Science Technology And Social Change The Orange Of Einstein Meets Magritte:

Science, Technology, and Social Change Diederik Aerts, 1999 **Science, Technology, and Social Change** Diederik Aerts, Serge Gutwirth, Sonja Smets, Luk Van Langenhove, 1999-08-31 The articles collected in this volume point out that society as a whole is changing Social change is due not only to changes in technology and economy but also to the changing strategies and discourses of social scientists To what exactly will this change lead in the 21st century What kind of society lies ahead In this book the reader will find many arguments and hints pertaining to these questions She he will be confronted by a plethora of enriching conceptions of the relationships between social sciences and social changes *Einstein Meets Magritte: An Interdisciplinary Reflection* Diederik Aerts, Jan Broekaert, Ernest Mathijs, 2012-12-06 Einstein Meets Magritte An Interdisciplinary Reflection presents insights of the renowned key speakers of the interdisciplinary Einstein meets Magritte conference 1995 Brussels Free University The contributions elaborate on fundamental questions of science with regard to the contemporary world and push beyond the borders of traditional approaches All of the articles in this volume address this fundamental theme but somewhere along the road the volume expanded to become much more than a mere expression of the conference s dynamics The articles not only deal with several scientific disciplines they also confront these fields with the full spectrum of contemporary life and become new science As such this volume presents a state of the art reflection of science in the world today in all its diversity The contributions are accessible to a large audience of scientists students educators and everyone who wants to keep up with science today **Metadebates on Science** Gustaaf C. Cornelis, Sonja Smets, Jean-Paul van Bendegem, 2013-11-11 How do scientists approach science Scientists sociologists and philosophers were asked to write on this intriguing problem and to display their results at the International Congress Einstein Meets Magritte The outcome of their effort can be found in this rather unique book presenting all kinds of different views on science Quantum mechanics is a discipline which deserves and receives special attention in this book mainly because it is fascinating and hence appeals to the general public This book not only contains articles on the introductory level it also provides new insights and bold even provocative proposals That way the reader gets acquainted with science in the making sitting in the front row The contributions have been written for a broad interdisciplinary audience of scholars and students **A World In Transition: Humankind and Nature** Diederik Aerts, Jan Broekaert, Willy Weyns, 2012-12-06 A World in Transition Humankind and Nature is appropriately entitled after its aim for an intrinsic property of reality change Of major concern in this era of transformation is the extensive and profound interaction of humankind with nature The global scale social and technological project of humankind definitely involves a myriad of changes of the ecosphere This book develops from the call for an interdisciplinary synthesis and respect of plurality acknowledging the evolving scientific truth to the need for an integrated but inevitably provisional worldview Contributors from different parts of the world focus on four modes of change i Social change and the individual condition ii Complex evolution and fundamental emergent transformations iii Ecological

transformation and responsibility inquiries iv The economic ecological and socio technical equilibria Primarily concerned with the deep transformations of humankind and of the relationship between humans and nature it is addressed to a broad and thinking public that wants to be kept informed

Quantum Structures and the Nature of Reality Diederik Aerts, Jaroslaw Pykacz, 2013-04-17 Quantum Structures and the Nature of Reality is a collection of papers written for an interdisciplinary audience about the quantum structure research within the International Quantum Structures Association The advent of quantum mechanics has changed our scientific worldview in a fundamental way Many popular and semi popular books have been published about the paradoxical aspects of quantum mechanics Usually however these reflections find their origin in the standard views on quantum mechanics most of all the wave particle duality picture Contrary to relativity theory where the meaning of its revolutionary ideas was linked from the start with deep structural changes in the geometrical nature of our world the deep structural changes about the nature of our reality that are indicated by quantum mechanics cannot be traced within the standard formulation The study of the structure of quantum theory its logical content its axiomatic foundation has been motivated primarily by the search for their structural changes Due to the high mathematical sophistication of this quantum structure research no books have been published which try to explain the recent results for an interdisciplinary audience This book tries to fill this gap by collecting contributions from some of the main researchers in the field They reveal the steps that have been taken towards a deeper structural understanding of quantum theory
