Exploded Views Jonathan Eburne,2025-04-08 Idiosyncratic essays use their exploded forms to examine how inquiry functions Insect galls time memory systems orgone energy and a bookstore that doesn t yet exist These disparate topics have

persistently fascinated scholar Jonathan P Eburne yet each defied his previous efforts at classification through scholarly writing resulting in five essays suspended in process In *Exploded Views* Eburne returns to these essays with the metaphorical tool of the exploded view diagram expanding them into entirely new hybrid forms that unpack their inspirations and trace the wayward paths they followed An experiment into the nature of inquiry that spelunks rather than shies from the rabbit holes of scholarly curiosity each essay gives way to sidelights and dilations to reveal the palimpsest of knowledge hiding beneath the surface of the academic form A book about process the process of turning ideas into things and vice versa as well as the particular tendency for research scholarly inquiry and critical writing to come apart and go awry *Exploded Views* is a refreshing exploration of how the tools of creative critical thinking work at their most basic level Reflecting on the methods of scholarly knowledge production and the contextual factors that shape new ideas Eburne boldly replaces the seamlessness of the finished manuscript with the friction and even messiness of the incomplete inviting readers to think in new and invigorating ways

A Body of Vision R. Bruce Elder, 2006-01-01 Elder examines how artists such as Brakhage Artaud Schneemann Cohen and others have tried to recognize and to convey primordial forms of experiences He argues that the attempt to convey these primordial modes of awareness demands a different conception of artistic meaning from any of those that currently dominate contemporary critical discussion By reworking theories and speech in highly original ways Elder formulates this new conception His remarks on the gaps in contemporary critical practices will likely become the focus of much debate

Dr. Reich's Orgone Accumulator Sigurta J. Thompson, PH.D., **On the Avenue of the Mystery** Gary Hentzi, 2022-10-21 This volume is a study of eight major novels from the postwar period 1945 65 in conjunction with the films made from them during a later period of a little less than three decades straddling the millennium 1985 2012 The comparison of these novels by Ken Kesey Paul Bowles Carson McCullers Jack Kerouac James Baldwin Alexander Trocchi William Burroughs and Peter Matthiessen with their film adaptations offers the opportunity for a historical reassessment not only of the novels themselves but also of the global counterculture of the years 1965 75 which they prefigure in a variety of ways Appearing more than a decade after the waning of the counterculture and in some cases as much as fifty years after the novels on which they are based the films display significant revisions and omissions prompted by the historical and cultural changes of the intervening years Whereas these changes are nowadays often interpreted in purely political terms this book argues that the experience of mystery and its decline is central to the novels and films and is a key feature of the period of cultural transformation that they bookend At once a work of literary criticism film studies and cultural history this book has the potential to reach both an academic audience and the broader readership that has long existed for these novels as well as the even broader one interested in reappraising the period of the global counterculture among the most important of the influences that have shaped the contemporary world The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC
