

Schools Under Siege

**Angela Nash, English Centre (London,
England)**

Schools Under Siege:

Schools Under Siege Patricia Gándara, Jongyeon Ee, 2021-07-13 Using original qualitative and quantitative data **Schools Under Siege** confronts the many ways direct and indirect in which US Immigration and Customs Enforcement ICE policies and practices disrupt education The book explores the impact of these policies not only on the six million plus K 12 students in the US at risk for being directly affected by enforcement but also the wide ranging consequences for their classmates educators and communities Fear stress and trauma invoked by the threat of ICE detention and deportation contribute to increased absenteeism decreased student achievement and parent disengagement Bullying becomes more widespread and a multitude of other effects impact school climate and student health and well being Amplifying the burden these effects are experienced disproportionately in poorly funded districts and Title I schools and are felt more acutely among vulnerable populations such as immigrant students English language learners and Latinx students **Schools Under Siege** highlights the work of teachers counselors and administrators who are addressing these day to day challenges in support of students and families It provides a profile of a model sanctuary school and offers practical advice for how educators local government and nonprofit agencies can work together to mitigate the collateral damage of immigration enforcement The book suggests ways in which concerned persons can advocate for immigration policy reform at the local state and federal levels Ultimately editors Patricia Gándara and Jongyeon Ee chart a course into a future that makes good on the promise of equitable education for all students

Schools Under Siege George W. Knox, 1992

School Under Siege English & Media Centre, English And Media Centre Staff, 1979-08-01

Education under Siege Mortimore, Peter, 2013-09-23 At a time when education is considered crucial to a country's economic success recent UK governments have insisted their reforms are the only way to make England's system world class Yet pupils are tested rather than educated teachers bullied rather than trusted and parents cast as winners or losers in a gamble for school places **Education under siege** considers the English education system as it is and as it might be In a highly accessible style Peter Mortimore an author with wide experience of the education sector both in the UK and abroad identifies the current system's strengths and weaknesses He concludes that England has some of the best teachers in the world but one of the most muddled systems Challenging the government's view that there is no alternative he proposes radical changes to help all schools become good schools They include a system of schools receiving a fair balance of pupils who learn easily and those who do not ensuring a more even spread of effective teachers as well as banning league tables outlawing selection opening up faith schools and integrating private schools into the state system In the final chapter he asks readers who share his concerns to demand that the politicians alter course The book will appeal to parents education students and teachers as well as everyone interested in the future education of our children

Schools Under Siege Carl W. Bosch, 1997 Sadly violence and environmental threats have become a daily part of America's educational program for young people This book explores what is wrong with schools today and offers solutions for the growing problems

making our school buildings into war zones *Permanent Exclusion from School and Institutional Prejudice* Anna Carlile, 2013-02-11 Permanent exclusion from school and institutional prejudice Creating change through critical bureaucracy Anna Carlile This book tells the story of permanent exclusion from school from within an urban children's services department It focuses on two areas what contributes to instances of permanent exclusion from school and what the effects are of its existence as a disciplinary option The book questions how and why local government officers make particular decisions about children and young people Rather than focussing on what children and young people did behaviourally to get excluded the book adopts a Foucauldian analysis to concentrate on their place within a larger policy community which includes professionals and policy makers It adopts a critical bureaucratic exercise in studying up on powerful organisations an informed approach to ameliorating social inequity The findings described here suggest a broad deep and opaque seam of institutional prejudice permanent exclusion from school can be understood to be both caused by this and to intensify its effects This has implications for the voices of young people subject to or at risk of permanent exclusion from school and the final chapter outlines a Foucauldian Freirian student voice project offering ideas about how schools might tackle this

Schools on Probation Heinrich Mintrop, 2004 This book analyzes what happens when schools are put on probation for failing to meet their accountability improvement targets The author examines accountability design issues organizational development teacher motivation and curriculum changes in 11 schools on probation and offers empirical evidence of how effective probationary sanctions and penalties are guiding school change and what their limitations are *School Under Siege* Angela Nash, English Centre (London, England), 1978 **The School-to-Prison Pipeline** Nancy A.

Heitzeg, 2016-04-11 This book offers a research and comparison driven look at the school to prison pipeline its racial dynamics the connections to mass incarceration and our flawed educational climate and suggests practical remedies for change How is racism perpetuated by the education system particularly via the school to prison pipeline How is the school to prison pipeline intrinsically connected to the larger context of the prison industrial complex as well as the extensive and ongoing criminalization of youth of color This book uniquely describes the system of policies and practices that racialize criminalization by routing youth of color out of school and towards prison via the school to prison pipeline while simultaneously medicalizing white youth for comparable behaviors This work is the first to consider and link all of the research and data from a sociological perspective using this information to locate racism in our educational systems describe the rise of the so called prison industrial complex spotlight the concomitant expansion of the medical industrial complex as an alternative for controlling the white and well off both adult and juveniles and explore the significance of media in furthering the white racial frame that typically views people of color as criminals as an automatic response The author also examines the racial dynamics of the school to prison pipeline as documented by rates of suspension expulsion and referrals to legal systems and sheds light on the comparative dynamics of the related educational social control of white and middle class

youth in the larger context of society as a whole The Once and Future School Jurgen Herbst, 2004-08-02 Jurgen Herbst traces the debates discussions pronouncements and reports through which Americans have sought to clarify their conceptions of the goals and purposes of education beyond the common school The Once and Future School argues that to make sense of the current trials of secondary educational system and to maintain any sense of direction and vision for its future we need a clear understanding of its path in the past and of its setting in a multi national world From their beginnings in colonial America to the present day Jurgen Herbst traces the debates discussions pronouncements and reports through which Americans have sought to hammer out and clarify their conceptions of the goals and purposes of education beyond the common school
