Retreat From Imperialism Social Studies:

The Social Studies Student Investigates the Retreat from Imperialism Henry J. Brun, 1978-01-01 The Journal of Social Studies, 1984 *Teaching and Facilitating Retreats with Caesar* Meg Gorzycki, 2017-10-12 This manual provides educators and retreat facilitators with questions for guided reflection and discussion and with ideas about how to orchestrate conversations based on these reflections The material illuminates some considerations instructors and facilitators may address as they plan for courses and retreats This guide will help instructors and facilitators plan lessons and activities that aim to enrich scholarship critical thinking and personal spiritual development In and against Development: From New to Newest Development Economics Ben Fine, 2025-02-27 The Economics of Everything or Economics Imperialism now has a dominant presence in development economics and an agenda setting role in development studies with the World Bank taking a leading if contested role This volume examines how this happened charting the evolution from the old or classic development economics through the new newer and newest development economics Drawing critically upon the Kuhnian notions of paradigm shifts corresponding changes are contextualised materially intellectually and policy wise Covering key issues such as famine the developmental state and trade and industrial policy detailed attention is paid to the potential for alternatives for economics and economic policies El-Hi Textbooks in Print, 1984 **Beyond Market-Driven Development** Costas Lapavistas, 2007-04-11 Because their economies were regulated their financial systems repressed and their states interventionist for many years the countries of East Asia challenged the Washington consensus offering an alternative development paradigm However in the 1990 s Asian capitalism was disrupted following Japan s stagnation and the financial crisis of 1997 98 Treading the unexplored theoretical terrain created by the simultaneous decline of the Washington Consensus and Asian developmentalism this revealing book analyzes the comparative political economy of East Asia and Latin America Divided into four key sections it covers Theoretical Framework Results of Globalization Converging and Diverging of Paths of Economic Development Finance and Regionalism Through the juxtaposition of countries in East Asia and Latin America leading academics analyze the impact of government intervention institutional malfunction social transformation and financial change as well as conflict and power on economic development This book will prove to be invaluable to students and academics of development economics *Anthropology and Politics* Joan Vincent, 1994-09-01 In considering how anthropologists have chosen to look at and write about politics Joan Vincent contends that the anthropological study of politics is itself a historical process Intended not only as a representation but also as a reinterpretation her study arises from questioning accepted views and unexamined assumptions This wide ranging cross disciplinary work is a critical review of the anthropological study of politics in the English speaking world from 1879 to the present a counterpoint of text and context that describes for each of three eras both what anthropologists have said about politics and the national and international events that have shaped their interests and concerns It is also an account of how

intellectual social and political conditions influenced the discipline by conditioning both anthropological inquiry and the avenues of research supported by universities and governments Finally it is a study of the politics of anthropology itself examining the survival of theses or schools of thought and the influence of certain individuals and departments The Cumulative Book Index ,1979 A world list of books in the English language **Howard University Studies in the Social Sciences** Howard University. Graduate School. Division of Social Sciences,1945 **The Social Studies** ,1916

Unpopular Sovereignty Luise White,2015-03-23 In 1965 the white minority government of Rhodesia after 1980 Zimbabwe issued a unilateral declaration of independence from Britain rather than negotiate a transition to majority rule In doing so Rhodesia became the exception if not anathema to the policies and practices of the end of empire In Unpopular Sovereignty Luise White shows that the exception that was Rhodesian independence did not in fact make the state that different from new nations elsewhere in Africa indeed this history of Rhodesian political practices reveals some of the commonalities of mid twentieth century thinking about place and race and how much government should link the two White locates Rhodesia s independence in the era of decolonization in Africa a time of great intellectual ferment in ideas about race citizenship and freedom She shows that racists and reactionaries were just as concerned with questions of sovereignty and legitimacy as African nationalists were and took special care to design voter qualifications that could preserve their version of legal statecraft Examining how the Rhodesian state managed its own governance and electoral politics she casts an oblique and revealing light by which to rethink the narratives of decolonization **Columbia Studies in the Social Sciences** Donald Craigie Gordon,1951 **Participant Observers** Freddy Foks,2023-02-14 By the 1950s social anthropologists were at the forefront of debates about culture society and the limits to economic development in Britain and the British Empire This book explains how anthropology rose to such prominence and how its influence dispersed across the humanities and social sciences Part institutional history of social anthropology s imperial formation part cultural history of the discipline s impact this is the first account of social anthropology s pivotal role in Britain s midcentury intellectual culture *Intercultural Explorations* ,2021-11-01 Divided into four sections Asian Western Intersections Intercultural Memory Intercultural Perspectives on Women Genre Studies and The Intercultural Arts these essays from diverse hands and multiple perspectives illuminate the intersections the cross sections and the synergies that characterize significant literary texts and artistic productions Individually they exemplify the insights available in an intercultural perspective together they remind us that no culture even those that claim to be pure or those that might be regarded as isolated has escaped the influence of external influences As a result this volume is doubly synergistic one because it focuses on intercultural phenomena within a specific culture and two because they represent multiple perspectives on these phenomena **American Book Publishing Record** ,2006 The Saga of Anthropology in China: From Malinowski to Moscow to Mao Gregory Guldin,2016-09-16 This book

studies the development of the four fields of anthropology in China Looking at both the political and social contexts Greg Guldin demonstrates how political turmoil has shaped China's twentieth century anthropological landscape

Encyclopedia of Postcolonial Studies John Charles Hawley, 2001-09-30 The collapse of empires has resulted in a remarkable flourishing of indigenous cultures in former colonies The end of the colonial era has also witnessed a renaissance of creativity in the postcolonial world as modern writers embrace their heritage The experience of postcoloniality has also drawn the attention of academics from various disciplines and has given rise to a growing body of scholarship This reference work overviews the present state of postcolonial studies and offers a refreshingly polyphonic treatment of the effects of globalization on literary studies in the 21st century The volume includes more than 150 alphabetically arranged entries on postcolonial studies around the world Entries on individual authors provide brief biographical details but primarily examine the author's handling of postcolonial themes So too entries on theoreticians offer background information and summarize the person's contributions to critical thought Entries on national literatures explore the history of postcoloniality and the ways in which writers have broadly engaged their legacy while those on important topics discuss the theoretical origin and current ramifications of key concepts in postcolonial studies Cross references and cited works for further reading are included while a comprehensive bibliography concludes the volume

Colonialism and Development Michael A. Havinden, David Meredith, 2002-06-01 British colonial rule of the tropics is the critical background to contemporary development issues This study of Britain's economic and political relationship with its tropical colonies provides detailed analyses of trade and policy The considerations of past successes and failures elucidate current opportunities and developments No other book covers this broad topic with such detail and clarity
