Reflective Practice in Counselling and Psychotherapy Sofie Bager-Charleson,2010-06-24 A good understanding of reflective practice is essential for good practice in counselling and psychotherapy and is a criterion for accreditation with the British Association for Counselling and Psychotherapy This book takes students on a step by step journey through the history of reflective practice from its origins with Donald Schon through to ideas of knowledge and power and how the counsellor or psychotherapist deals with issues surrounding the self A central theme of the book is the concept of self reflection and what motivates a therapist to do an often difficult and sometimes emotionally complex job Virginia Woolf in Context Bryony Randall,Jane Goldman,2012-12-17 As a paradigmatic modernist author Virginia Woolf is celebrated for the ways her fiction illuminates modern and contemporary life Woolf scholars have long debated how context whether historical cultural or theoretical is to be understood in relation to her work and how her work produces new insights into context Drawing on an international field of leading and emergent specialists this collection provides an authoritative resource for contemporary Woolf scholarship that explores the distinct and overlapping dimensions of her writings Rather than survey existing scholarship these essays extend Woolf studies in new directions by examining how the author is contextualised today The collection also highlights connections between Woolf and key cultural political and historical issues of the twentieth century such as avant gardism in music and art developments in journalism and the publishing industry political struggles over race gender and class and the bearings of colonialism empire and war *Psychoanalysis of Sense* Guillaume Collett,2016-10-26 Guillaume Collett questions to what extent we can locate Deleuze within the Lacanian School during the late 1960s prior to Guattari In so doing he offers a new integrated reading of Deleuze s *The Logic of Sense* 1969 by understanding it as a psychoanalysis of sense and gives a new interpretation of Deleuze s conception of philosophy itself *The Psychoanalysis of Sense* shows that Deleuze was not merely aware of the debates animating the Lacanian School during the 1960s he sought to contribute to them Emphasising his appropriation of the work of post Lacanian Serge Leclaire Collett explains how Deleuze constructed a more singular and immanent theory of the linguistic structure of the unconscious granting the erogenous body a larger structuring role **A Group-Analytic Exploration of the Sibling Matrix** Val Parker,2019-11-19 A Group Analytic Exploration of the Sibling Matrix How Siblings Shape our Lives offers a fresh approach to siblings recognising how these relationships are embedded in the framework of the family and how sibling experiences shape our lives influencing relationships with partners friends and colleagues and affecting how we take our place in groups and in society The book is

divided into three parts Part One focuses on the sibling life cycle exploring how these relationships shift and change throughout life according to context and circumstances In Part Two Parker uses clinical examples to consider how therapists working with individuals and groups might expand their thinking to incorporate the sibling matrix The final part investigates how the sibling matrix manifests in organisational life and considers how we might develop mutuality and cooperation in our universal sibling matrix Drawing on the author's wealth of experience as a clinician the book incorporates compelling personal stories and clinical examples to bring to life the realities and nuances the good and bad the healthy and supportive and also the potentially damaging aspects of sibling relationships Accessibly written this is a rich and rewarding invitation to reflect on our own experience whether as clinicians researchers or as members of our own sibling matrix Men's Silences Jonathan Rutherford,2023-03-31 First published in 1992 Men's Silences represents a personal and a political attempt to break out of the narrow parameters of men's sexual politics It focusses on men's feelings to language The early chapters provide a social context for exploring the practice and theorizing of men's sexual politics The book continues by developing an alternative theoretical framework for addressing male subjectivity using Wittgenstein's theory of language and the psychoanalytic theories of Winnicott Bion and Klein The author argues for the centrality of the pre oedipal mother son relationship in the making of male subjectivity language and identity This book will be of interest to students of sociology gender studies political science and cultural studies **Psychotherapy with Women** Marilyn Lawrence,Marie Maguire,1999 Psychotherapy with Women provides a clear account of current feminist practice in working with women within the helping professions It has arisen out of work at the Women's Therapy Centre in London and brings together contributions from eminent women psychotherapists The contributors draw on a wide range of theoretical perspectives ranging from the work of Freud and Jung to more contemporary psychodynamic theories Yet this book is essentially about psychotherapy in practice examining core issues including sexuality aging family dynamics disability and ethnicity Publisher's description *Landscapes of Abandonment* Roger A. Salerno,2012-02-01 Using social theory and cultural analysis Roger A Salerno explores the relationship of abandonment to the construction of contemporary capitalistic cultures Beginning with an array of narratives on the emergence of capitalism in the West and its undermining of traditional social institutions and structures he provides an overview of both the definition of and reactions to abandonment analyzing its historical social and psychological dimensions The author contends that abandonment anxiety and feelings of estrangement not only have deep psychological roots but also important social causes and cultural manifestations such as a quest for security or a hunger for commodities Salerno surveys important contributions of writers artists philosophers and social scientists and how their work expresses this sense of modern abandonment He also examines how and why this phenomenon has become a central motif in renderings of community the environment and the process of globalization and presents a richer understanding of our modern social condition Fundamentals of Mental Health Nursing Andrew Clifton,Steve Hemingway,Anne Felton,Gemma

IDIOT LOVE and the Elements of Intimacy David Stromberg, 2020-05-05 This book turns our search for intimacy on its head suggesting that our way to creativity in love may be through idiocy The book takes its readers on a journey through the work of Plato and Melanie Klein in theorizing the dynamics of intimacy while exploring some of the paradoxical aspects of love in works by Fyodor Dostoevsky and French filmmaker Catherine Breillat Revisiting core concepts of how we think about relationships the book lays out a model for relational breakdown the idiot lovecycle in which we are constantly in the flux between seeing ourselves and seeing the other Effecting close readings of literary philosophical and psychoanalytical sources the book draws on parallels between these fields of inquiry while tracing their shared intellectual genealogy suggesting that the tension between Narcissus and Cassandra with its inherent conflicts is also the space through which love emerges from intimacy
