Schopenhauer as Educator Friedrich Nietzsche, 2022-08-10 In Schopenhauer as Educator Friedrich Nietzsche delves into the philosophical intricacies of Arthur Schopenhauer's thought presenting it as a vital educational framework for self overcoming and individual empowerment Nietzsche employs a poetic and aphoristic style typical of his later works blending philosophy with literary flair Within the context of the 19th century philosophical landscape Nietzsche contrasts Schopenhauer's pessimism with his own burgeoning ideas of the *Übermensch* and the will to power advocating for a transformative educational experience that encourages authentic self creation and resistance against societal norms Friedrich Nietzsche a German philosopher known for his radical ideas on morality culture and individualism was profoundly influenced by Schopenhauer's philosophy during his formative years Nietzsche's grappling with Schopenhauer's views on pessimism and suffering led him to consider the role of the educator in enhancing the individual's sense of purpose This synthesis of admiration and critique mirrors Nietzsche's own philosophical evolution highlighting his struggle to forge a new path in an increasingly modern world Schopenhauer as Educator is a compelling invitation for readers to explore not only Schopenhauer's philosophy but also Nietzsche's profound vision for personal and cultural renewal This work is essential for anyone seeking deeper insights into the intersections of education philosophy and the art of living making it a pivotal text for scholars and lay readers alike

Continuation of the Philosophies of Arthur Schopenhauer and Friedrich Nietzsche (Classic Reprint) Abraham Kanovitch, 2015-07-06

Excerpt from *The Will to Beauty Being a Continuation of the Philosophies of Arthur Schopenhauer and Friedrich Nietzsche*

From ancient times an undercurrent of tragedy surged The beautiful fables of Greece that glorified the human relations to the height of gods that dwelt in Olympus yielded in helplessness in Greek tragedy The dipus of Sophocles shows to us how the attempt to solve the riddle of life ends in a sea of dire woe and in Anathema the modern tragic drama of Leonid Andreyev the speechless one veiled in gray is as unyielding to entreaty as the silent sphinx of old Hellenic beauty because it was incomplete had to descend and disintegrate itself Down and down it went until it reached the religion of sorrow The unconscious Will of the universe was not satisfied with a fable it needed further amplification in fact and clear reason It had to descend to the prose of modern science and mechanist invention to Darwin to the doctrine of utility of Spencer to the mathematical philosophy of Kant From the Greek oracle to the dark seance rooms of modern spiritualism until it could rebound and the scattered fragments be integrated in the present Will to Beauty The Greek mythos of beauty is now reborn into a philosophy based on clear reason instead of fable This is the New Hellenism to which the religions of human suffering must yield

A Schopenhauerian Critique of Nietzsche's Thought Harry J. Ausmus, 1996

This study seeks to demonstrate that what is positive in Nietzsche's thought was already more clearly expressed in Schopenhauer's philosophy and that what is questionable was already criticized It also demonstrates the religiosity of Nietzsche's thought a secularized form of certain aspects of Christian theology which leads to an elevation of psychology over metaphysics lending support to a trend that has dominated much of 20th century thought The book calls for a diminution in the importance of psychology and recommends that metaphysics be re-established in its rightful position by starting over with the philosophy of Schopenhauer The first part deals with major problems in Nietzsche's thought such as that of causation the relationship of Church and State morality and power and suffering
