Schubert And Schumann Songs And Translations:

Schubert and Schumann Franz Schubert, Sir Robert Garran, 1946 *Schubert and Schumann Songs and Translations* Sir Robert Garran, 1971 *Representing Non-Western Music in Nineteenth-century Britain* Bennett Zon, 2007 Explores the influence of anthropological theories travel literature psychology and other intellectual trends on the perception of non Western music and elucidates the roots of today's field of ethnomusicology **Music, Text and Translation** Helen Julia Minors, 2013-05-23 Explores the roles that translation plays in a musical context questioning the transference of sense between music and text **Art Song** Carol Kimball, 2013-05-01 Book Art Song Linking Poetry and Music is a follow up to author Carol Kimball's bestselling Song A Guide to Art Song Style and Literature Rather than a general survey of art song literature the new book clearly and insightfully defines the fundamental characteristics of art song and the integral relationship between lyric poetry and its musical settings Topics covered include poetry basics for singers exercises for singers in working with poetry insights into composers musical settings of poetry building recital programs performance suggestions and recommended literature for college and university classical voice majors The three appendices address further aspects of poetry guidelines for creating a recital program and representative classical voice recitals of various descriptions Art Song Linking Poetry and Music is extremely useful as an unofficial text for college university vocal literature classes as an excellent resource for singers and voice teachers and of interest to all those who are fascinated by the rich legacy of the art song genre **Song Index** Minnie Earl Sears, Phyllis Crawford, 1926 **The Lied at the Crossroads of Performance and Musicology** Benjamin Binder, Jennifer Ronyak, 2024-02-07 There seems to be an essential relationship between the performance and the scholarship of the German Lied Yet the process by which scholarly inquiry and performative practices mutually benefit one another can appear mysterious and undefined in part because any dialogue between the two invariably unfolds in relatively informal environments such as the rehearsal studio seminar room or conference workshop Contributions from leading musicologists and prominent Lied performers here build on and deepen these interactions to reconsider topics including Werktreue aesthetics and concert practices the authority of the composer versus the performer the value of lesser known incomplete or compositionally modified songs and the traditions habits and prejudices of song recitalists regarding issues like transposition programming and dramatic modes of presentation The book as a whole reveals the reciprocal relevance of Lied musicology and Lied performance thereby opening doors to fresh and exciting modes of interpretative artistry and intellectual discovery **Voice Secrets** Matthew Hoch, Linda Lister, 2016-05-31 In Voice Secrets 100 Performance Strategies for the Advanced Singer Matthew Hoch and Linda Lister create order out of the chaotic world of singing They examine all aspects of singing including nontechnical matters such as auditioning performance anxiety score preparation practice performance tips business etiquette and many other important topics for the advanced singer Voice Secrets provides singers with a quick and efficient path to significant improvement both technically and

musically It is the perfect resource for advanced students of singing professional performers music educators and avid amateur musicians The Music Secrets for the Advanced Musician series is designed for instrumentalists singers conductors composers and other instructors and professionals seeking a quick set of pointers to improve their work as performers and producers of music Easy to use and intended for the advanced musician contributions to Music Secrets fill a niche for those who have moved beyond what beginners and intermediate practitioners need Hugo Wolf Susan Youens, 2024-01-09 A groundbreaking look at one of the great song composers of the late Romantic period In the virtual cottage industry of works on fin de siècle Vienna Hugo Wolf 1860 1903 has been somewhat neglected perhaps because he was the master of a small genre the late Romantic lied and never truly made his mark in the larger forms that command greater public attention But in the realm of song he is among the greatest inheritors of Schubert and Schumann one who was both a traditionalist and a modernist When the Viennese critic Eduard Hanslick disapprovingly dubbed Wolf the Richard Wagner of the lied he was paying oblique homage to Wolf's genius as a song composer in the most modern manner In this book Susan Youens examines five aspects of Wolf's compositional art each exemplifying a different synthesis of traditionalism and modernity and spanning his entire tragically brief creative life from his first efforts to his lapse into insanity in 1897 She discusses Wolf's youthful imitations of Schumann his genius for comic songs of a kind unlike any of his predecessors his part in the ballad revival of the late nineteenth century Wolf in relation to his contemporaries and his pursuit of operatic fame Youens looks as closely at the poetic texts as she does the music and includes numerous previously unpublished sketches and fragments examples from songs now long out of print and difficult to obtain and citations from Wolf's vivid letters and other sources of the period
