School That Went On Strike:

Struggle for Power the Longest School Strike Leon Bock Kavunedus, Leon Bock, Leon Bock/ Thomas Kavunedus, 2011 Two people participating in the same events yet on opposite sides give an engrossing view of a struggle which engulfed a large community in northern Westchester County in New York State It became the longest teachers strike in New York State s history Even though they are personal memoirs both authors try to give as full a picture of the personalities institutions and issues driving the struggle as each experienced it The narrative is in two parts side by side and event by event Both are impressionistic accounts that do not claim to be objective Dr Leon Bock s account is the viewpoint of a leader of a major institution the Lakeland School District In representing the district he had the heavy responsibility to merge the interests of students and parents faculty the taxpaying community and the Board of Education Mr Thomas Kavunedus a faculty member served as a negotiator for the Lakeland Federation of Teachers He saw his responsibilities as extending to the promotion of learning and teaching environment which would foster excellence The contract with the school district which Mr Kavunedus had participated in promulgating years earlier was a major step in raising teachers out of the dark ages of coffee in the boiler room and hopefully greater professionalism Both authors disagree with one another on many of the issues Most of these issues bedevil our schools today Yet there is enough civility to recognize that partisanship need not be so all engulfing that it demonizes the other side and its objectives No narrative of such a complex event can be totally accurate and objective The authors try to focus on the interpersonal relationships rather than serve as a textbook history of this series of complex events There is no intention to discredit or malign any of the personalities in the narrative rather they are presented as the writers experienced them under conditions of stress

The Newark Teacher Strikes Steve Golin, 2002 After interviewing more than fifty teachers who were on the front lines during these strikes historian Steve Golin concludes that another equally important agenda ignored until now was on the table These professionals wanted a voice in the decision making process

BOOK JACKET **Schools In Great Depression** Dominic W Moreo, 2021-12-12 First Published in 1996 The Great Depression was not a seamless web of human experience Disparate images of highs and lows in daily individual experiences proliferated This study is a modest attempt to delineate the effects of the Great Depression upon the schools For the most part the voices of this work are drawn from the press and periodicals of the times On one level this work is concerned with the coming of the Depression and its effects upon the schools It is a tale worth telling

Schoolhouse Politicians Helen Roberta Chauncey, 1992-01-01 Scholarly study of the Chinese republic 1911 1949 has traditionally viewed the period through its shortcomings notably its failure to establish a secure political order thus allowing the chaos and violence of national power politics to overshadow formative developments taking place at the local level By focusing on the

interaction of local politics and the central state Helen Chauncey argues for the importance of local initiative in defining the post imperial state and suggests a rethinking of our understanding of republican period politics Through the prism of educational circles in central Jiangsu province *Schoolhouse Politicians* challenges assumptions about local elite conservatism by showing how actively politics were pursued in local municipalities well removed from traditional centers of wealth and power It highlights the activism of political entrepreneurs in the arena of local schooling and interprets the apparent disorderly conduct of local republican politics in terms of the strategies activists used to test their right to public association with the central state and to determine what concerns could be addressed through such an association Pursuing a comprehensive approach to the study of local politics this interpretation is sensitive to political intent in a variety of cultural representations from school journals to teachers assemblies to the physical management of public space such as schoolhouses and exercise yards *Schoolhouse Politicians* makes a compelling case for the central importance of its immediate subject the growth of the elementary and secondary educational establishment as well as illuminating larger questions of state building This carefully crafted local history based on pioneering research is of significance to the field of modern Chinese history It is also a valuable addition to the recent comparative literature on state making that seeks by exploring a variety of occupations and social groups neglected by traditional histories to give due importance to those little studied experiences that helped shape the potential and limits of the modern state *The Erosion of Childhood* Lionel Rose, 2002-09-11 First published in 2002 Routledge is an imprint of Taylor Francis an informa company *Berry College* Ouida Dickey, Doyle Mathis, 2011-08-15 Illustrated with more than one hundred photographs a detailed and comprehensive history of Berry College located in northwest Georgia reviews its humble beginnings in 1902 as a trade school for rural Appalachian youth to its present day standing among the Southeast s best liberal arts colleges *Kenya National Assembly Official Record (Hansard)* , 1974-03-12 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya ***The Pioneer Mail and Indian Weekly News*** , 1920
