Bradbury, Sarah E. Price, 2012-07-13 Representing work by a mixture of veterans and a new generation of lithic analysts Contemporary Lithic Analysis in the Southeast explores fresh ideas while reworking and pushing the limits of traditional methods and hypotheses The variability in the southeastern lithic landscape over space and through time makes it a dynamic and challenging region for archaeologists Demonstrating a holistic approach and using a variety of methods this volume aims to derive information regarding prehistoric lifeways from lithic assemblages The contributors use data from a wide temporal span and a variety of sites across the Southeast ranging from Texas to South Carolina and from Florida to Kentucky Not merely cautionary tales these case studies demonstrate the necessity of looking beyond the bag of lithic material sitting in the laboratory to address the key questions in the organization of prehistoric lithic technologies How do field collection strategies bias our interpretations What is the relationship between technological strategies and tool design How can inferences regarding social and economic strategies be made from lithic assemblages Contributors William Andrefsky Jr Andrew P Bradbury Philip J Carr Carolyn Conklin D Randall Cooper Jason L Edmonds Jay D Franklin Albert C Goodyear III Joel Hardison Lucinda M Langston D Shane Miller George H Odell Charlotte D Pevny Tara L Potts Sarah E Price Douglas Sain Sarah C Sherwood Ashley M Smallwood Paul Thacker **50 Popular Beliefs That People Think Are True** Guy P.
