The Schools We Need E.D. Hirsch, Jr.,1999-08-17 This paperback edition with a new introduction offers a powerful compelling and unassailable argument for reforming America's schooling methods and ideas by one of America's most important educators and author of the bestselling *Cultural Literacy* For over fifty years American schools have operated under the assumption that challenging children academically is unnatural for them that teachers do not need to know the subjects they teach that the learning process should be emphasized over the facts taught All of this is tragically wrong Renowned educator and author E D Hirsch Jr argues that by disdaining content based curricula while favoring abstract and discredited theories of how a child learns the ideas uniformly taught by our schools have done terrible harm to America's students Instead of preparing our children for the highly competitive information based economy in which we now live our schools practices have severely curtailed their ability and desire to learn With an introduction that surveys developments in education since the hardcover edition was published *The Schools We Need* is a passionate and thoughtful book that will appeal to the millions of people who can't understand why America's schools aren't educating our children

strategies they contend enable networked learning that allows research creativity communication and collaboration to help prepare students to be functional citizens within a modern society Their model includes discussions of the following key concepts Technology must be ubiquitous necessary and invisible Classrooms must be learner centric and use backwards design principles Good technology can be better than new technology Teachers must serve as mentors and bring real world experiences to students Each section of Building School 2.0 presents a thesis designed to help educators and administrators to examine specific practices in their schools and to then take their conclusions from theory to practice Collectively the theses represent a new vision of school built off of the best of what has come before us but with an eye toward a future we cannot fully imagine
