to Schnabel's movie Basquiat, Pearlman demonstrates how these artists' interests exemplified a broader generational shift unrecognized by critics. She sees this shift as starting not in the 1980s but in the mid 1970s when key developments in artistic style, art world structures and consumer culture converged to radically alter the course of American art. *Unpackaging Art of the 1980s* offers an innovative approach to one of the most significant yet least understood episodes in twentieth century art.

Illustrated History of Canada Craig Brown, 2012-10-01 First published in 1987 The Illustrated History of Canada was the first comprehensive authoritative one volume history of the country. Now The Illustrated History of Canada has been fully updated to bring readers into the twenty first century with new material on such topics as the rise of small government, the recognition of Native land claims, Canada's role in the post Cold War peace and the 2011 federal election. More than ever The Illustrated History of Canada is a must have reference guide for all Canadians interested in the history and the future of our country. Contributors include Ramsay Cook, emeritus York University; Christopher Moore, Toronto writer; Desmond Morton, McGill University; Arthur Ray, emeritus University of British Columbia; Peter Waite, emeritus Dalhousie University; and Graeme Wynn, University of British Columbia.
