The Science Fiction Film Source Book David Wingrove, 1985-01-01 **The Spacesuit Film** Gary Westfahl, 2014-01-10 Filmmakers employ various images to suggest the strangeness of outer space but protective spacesuits most powerfully communicate its dangers and the frailty of humans beyond the cradle of Earth Many films set in space however forgo spacesuits altogether reluctant to hide famous faces behind bulky helmets and ill fitting jumpsuits This critical history comprehensively examines science fiction films that portray space travel realistically and sometimes not quite so by having characters wear spacesuits Beginning A with the pioneering Himmelskibet 1918 and Woman on the Moon 1929 it discusses B other classics in this tradition including Destination Moon 1950 Riders to the Stars 1954 and 2001 A Space Odyssey 1968 C films that gesture toward realism but betray that goal with melodramatic villains low comedy or improbable monsters D the distinctive spacesuit films of Western Europe Russia and Japan and E America s spectacular real life spacesuit film the televised Apollo 11 moon landing 1969 **Sound Design and Science Fiction** William Whittington, 2021 Sound is half the picture and since the 1960s film sound not only has rivaled the innovative imagery of contemporary Hollywood cinema but in some ways has surpassed it in status and privilege because of the emergence of sound design This in depth study by William Whittington considers the evolution of sound design not only through cultural and technological developments during the last four decades but also through the attitudes and expectations of filmgoers Fans of recent blockbuster films in particular science fiction films have come to expect a more advanced and refined degree of film sound use which has changed the way they experience and understand spectacle and storytelling in contemporary cinema The book covers recent science fiction cinema in rich and compelling detail providing a new sounding of familiar films while offering insights into the constructed nature of cinematic sound design This is accomplished by examining the formal elements and historical context of sound production in movies to better appreciate how a film sound track is conceived and presented Whittington focuses on seminal science fiction films that have made specific advances in film sound including 2001 A Space Odyssey THX 1138 Star Wars Alien Blade Runner original version and director s cut Terminator 2 Judgment Day and The Matrix trilogy and games milestones of the entertainment industry s technological and aesthetic advancements with sound Setting itself apart from other works the book illustrates through accessible detail and compelling examples how swiftly such advancements in film sound aesthetics and technology have influenced recent science fiction cinema and examines how these changes correlate to the history theory and practice of contemporary Hollywood filmmaking **Retrofitting Blade Runner** Judith Kerman, 1991 This book of essays looks at the multitude of texts and influences which converge in Ridley Scott s film Blade Runner especially the film s relationship to its source novel Philip K Dick s Do Androids Dream of Electric Sheep The film s implications as a thought experiment provide a starting point for important thinking about the moral issues implicit in a hypertechnological society Yet its importance in the history of science fiction and science fiction film rests equally on it

mythically and psychologically resonant creation of compelling characters and an exciting story within a credible science fiction setting These essays consider political moral and technological issues raised by the film as well as literary filmic technical and aesthetic questions Contributors discuss the film s psychological and mythic patterns important political issues and the roots of the film in Paradise Lost Frankenstein detective fiction and previous science fiction cinema **Science Fiction and Fantasy Reference Index, 1878-1985: Author entries** Halbert W. Hall,1987 **Invasions USA** Michael Bliss,2014-07-30 Out of more than 180 science fiction films produced in the United States between 1950 and 1959 twenty were concerned with the notion of an invasion Of these a select number used the invasions as metaphors of issues that were of importance to America at the time such as assaults upon individuality and marriage and debates about the supremacy of the human race The invasion may be real The Day the Earth Stood Still and War of the Worlds dreamed Invaders from Mars or the result of a mental breakdown as seems to be the case in Invasion of the Body Snatchers Real or not all of these massive disturbances to the status quo convey the same anxiety In the 1950s many Americans felt that things in their world weren t quite right and this sense of unease was expressed in the country s art notably these films In Invasions USA The Essential Science Fiction Films of the 1950s Michael Bliss examines movies that stripped away the veneer of normality during a decade often portrayed as the last innocent period in American history From a boy s nightmares about his alien controlled parents and a young woman s fears that her fianc has been replaced by an emotionless alien to an extraterrestrial visitor who comes to warn mankind about its self destructive ways the stories of these films offer a variety of messages both subtle and overt With detailed discussions and analyses of the films in question this book examines a unique group of movies with profound messages By exploring depictions of insecurities whether personal or political Bliss shows how science fiction films spoke to American audiences deeply troubled by their circumstances Invasions USA will appeal to science fiction buffs and film aficionados interested in this significant phenomenon in movie and cultural history *Horror and Science Fiction Cinema and Society* Martin Harris,2024-09-02 Examining how horror and science fiction films from the 1950s to the present invent and explore fictional us versus them scenarios this book analyzes the different ways such films employ allegory and or satire to interrogate the causes and consequences of increasing polarization in American politics and society Starting with the killer ants film with an anti communist subtext Them 1954 and concluding with Jordan Peele s social horror film with revenge seeking homicidal doppelg ngers Us 2019 Martin Harris highlights social and political contexts contemporary reviews and responses and retrospective evaluations to show how American horror and science fiction films reflect and respond to contemporary conflicts marking various periods in U S history from post WWII to the present including those concerning race gender class faith political ideology national identity and other elements of American society *Horror and Science Fiction Cinema and Society* draws upon cinematic sociology to provide a resourceful approach to American horror and science fiction films that integrates discussion of plot construction and character development with analyses of the

Essays about the inherently collaborative nature of science fiction As a geometric term parabola suggests a narrative trajectory or story arc In science fiction parabolas take us from the known to the unknown More concrete than themes more complex than motifs parabolas are combinations of meaningful setting character and action that lend themselves to endless redefinition and jazzlike improvisation The fourteen original essays in this collection explore how the field of science fiction has developed as a complex of repetitions influences arguments and broad conversations This particular feature of the genre has been the source of much critical commentary most notably through growing interest in the sf megatext a continually expanding archive of shared images situations plots characters settings and themes found in science fiction across media Contributors include Jane Donawerth Terry Dowling L Timmel Duchamp Rachel Haywood Ferreira Pawel Frelik David M Higgins Amy J Ransom John Rieder Nicholas Ruddick Graham Sleight Gary K Wolfe and Lisa Yaszek **The Complete Index to Literary Sources in Film** Alan Goble, 2011-09-08 No detailed description available for The Complete Index to Literary Sources in Film *Literature and the Visual Media* David Seed, English Association, 2005 Essays on the links between film and fiction and their mutual influence Fiction and film interrelate closely to each other and the specially commissioned essays in this volume all consider different aspects of this relationship Beginning with discussions of Dickens and Victorian literature the contributors all leading scholars in this field demonstrate how visual devices like the magic lantern caught the interest of writers and affected their choice of subject and method The impact of the cinema on the British modernists is then discussed and the remaining essays provide detailed case studies on such subjects as Hemingway Updike and the depiction of women in contemporary fiction and film
