Preppers Guide Galen Fries,2024-05-17 No scare tactics here We all know bad things can happen and don't need to be scared into wanting to protect our loved ones Up to Speed A Prepper's Guide is just a discussion about what steps and in what order to take them in order to be ready for disasters manmade or otherwise It's good information with some humor thrown in for flavor The book has been carefully broken up into levels of importance It begins by addressing a survival mindset It then goes on to discuss ways we can set ourselves up for success when it comes to reuniting with loved ones having a home to come home to and finally what we should consider as we step out of our homes in order to keep our families safe Up to Speed tries to take the daunting task of protecting what is truly important to us and break it down into small manageable pieces This is not a survivalist book This is just a discussion and shouldn't be considered the end all in preppers manuals In it you will find references to many other books that will supplement your preparedness library **Surviving the Apocalypse** N. E. MacDougald,2019-10-29 The Apocalypse could arrive at any moment but with Surviving the Apocalypse you'll be well prepared and well trained enough to survive any disaster even the end of the world as we know it Being prepared for what's out there is important you have to know what to do when everything falls apart Knowing how to survive the end of the world as we know it will prepare you for anything and everything that could possibly go wrong From packing the proper survival kit to surviving on the battlefield being physically fit and coping in the event of a socio economic collapse Soldier of Fortune magazine along with N E MacDougald will make sure that you're never caught off guard in any situation from natural and economic disasters to pandemics and civil unrest even nuclear war The purpose of this book is to provide the reader with real world practical information that will help them to not only survive but thrive during a period that is likely not just another downturn in the economic cycle but according to the many experts instead the beginning of a long downward slide and possibly the very peak in our 10 000 year experiment of civilization While you may not plan on being in a war zone you never know what will happen so the best thing to always do is be prepared Whether it's learning how to barter and haggle how to get the proper camouflage or how to choose the right weapon for any situation MacDougald and Surviving the Apocalypse will give you the training and knowledge that goes into surviving any and every dangerous situation imaginable
