School of Corruption Ray Gordon, 2002 *School Corruption* Armand Fusco, 2005-09 School Corruption Betrayal of Children and the Public Trust is an expos of corruption in public schools and related agencies It shatters the complacency and silence of the pervasive corruption found in school districts throughout the Nation Dr Armand A Fusco provides a detailed look at the rationale for the three levels of corrupt acts cheating and deceit waste and mismanagement and fraud and stealing Find out how and where shameful and deplorable corrupt acts have been committed in each state and school district as Fusco delves into some tough questions Why does corruption and political correctness lead to poor student achievement disgraceful school outcomes and failing schools How does inept school governance allow corruption to flourish with such ease What is the most important question that is never asked of an applicant for superintendent of schools The harsh reality is that corruption has become a natural part of the educational landscape but it is hidden from view by walls of denial and self protection Only by accepting the challenge of a new beginning can trust be restored so that the devastating impact of corrupt acts on the education of children and the violation of the public trust will become a thing of the past

Fusco, 2025-01-10 How to Combat the Racial Radicalization of Education Vol I This two volume guidebook is essentially an encyclopedia illustrating the problems revolving around the racial agenda that s indoctrinating K 12 students who are being radicalized by promoting Critical Race Theory CRT with all of its various clones using different terms and phrases The issue with parents who are revolting against is how it is being done indoctrination and not choice and not age appropriate in the lower grades The reason for two volumes is because most books relating to this issue go into the topic without giving the necessary background stagecraft to really know what s involved Too often authors assume the reader is familiar with the background information and that is a dangerous assumption to make Vol I provides the definitions of so many words and phrases because Critical Race Theory is a

concept driven by twisted and confusing language much of it with new words such as intersectionality making it sound mysterious and even important Yet it is a simple problem to resolve with choice and options but the racial advocates primarily white suburban educators do not want it resolved believing that every single student K 12 must be radicalized and racialized by the racial agenda without providing any evidence of the need for its infusion in K 12 schooling The districts promoting it are even denying that CRT is being promoted Therefore it is the words being used that are the clue whether or not CRT it is being taught For example the Superintendent of Schools of the trophy school did an unpresented action by purchasing a copy of How to be an AntiRacist for every teacher to use no further evidence is needed Anyone can be radicalized it occurs when someone starts to believe or support extreme views and then in some cases they become willing or unwilling radicalized activists Even the Connecticut solution a deep blue state arrived at a very amicable solution It recognized that it should not be done through indoctrination but with choice and only at the high school level In addition it is a political issue with Progressive Democrats and the Biden White House advocating for its use in schools and Republicans opposed to it For example the term slavery is interpreted to mean black slavery only when in fact white slavery started sooner it was harsher because they were used in the dangerous mining and timber work and it was cheaper to buy a white slave rather than a black slave Vol II Volume I set the center stage for the radicalization drama to take place for Vol II to provide the nitty gritty of the racial agenda that creates conflict chaos anger and makes schools unsafe for staff and students This is reason enough why it does not belong in schools What is critical to understand is that this extreme indoctrination has absolutely nothing to do with improving academic skills and knowledge and furthermore it violates U S Supreme Court decision 1968 Epperson vs Arkansas that prohibits the teaching of only one dogma What is even more interesting is that the districts promoting the racial dogma deny that they are doing so In psychology denialism is a person's choice to deny reality as a way to avoid a psychologically uncomfortable truth moreover for others when it involves the racial agenda The options available to combat the radicalization are then provided To make matters far worse is that the time and attention being given to this agenda has the so called safe school plans collecting dust causing the publication of Does Your Child Attend a Safe School No A Manual for Parents and Policymakers that provides 53 reasons why schools doing the racial agenda are not safe Additionally reading and math scores have been in a steady decline with 30 35 million students scoring below proficiency can it be any worse

The State and Illegality in Indonesia E. Aspinall, G. van Klinken, 2011-01-01 The popular 1998 reformasi movement that brought down President Suharto's regime demanded an end to illegal practices by state officials from human rights abuse to nepotistic investments Yet today such practices have proven more resistant to reform than people had hoped Many have said corruption in Indonesia is entrenched We argue it is precisely this entrenched character that requires attention What is state illegality entrenched in and how does it become entrenched This involves studying actual cases Our observations led us to rethink fundamental ideas about the nature of the state in Indonesia especially regarding its socially

embedded character We conclude that illegal practices by state officials are not just aberrations to the state they are the state Almost invariably illegality occurs as part of collective patterned organized and collaborative acts linked to the competition for political power and access to state resources While obviously excluding many without connections corrupt behaviour also plays integrative and stabilizing functions Especially at the lower end of the social ladder it gets a lot of things done and is often considered legitimate This book may be read as a defence of area studies approaches Without the insights that grew from applying our area studies skills we would still be constrained by highly stylised notions of the state which bear little resemblance to the state s actual workings The struggle against corruption is a long term political process Instead of trying to depoliticize it we believe the key to progress is greater popular participation With contributions from Simon Butt Robert Cribb Howard Dick Michele Ford Jun Honna Tim Lindsey Lenore Lyons John McCarthy Ross McLeod Marcus Mietzner Jeremy Mulholland Gerben Nooteboom J Danang Widoyoko and Ian Wilson This book is the result of a series of workshops supported among others by the Australian Netherlands Research Collaboration ANRC

SLAVE SCHOOLS: Why Are Black Students Held in Bondage of Failing Schools? Armand A. Fusco Ed.D.,2025-01-21 SLAVE SCHOOLS WHY ARE BLACK STUDENTS HELD IN BONDAGE OF FAILING SLAVE SCHOOLS Abstract This book is unique because it s two books in one Pt I includes all minorities to 2012 Pt II concentrates on black issues between 2012 to 2024 encompassing the racial agenda known as Critical Race Theory based on past slavery However it omits white slavery that started sooner lasted longer and it was cheaper to buy white slaves than black slaves More striking is that absolutely no mention is made of present day bondage slavery where blacks are required by law to attend failing City Schools Although there have been national and state reforms to close the achievement gap between blacks and whites none had succeeded Among the efforts to do so is to eliminate meritocracy measurements and without testing there is no gap to measure Another effort is simply to lower standards which 37 states have done Furthermore to hide the problem is introducing a major disruptor that does nothing to improve academic achievement such as the racial agenda that is causing money woes chaos and conflict among parents and school officials In its extreme form the concept is infused in every school subject K 12 requiring indoctrination rather than education That s the real issue causing the conflict The problem is vividly illustrated with on the 2022 NAEP results with 75% of students below proficiency in math and 67% below in reading with blacks at 16% Then followed by test two states the Connecticut Enigma and the simple solution with the Mississippi Miracle Very important is a step by step approach to show what blacks can do to bring pressure on school officials and school boards to close or turnaround failing schools by kneeling and striking When all else fails then do the school board nightmare

Development and the State in the 21st Century Erica Frantz,Natasha M. Ezrow,Andrea Kendall-Taylor,2015-10-26 Development and the State in the 21st Century provides a comprehensive analysis of the state s role in contemporary development The book examines the challenges that states face in the developing world from lasting poverty and political instability to disease and natural disasters and explores the ways in

which states can build capacity to surmount these challenges It takes seriously the role that state institutions can play in development while also looking at what institutional reform entails and why this reform is critical for policy recommendations to work This analysis is set in the context of the evolution of both development practice and development theory Chapters are organized around the key issues in the field and deploy a wide range of examples from different countries A range of case studies throughout the text demonstrate the variety of problems development practitioners face and the key theoretical debates surrounding the subject This text will be particularly useful to students of development and politics who wish to understand how governance and state building can improve countries economic performance and end cycles of poverty
