## **Sartre's Existentialism And Humanism:**

**Existentialism Is a Humanism** Jean-Paul Sartre, 2007-07-24 A fresh translation of two seminal works of existentialism To understand Jean Paul Sartre is to understand something important about the present time Iris Murdoch Sartre matters because so many fundamental points of his analysis of the human reality are right and true and because their accuracy and veracity entail real consequences for our lives as individuals and in social groups Benedict O Donohoe Philosophy Now It was to correct common misconceptions about his thought that Jean Paul Sartre the most dominant European intellectual of the post World War II decades accepted an invitation to speak on October 29 1945 at the Club Maintenant in Paris The unstated objective of his lecture Existentialism Is a Humanism was to expound his philosophy as a form of existentialism a term much bandied about at the time Sartre asserted that existentialism was essentially a doctrine for philosophers though ironically he was about to make it accessible to a general audience The published text of his lecture quickly became one of the bibles of existentialism and made Sartre an international celebrity The idea of freedom occupies the center of Sartre's doctrine Man born into an empty godless universe is nothing to begin with He creates his essence his self his being through the choices he freely makes existence precedes essence Were it not for the contingency of his death he would never end Choosing to be this or that is to affirm the value of what we choose In choosing therefore we commit not only ourselves but all of mankind This book presents a new English translation of Sartre's 1945 lecture and his analysis of Camus's *The Stranger* along with a discussion of these works by acclaimed Sartre biographer Annie Cohen Solal This edition is a translation of the 1996 French edition which includes Arlette Elkaïm Sartre's introduction and a Q A with Sartre about his lecture **Sartre's**

**Beginners Guide to Sartre Existentialism and Humanism** Southwell, 2008-03-01 The Heresy of Heresies Timothy M. Mosteller, 2021-10-14 The

heresy of heresies was common sense George Orwell 1984 This book is a defense of common sense realism which is the greatest heresy of our time Following common sense philosophers like Thomas Aquinas G K Chesterton C S Lewis Dallas Willard and J P Moreland this book defends a common sense vision of reality within the Christian tradition Mosteller shows how common sense realism is more reasonable than the materialist idealist pragmatist existentialist and relativist spirits of our age It maintains that we can know the nature of reality through common sense experience and that this knowledge has profound implication for living the good life and being a good person

**Sartre and the Moral Limits of War and Terrorism** Jennifer Ang Mei Sze, 2010-01-31 Based on the latest debate on Jean Paul Sartre s works on ethics and politics this book examines the relevancy and importance Sartre holds for contemporary concerns the reactionary nature of terrorism

the extremity of counter violence and limitations of democratization efforts in our post 9 11 era all claiming the name of freedom and liberation It presents a different version of the violent Sartre which was presented recently as militant and supportive of terrorism by critics who were concerned with the terrorist nature of his writings Sartre in this project is reconstructed as a philosopher who although gave importance to the notion of violence in his politics was actually more concerned with containing violent means within morally excusable limits He is presented as both a realist who understood the inevitability of dirty hands in political struggles and also an absolutist against terrorism he considered wars that derailed from their purported ends of freedom as morally condemnable Arguing for the need for moral limitations to all violent struggles and the need for seeing others as ends for themselves this project outlines an existential response needed to help us reaffirm our moral compass through the invention of existential humanist ethics

**Thematic Distinction Between Essence and Existence** James Alabi, 2018-08-20 Essay from the year 2009 in the subject Philosophy Miscellaneous language English abstract The terms essence and existence have dominated philosophical discussions for centuries at least from the era of Plato up to the contemporary times The central issue at the heart of this discourse in the preliminary stage had to do with the question of what actually makes an essence of an existing entity For example if you say God philosophers will probe further to ask what is the essence of God In other words what are those characteristics that are truly exclusive to God If again you say a Satsuma a type of orange exists then one will be prompted to ask as to what features distinguish it from a tangerine That is what are those distinctive qualities essentially immaterial that will not make me call an existential Satsuma a tangerine What the inquirer is demanding is simply something more than mere the Satsuma or any of the accidental features like colour taste etc Questions have also been raised in terms of what actually exists as against what is believed to exist The discourse quickly like wild fire moved from the level of mere conceptualizing the terms to the level of philosophers trying to find out which of essence and existence precedes each other In other words granted at least at level of assumption that both human and objects exist philosophers are asking whether their essence precedes their existence The battle to resolve this crisis of concepts pitted modern Christian philosophers like Bishop George Berkeley and Immanuel Kant against contemporary existentialists like Jean Paul Sartre and Martin Heidegger The former school led by Berkeley in its submission had argued that essence precedes existence while the latter championed by extensively by Sartre disagrees saying existence precedes essence However there are other variations to the discourse but it is sufficient for the scope of this paper to limit discussion to these two with more emphasis on Sartre

**Sartre's Second Century** Jean-Pierre Boulé, Benedict O'Donohoe, 2009-05-27 Sartre's Second Century reflects the richness of Sartre's vision of the human condition the diversity of the means he employed in grappling with it and the lengthy trajectory of his itinerary in a variety of wider cultural perspectives The centenary of Sartre's birth in 2005 was the primary occasion for many of the essays included in this volume Hosted by the UK or North American Sartre Societies contributors participating in Sartre's centennial celebrations were

asked to address the central themes and overall development of his life and thought As the present collection shows the attempt to present Sartre in a retrospective light also provides a basis for assessing the relevance of his work for the new century
