Science And The Paranormal Altered States Of Reality:

Science and the Paranormal Arthur Ellison, 2007-12 Changing the way we look at the universe is not an easy accomplishment requires a true openness to exploration experiment Ellison suggests that most of us are conditioned by our Western science based education to think that the universe is much simpler material than it really is He argues that we should recognize the limits of the current scientific worldview which fails to account for genuine paranormal experiences including phenomena such as out of body experiences reliably reported by thousands of people In honestly exploring these areas rather than denying them he felt we could look more deeply into the real nature of human existence **Science and the Paranormal** Arthur J. Ellison, 2020-01-07 Ellison was a dedicated paranormal researcher who believed the science was too narrow to account for things like out of body experiences io9 In facts not fiction this book presents the case for the paranormal Changing the way we look at the universe is not easy and requires a true openness to exploration and experiment Professor Ellison suggests that most of us are conditioned by our Western science based education to think that the universe is much simpler and material than it really is He argues that we should recognize the limits of the current scientific worldview that fails to account for genuine paranormal experiences including phenomena such as out of body experiences OBE reliably reported by thousands of people Science and the Paranormal is part of The Paranormal a series that resurrects rare titles classic publications and out of print texts as well as publishes new supernatural and otherworldly ebooks for the digital age The series includes a range of paranormal subjects from angels fairies and UFOs to near death experiences vampires ghosts and witchcraft A most valuable work and a lasting testimony to the author s remarkable contribution to the field Bernard Carr Scientific and Medical Network Review Written for the lay person in down to earth language this book is for those who want a broad brush of matters like the evidence for telepathy near death experiences survival research etc without having to plough through a century high stack of scientific papers A welcome introduction to human nature s further reaches Christian Parapsychologist *A New Science of the Paranormal* Lawrence LeShan, 2013-08-15 Mainline science rejects the paranormal because it cannot be proven by the classical methods of controlled experiments But sciences such as geology astronomy and anthropology also don t rely on laboratory testing for repeatable results Moreover psi concerns consciousness which is by definition nonquantitative Psi researchers must stop acting like science s poor relations says author Lawrence LaShan limiting themselves to controlled experiments such as analyzing statistics of people guessing cards being flipped in the next room This provocative book outlines the principles of making a real study of the large exciting events clairvoyance and precognition mediumship and spirit controls psychic healing that would bring mainline science into and revitalize the whole field And the issue is not just academic says LeShan The old materialistic worldview has not worked Psychic research he argues can transform our sense of reality itself to offer a new and more hopeful picture of ourselves and of the world **Yoga & Parapsychology** K. Ramakrishna Rao, 2010-01-01 Yoga and Parapsychology are two areas in which

a significant amount of professional research is awaited Parapsychology considered as the discipline to study psi psychic abilities is essentially the science of siddhis extraordinary human abilities Yoga is considered to be an effective psycho spiritual pursuit that results in the manifestation of a variety of supernormal phenomena In fact Patanjali s Yoga Sutras is the foundational text of psychic science One of its four parts Vibhuti Pada is filled with the description and discussion of a variety of paranormal phenomena There is thus an intrinsic commonality between yoga and parapsychology which remains essentially unexplored in any systematic way A serious and scientific study of the two and the resultant synergy of their confluence could result in resolving many of the riddles that puzzle parapsychology today and be a harbinger of a vibrant science opening up new frontiers Further it could be seen as a productive East West meet in a profound sense Keeping this in view a national conference and a workshop were organized during January 3 23 2006 at Andhra University by the Institute for Human Science and Service with international participation The present volume is a compilation of the major presentations at the conference and workshop which are appropriately revised and edited in light of the discussions The contents of the volume contain theoretical articles and reviews as well as experimental reports Contributors come from different countries besides India including the United States of America Sri Lanka the United Kingdom Germany and the Netherlands Thus the volume is international in scope and coverage

The Secret Life of the Universe Amy Corzine, 2012-01-01 Blending Eastern and Western philosophies with insights into nature ecology and physiology this exploration of the place of humankind within the universe and our individual stations is both intellectual and approachable Thinkers writers scientists and educators of all stripes come together to examine subjects ranging from the nature of reality to brain science to the impact of technology on our world views and more They reveal that the universe may actually be comprised of multiple universes that overlap like the skin of an onion peel away one layer of reality and there s others waiting to be experienced if not completely understood The book presents intriguing ideas from visionaries ranging from Jesus to Galileo Newton to Descartes and Kant to Einstein among many others

Endings That Begin... Ascyna Talking Raven, 2012-10 Endings That Begin A Journey Into Love Through The Universal Laws of Reciprocity takes you on the journey of several people from all walks of life as they become friends It is written with a conversational voice as if they sat around the fire sharing their life lessons and stories about the Universal Laws of Reciprocity and how these laws manifest in their lives NOW through the understanding they gained about the Universal Laws of Reciprocity they share them with you Create positive changes in life by understanding how to ATTRACT security loving relationships and spiritual wisdom CHANGE the belief systems that no longer serve you and are not yours ASK for and RECEIVE what you truly REQUIRE to manifest in your life GIVE out only what you truly REQUIRE to get back for optimum health and happiness VIEW the whole of humanity your ancestors and all living things in the Universe as part of YOU All of us have a destiny not of our own writing It is like an outline of our life that came with us at birth As we lived and walked our path of Growth and Learning living the lessons and

experiences of our days and years we filled in that outline with The Story of Me We put flesh on our own bones One day we stand filled full with life young or old We stand fulfilled and ready to follow the purpose s of our creation Are you awakening to the purpose of your creation Are you writing your own story Or are you choosing to follow the script society religion and your ancestors wrote for you Through understanding of the Universal Laws of Reciprocity you become the creator of your life It s all about choosing Each choice takes us on a journey within our Destiny make it all yours **Tell My Mother I'm Not Dead** Trevor Hamilton,2012-10-08 This book divides into two parts The first is a personal narrative of the impact of the death of the author s son Ralph on him and his family and his efforts to see if there was any evidence for his continued existence generated largely through visits to mediums that a thinking person could take seriously The second is an attempt to evaluate that evidence objectively based on an extensive survey of current and past scientific research in the UK and the USA The title reflects the inevitable tension between emotion and intellect in such an enquiry **The Paranormal Review** ,2004

Rapid Entity Attachment Release Athanasios N Komianos,2011-06-01 Rapid Entity Attachment Release REAR is a radical breakthrough and a multi dimensional approach in producing swift and lasting relief in psychological and physical problems This book is a manual for open minded professional therapists to assist their clients in gaining rapid relief from serious and debilitating psychosomatic conditions It demonstrates that by intervening in a client s energy levels intrusive and well concealed attached entities which had contributed directly to the client s condition may be exposed and addressed Disorders such as epileptoid seizures migraine fits night terrors phobias obsessive compulsive behaviours addictions and other common ailments may be caused by well concealed parasitical entities that drain the resources of their unsuspecting victims and hosts Presented as a lightning insight into alternate therapies this manual demonstrates how electricity acupuncture hypnosis past life regression and spirit release therapy can be applied interactively **Modern Science and the Paranormal** Marie D. Jones,2009-01-15 This book uses scientific theory to explain some of the extrascientific phenomena such as UFOs and poltergeists
