**Hawthorne's Wilderness: Nature and Puritanism in Hawthorne's The Scarlet Letter and "Young Goodman Brown"** Marina Boonyaprasop, 2013-06-01 Nathaniel Hawthorne is one of America's most noted and highly praised writers and a key figure in US literature Although he struggled to become an acknowledged author for most parts of his life his work stands in the limelight of the American literary consciousness Graham 5 For he is a direct descendant of Massachusetts Bay colonists in the Puritan era of the 17th and 18th century New England served as a lifelong preoccupation for Hawthorne and inspired many of his best known stories Hence in order to understand the author and his work it is crucial to apprehend the historical background from which his stories arose The awareness of the Puritan legacy in Hawthorne's time and their Calvinist beliefs which contributed to the establishment of American identity serve as a basis for fathoming the intention behind Hawthorne's writings His forefathers concept of wilderness became an important part of their religious life and in many of Hawthorne's tales nature can be perceived as an active agent for the plot and the moral message Therefore it is indispensable to consider the development behind the Puritan perception as well as the prevailing opinion on nature during the writer's lifetime After the historical background has been depicted the author himself is focused His ambiguous character and non persistent lifestyle are the source of many themes which can be retrieved from his works Thus understanding the man behind the stories is necessary in order to analyze the tales themselves Seclusion nature and Puritanism are constantly recurring topics in the author's life and work To become familiar with Hawthorne's relation to nature his ancestors and religion it is essential to understand the vast amount of symbols his stories His stories will be brought into focus and will be analyzed on the basis of the historical and biographical facts and further his particular style and purpose will be taken into consideration The second part of this book analyzes two of the author's most eminent and esteemed works namely Young Goodman Brown and The Scarlet Letter in terms of nature symbolism and the underlying moral intention Further it is examined to which extent the images correspond to the formerly explained historical facts and

**Reclaiming Authorship** Susan S. Williams, 2013-06-15 There was in the nineteenth century a distinction made between writers and authors Susan S Williams notes the former defined as those who composed primarily from mere experience or observation rather than from the unique genius or imagination of the latter If women were more often cast as writers than authors by the literary establishment there also emerged in magazines advice books fictional accounts and letters a specific model of female authorship one that valorized natural feminine traits such as observation and emphasis on detail while also representing the distance between amateur writing and professional authorship Attending to biographical and cultural contexts and offering fresh readings of literary works *Reclaiming Authorship* focuses on the complex ways writers such as Maria S Cummins Louisa May Alcott Elizabeth Keckley Mary Abigail Dodge Elizabeth Stuart Phelps and Constance Fenimore Woolson put this model of female authorship into practice Williams shows how it sometimes intersected with prevailing notions of male authorship and sometimes diverged from them and how it is often precisely those moments of divergence when authorship was reclaimed by women The current trend to examine women writers rather than authors marks a full rotation of the circle and writers can indeed be the more capacious term embracing producers of everything from letters and diaries to published books Yet certain nineteenth century women made particular efforts to claim the title author Williams demonstrates and we miss something of significance by ignoring their efforts
