idea journal: co-constructing body-environment Julieanna Preston, 2020-12-09

This special guest edited issue extends the current discussions of art inclusive of interior spatial design and architecture as a process of social cognition and to address the gap between descriptions of embodied cognition and the co construction of lived experience

Papers and exhibitions presented at the 2019 Bodies of Knowledge Conference have been advanced significantly as research articles and visual essays to focus on interdisciplinary connections across research practices that involve art and theories of cognition

These contributions emphasise how spatial art and design research approaches have enabled the articulation of a complex understanding of environments spaces and experiences including the spatial distribution of cultural organizational and conceptual structures and relationships as well as surrounding design features

Contributions address the following questions

- How do art and spatial practices increase the potential for knowledge transfer and celebrate diverse forms of embodied expertise
- How the examination of cultures of practice Indigenous knowledges and cultural practices offer perspectives on inclusion diversity neurodiversity disability and social justice issues
- How the art and spatial practices may contribute to research perspectives from contemporary cognitive neuroscience and the philosophy of mind
- The dynamic between an organism and its surroundings for example
- How does art and design shift the way knowledge

and thinking processes are acquired extended and distributed How do art and design practices demonstrate the ways different forms of acquiring and producing knowledge intersect **Communication Sciences and Disorders** Ronald Bradley Gillam, Thomas P. Autism Spectrum Disorder: Understanding the Female Phenotype Luigi Mazzone, Martina Siracusano, Kevin A. Pelphrey, 2024-08-19 This book provides a comprehensive overview of the current state of knowledge on autism in females in order to help understand and clarify gender implications in the autistic female phenotype Despite the reported higher risk of developing autism in males than in females few studies have investigated the gender differences at the clinical and neurobiological level Possible genetic protective factors as well as differing neurobiological brain trajectories could be responsible for the male female discrepancy in prevalence rates 4 1 Moreover a different clinical phenotype regarding the onset of symptoms behavioral features and social motivation often skews diagnosis in women Specifically the phenomenon of camouflaging or hiding symptoms in high functioning females due to behavioral coping strategies contributes to incorrect or delayed diagnosis In addition to addressing an important gap in the literature this book provides concrete and specific diagnostic recommendations and intervention strategies In addition a dedicated chapter presents clinical case reports and shares the personal experiences of autistic women Given its scope the book will appeal to clinicians and practitioners as well as researchers and students in the fields of child and adult psychiatry psychology and neuropsychiatry The Development of Autism Tom Whitman, 2004-01-15 Tom Whitman proposes a new developmental theory of autism that focuses on the diversity of characteristics associated with this disorder and how these develop over time This theory is reconciled and

integrated with contemporary theories of autism including the social cognitive linguistic sensorimotor and biological perspectives *Understanding Anorexia Nervosa in Males* Tom Wooldridge, 2016-05-05 Because anorexia nervosa has historically been viewed as a disorder that impacts women and girls there has been little focus on the conceptualization and treatment of males suffering from this complex disorder *Understanding Anorexia Nervosa in Males* provides a structure for understanding the male side of the equation combined with practical resources to guide clinical intervention Presented using an integrative framework that draws on recent research and organizes information from multiple domains into a unified understanding of the interconnected issues at hand this informative new text provides a comprehensive approach to understanding and treating a widely unrecognized population
