Educating Children in a Diverse Society Lorraine S. Taylor, Lyn Miller-Lachman, 1995-01-01 *Resources in Education*, 1997

Culturally Responsive Pedagogy: Teaching Like Our Students' Lives Matter Sheryl Taylor, Donna Sobel, 2011-07-19 At its core culturally responsive pedagogy represents a professional philosophy that is based on teachers' fundamental commitment to students' success. Authors Taylor and Sobel believe that teachers want to approach their teaching from the pivotal point that each of their students' lives matter. Working from a broad perspective of culture, the authors view culturally responsive teaching as a contextual and situational process for both teachers and students, all students, including those who are from a diversity of languages, cultures, racial/ethnic backgrounds, religions, economic resources, interests, abilities, and life experiences, as well as students who are members of the society's mainstream cultural/linguistic and socio-economic background. Recognizing that teachers are conduits of culture regardless of what content they teach, the authors assert that when culture is coupled with pedagogy, the result involves a complex and comprehensive mix of knowledge and skills for teachers to use to engage a diverse student population. This book is intended as a guide and practical discussion for K-12 teachers who are committed to culturally responsive pedagogy and recognize the structural inequalities in society that are reflected in their schools. Such teachers acknowledge that schools have a history of failing to serve students who are outside of the mainstream culture. For those teachers who recognize the sociopolitical nature of education and the role their own cultural background and privilege play in their work as a professional educator, they will find meaningful applications of research-based exemplars used to create and manage rigorous learning environments that maximize students' opportunities to learn.

Multicultural Education Patricia Ramsey, Leslie R. Williams, Edwina Vold, 2003-12-16 The second edition of this source book contains essays and annotations on a number of issues related to multicultural education. The authors define multicultural education as a process-oriented creation of learning experiences that foster an awareness of respect for and enjoyment of the diversity of our society and world. Inherent in this definition of multicultural education is a commitment to create a more just and equitable society for all people. This book then offers suggestions relevant to the teaching of all children, all teaching and curricular decisions, and every aspect of educational policy.

Constructing Multicultural Education in a Diverse Society Ilghiz M. Sinagatullin, 2003 Professor Sinagatullin believes that a well-built multicultural classroom is key to reducing racial, ethnic, religious, class, and gender prejudices. Incorporating the notions of multiculturalism and globalism into one entity called multicultural education and focusing on a wide range of educational practices leads Sinagatullin's study to look at the various ethnic groups of Russia. This book also explores issues of diversity in a rural setting as well as introduces the reader to issues of folk pedagogy and ethnopedagogy that have previously remained unexplored.
