The Irish Dramatic Revival 1899-1939 Anthony Roche, 2015-02-26

The Irish Dramatic Revival was to radically redefine Irish theatre and see the birth of Ireland s national theatre the Abbey in 1904 From a consideration of such influential precursors as Boucicault and Wilde Anthony Roche goes on to examine the role of Yeats as both founder and playwright the one who set the agenda until his death in 1939 Each of the major playwrights of the movement refashioned that agenda to suit their own very different dramaturgies Roche explores Synge s experimentation in the creation of a new national drama and considers Lady Gregory not only as a co founder and director of the Abbey Theatre but also as a significant playwright A chapter on Shaw outlines his important intervention in the Revival O Casey s four ground breaking Dublin plays receive detailed consideration as does the new Irish modernism that followed in the 1930s

and which also witnessed the founding of the Gate Theatre in Dublin The Companion also features interviews and essays by leading theatre scholars and practitioners Paige Reynolds P J Mathews and Conor McPherson who provide further critical perspectives on this period of radical change in modern Irish theatre

India China Relations D P Tripathi, B R Deepak, 2011-07-01 India and China had a glorious history of cultural and material exchanges which developed into friendship and subsequently into camaraderie during first half of the twentieth century when both India and China fought western imperialism Owing to serious misconceptions and misjudgements the relations remained under the shadow of animosities and mutual distrust for over three decades until Rajiv Gandhi's China visit in 1988 After 62 years of diplomatic relations between the two there is a certain maturity in the relations as both are sharing new responsibilities in the stupendously changing global architecture India China Relations Future Perspectives is a collection of eighteen essays by eminent Indian and Chinese scholars diplomats and political personalities who look at the complex and multi layered relationship from different perspectives covering various domains such as civilizational dialogue through history the 1950s brotherhood the border and various other issues pertaining to education agriculture security defense and economic complementarities etc The complex and multi layered character of the relationship makes it difficult to define as an adversarial or competitive for there has been cooperation at various levels between the two such as climate change and many other multilateral forums like G20 and BRICS Notwithstanding the cooperation there have been incremental yet cautious approaches towards cooperation in various fields from both the sides As the global economic and political scenario is undergoing a tremendous change and its shift to Asia is visible the contributors feel that India and China need to handle the hypersensitive issues with care and tap the existing complementarities appropriately or else the Asian century would not only be a distant dream but could also endanger the peace and stability of the region and the world

The Graph Music of Morton Feldman David Cline, 2016-05-26 Morton Feldman is widely regarded as one of America's greatest composers His music is famously idiosyncratic but in many cases the way he presented it is also unusual because in the 1950s and 1960s he often composed in non standard musical notations including a groundbreaking variety on graph paper that facilitated deliberately imprecise specifications of pitch and at times other musical parameters Feldman used this notation intermittently over seventeen years producing numerous graph works that invite analysis as an evolving series Taking this approach David Cline marshals a wide range of source materials many previously unpublished in clarifying the ideology organisation and generative history of these graphs and their formative role in the chronicle of post war music This assists in pinpointing connections with Feldman's compositions in other formats works by other composers notably John Cage and contemporary currents in painting Performance practice is examined through analysis of Feldman's

non notated preferences and David Tudor's celebrated interpretations Socialism in Georgian Colors Stephen F. Jones, 2005-11 Georgian social democracy was the most successful social democratic movement in Russia. Despite its size it produced many of the leading revolutionaries of 1917. In the first of two volumes Jones writes the history of this movement which represented one of the earliest examples of European social democracy at the turn of the 20th century **The Many Lives of Ibrahim Nagui** Samia Mehrez, 2025-01-21 WINNER OF THE SAWIRIS CULTURAL AWARD A multigenerational literary memoir that sheds new light on one of the Arab world's most renowned Romantic poets through the eyes of his granddaughter Ibrahim Nagui 1898-1953 was one of the Arab world's most important Romantic poets writing in Arabic during the first half of the twentieth century. A founding member of the Apollo school, he also published widely in the fields of medicine, nutrition, psychology, sociology, and translation. This multigenerational genre-crossing work of literary nonfiction sheds new light on Nagui through the eyes of his granddaughter, literary scholar Samia Mehrez. Nagui is best known for his poem *al Atlal* (The Ruins), which was later sung by legendary Egyptian diva Umm Kulthum. Drawing on a series of family archives including Nagui's own published and unpublished writings, Mehrez embarks on a journey through multiple languages, generations, and geographies as she comes to reconcile with the shadow of her grandfather who died two years before she was born. Mehrez unpacks many of the myths surrounding Nagui and, in doing so, reflects on how he impacted her own career as a literary critic.
