Wieseman,Molly Weinburgh,2009-06-18 A discourse on women s leadership within science education has until now been largely invisible in book form This therefore is the first book to address women s leadership within science education The book embraces relational ways of knowing as a foundation for leadership and takes courageous steps by exposing our innermost tensions dilemmas and feelings about leadership making them available to others The power promise of feminine approaches to transform traditional leadership cultures is also addressed The authors believe that anyone can lead regardless of position title years of experience or age They also believe that each of us has a responsibility to provide some leadership and direction for the shared endeavours of which we are part The purpose of the book is to inspire and guide educators and academics in K 16 science education as well as individuals in other professions as their leadership skills develop The leadership activities provided offer guidance and or concrete ways to delve into issues of leadership **Science, Being, & Becoming** Paul J. Mills,2022-10-11 Contrary to popular belief not all scientists are materialists fervently discounting the spiritual This book shares interviews with some of the world s foremost

scientists who recount their own transpersonal metaphysical and mystical experiences and how those experiences transformed them and their scientific work The book makes it evident that the long standing divide between science and spirituality has not served us well and in fact continues to have significant adverse consequences for us all Fortunately many scientists no longer recognize that divide and are helping science to now fulfill its intended promise to discover and understand all of life including our deep spiritual nature The stories in this book help us understand that the spiritual is the final frontier for science The book also contains special bonus Spotlight sections written by Drs Eben Alexander Robert Atkinson Dusana Dorjee and Kyriacos C Markides
