Comparative Political Philosophy Anthony Parel, Ronald C. Keith, 2003-01-01 Comparative Political Philosophy Studies Under the Upas Tree examines four major traditions of political philosophy and discusses similarities in their key ideas and assumptions An intellectually daring enterprise this fascinating volume focuses on key texts from Chinese Indian Western and Islamic political philosophy      **Selected Readings from the Works of Mao Zedong** Zedong Mao, 1967      The Death of Secular Messianism Anthony E. Mansueto, 2010-08-01 The Death of Secular Messianism argues that the claims of secularists notwithstanding modernity did not so much abandon humanity's historic search for the divine but rather transposed it into a new innerworldly key This secret religion of high modernity came in both positivistic and humanistic variants The first sought to overcome finitude by means of scientific and technological progress The second sought to overcome contingency by creating a collective Subject the Modern Democratic State or the Communist Party in and through which human beings would become the masters of their own destiny In making his case for this thesis the author outlines a new political theological and social theoretical perspective which saves what is best in modernity its focus on human creative activity and its commitment to rational autonomy and democratic citizenship while re engaging humanity's great spiritual traditions      **Linguistic Engineering** Ji Fengyuan, 2003-11-30 When Mao and the Chinese Communist Party won power in 1949 they were determined to create new revolutionary human beings Their most precise instrument of ideological transformation was a massive program of linguistic engineering They taught everyone a new political vocabulary gave old words new meanings converted traditional terms to revolutionary purposes suppressed words that expressed incorrect thought and required the whole population to recite slogans stock phrases and scripts that gave correct linguistic form to correct thought They assumed that constant repetition would cause the revolutionary formulae to penetrate people's minds engendering revolutionary beliefs and values In an introductory chapter Dr Ji assesses the potential of linguistic engineering by examining research on the relationship between language and thought In subsequent chapters she traces the origins of linguistic engineering in China describes its development during the early years of communist rule then explores in detail the unprecedented manipulation of language during the Cultural Revolution of 1966-1976 Along the way she analyzes the forms of linguistic engineering associated with land reform class struggle personal relationships the Great Leap Forward Mao worship Red Guard activism revolutionary violence Public Criticism Meetings the model revolutionary operas and foreign language teaching She also reinterprets Mao's strategy during the early stages of the Cultural Revolution showing how he

manipulated exegetical principles and contexts of judgment to frame his alleged opponents The work concludes with an assessment of the successes and failures of linguistic engineering and an account of how the Chinese Communist Party relaxed its control of language after Mao's death

*The State, Identity, and the National Question in China and Japan* Germaine A. Hoston, 2021-02-09 The first decades of the twentieth century witnessed an explosion of nationalist sentiment in East Asia as in Europe This comprehensive work explores how radical Chinese and Japanese thinkers committed to social change in this turbulent era addressed issues concerning national identity social revolution and the role of the national state in achieving socio economic development Focusing on the adaptation of anarchism and then Marxism Leninism to non European contexts Germaine Hoston shows how Chinese and Japanese theorists attempted to reconcile a relatively new appreciation for the nation state with their allegiance to a vision of internationalist socialist revolution culminating in stateless socialism Given the influence of Western experience on Marxism Chinese and Japanese theorists found the Marxian national question to be not merely one of whether the working man has no country but rather the much more fundamental issue of the relative value of Eastern and Western cultures Marxism argues Hoston thus placed native Marxists in tension with their own heritage and national identity The author traces efforts to resolve this tension throughout the first half of the twentieth century and concludes by examining how the tension persists as Chinese and Japanese dissidents seek identity affirming modernity in accordance with the Western democratic model

**Militant Acts** Marcelo Hoffman, 2019-01-01 *Militant Acts* presents a broad history of the concept and practice of investigations in radical political struggles from the nineteenth century to the present Radicals launched investigations into the conditions and struggles of the oppressed and exploited to stimulate their political mobilization and organization These investigations assumed a variety of methodological forms in a wide range of geographical and institutional contexts and they also drew support from the participation of intellectuals such as Marx Lenin Mao Dunayevskaya Foucault and Badiou Marcelo Hoffman analyzes newspapers pamphlets reports and other source materials which reveal the diverse histories underappreciated difficulties and theoretical import of investigations in radical political struggles In so doing he challenges readers to rethink the supposed failure of these investigations and concludes that the value of investigations in radical political struggles ultimately resides in the possibility of producing a new political we

Zurn, Andrew Dilts, 2016-01-26 This book is an interdisciplinary collection of essays on Le Groupe d'information sur les prisons The Prisons Information Group or GIP The GIP was a radical activist group extant between 1970 and 1973 in which Michel Foucault was heavily involved It aimed to facilitate the circulation of information about living conditions in French prisons and over time it catalyzed several revolts and instigated minor reforms In Foucault's words the GIP sought to identify what was intolerable about the prison system and then to produce an active intolerance of that same intolerable reality To do this the GIP gave prisoners the floor so as to hear from them about what to resist and how The essays collected here explore the GIP's resources both for Foucault studies and for prison activism today Samurai Among Panthers Diane Carol

Fujino, 2012 The first biography of Asian American activist and Black Panther Party member Richard Aoki **American Editor in Early Revolutionary China** Neil O'Brien, 2004-03-01 This is a study of Sino American relations and the editorial policy of the China Weekly Review China Monthly Review published in Shanghai by John William Powell during the Chinese Civil War and the Korean War The Review supported US attempts in early 1946 to avert civil war through the creation of a coalition government By 1947 it reflected growing disillusionment with Guomindang policies and increasing sympathy for the demands of impoverished students and faculty for multi party democracy and peace As the Civil War shifted in favour of the Communists in late 1948 Powell and the Review counseled US businessmen to remain in Shanghai and urged the US government to establish working relations with the Communists and later to recognize the new regime Staying in Shanghai to report changes engendered by the Communist victory the Review's staff accommodated themselves to the new orthodoxy and to the regime's coordination of the press During the Korean War the Review opposed the expanding US air war becoming the foremost American purveyor of Chinese and North Korean allegations of American use of bacteriological weapons The Review was also utilized for the political indoctrination of US prisoners of war by the Chinese and North Koreans After closing the Review in July 1953 and returning to the United States Powell his wife Sylvia Campbell and assistant editor Julian Schuman were put on trial for sedition As the government narrowed its focus to the bacteriological warfare issue Powell and his lawyers countered by trying to prove the veracity of the charges seeking witnesses in China and North Korea Adverse publicity led to a mistrial in January 1959 and limitations in both the sedition and treason statutes ended plans to renew prosecution Powell and the Review had insisted that positive diplomatic and economic relations between China and the United States were both possible and desirable The gradual normalization of trade investment and political relations since the 1970s seemed to validate this belief In the post Cold War age when Sino American relations are often strained and tempestuous this book serves as a reminder of the value of making the extra effort to achieve understanding Critical Social Research Lee Harvey, 2025-07-11 Originally published in 1990 Critical Social Research is a unique methodology textbook that provides students lecturers and indeed all those involved in social research with an invaluable illustrative guide The author argues that critical social research offers a perspective and a methodology that

transcends divisions between quantitative and qualitative approaches At the heart of critical social research is the idea that knowledge is structured by existing sets of social relations its aim is to provide knowledge that engages with and challenges prevailing oppressive social structures This book is divided into three sections each addressing a different form of oppression those based on class gender and race Case studies from research published for the most part in North America and Britain are used extensively to demonstrate how empirical critical social research has been done The case studies consisting of evaluative summaries of important published research will in themselves form a useful resource for students They reveal a variety of techniques including historical analysis critical ethnography and semiological and structuralist approaches Critical social research is extremely varied and may often appear complex this text provides a cogent explanation of its methodological operation that links epistemological underpinnings to practical techniques *Chinese Politics and Society* Flemming Christiansen, Shirin Rai, 2014-02-04 An introduction to Chinese Politics which provides an accessible overview of the structures and dynamics of Chinese politics today Concentrating on the era since 1949 the text takes a look at politics in the widest sense analysing political institutions within the crucial broader context of Chinese history and the pressures of social economic and cultural changes
