Selected Writings Economic And Methodological Thought V 4:

Routledge Handbook of Macroeconomic Methodology Jesper Jespersen, Victoria Chick, Bert Tieben, 2023-06-20 The present macroeconomic crisis has demonstrated that a deeper understanding of the importance of relevant macroeconomic theories and methods is wanting. Additionally, lack of methodological awareness is behind much of the disagreement within macroeconomics which looked upon from outside often appears incomprehensible. The Handbook gives a structured presentation of the study of principles and procedures by which macroeconomics is researched, taught and communicated both within academia and to a wider audience and why specific theories, research strategies and teaching are preferred. The principles of selecting theory relevant to real world problems are the core of methodology. This book contains a broad range of arguments behind theory construction and appraisal and the consequences of these choices within the field of macroeconomics. An international range of experts provide clear analysis of key concepts, ideas and principles to give academics, students and others a better understanding of the macroeconomics behind policy conclusions which are put forward at different levels.

Nicholas Kaldor J. King, 2008-12-17 This book explores the life and work of Nicholas Kaldor, examining the influences that shaped and inspired his writings and looks in detail at the crucial part he played in twentieth century economics. Offering a comprehensive intellectual portrait of Kaldor, this book explains this great economist's importance in his own time and in ours.

History and Political Economy Peter D. Groenewegen, 2004 This book brings together a collection of essays in honour of Peter Groenewegen, one of the most distinguished historians of economic thought. His work on a wide range of economic theorists approaches a level of near insuperability.

Investment Finance in Economic Development Rogerio Studart, 1995-04-06 Challenging the view that financial liberalization is the only way to stimulate economic development, Studart argues that banks have a wider, more active role in the process of investment finance and growth.

Research in the History of Economic Thought and Methodology Scott Scheall, Luca Fiorito, Carlos Eduardo Suprinyak, 2021-08-25 Volume 39B includes a symposium marking the centenary of Carl Menger's death in 1921. The symposium edited by Reinhard Schumacher and Scott Scheall features contributions from Sandra J. Peart, G. N. Chaloupek, Erwin Dekker and Sandye Gloria. The Volume also features general research essays from Marina Uzunova and Alexander Linsbichler.

The General Theory G. C. Harcourt, P. A. Riach, 2005-06-27 This second volume contains essays which relate to developments in Keynes scholarship and theorizing in the years since his death and demonstrates the ongoing validity of the Keynesian tradition.

The Oxford Handbook of Post-Keynesian Economics, Volume 2: Critiques and Methodology G. C. Harcourt, Peter Kriesler, 2013-08-16 This two-volume Handbook contains chapters on the main areas to which Post Keynesians have made sustained and important contributions. These include theories of accumulation, distribution, pricing, money and finance, international trade and capital flows, the environment, methodological issues, criticism of mainstream economics and Post Keynesian policies. The Introduction outlines what is in the two volumes in the process.

placing Post Keynesian procedures and contributions in appropriate contexts *The Elgar Companion to John Maynard Keynes* Robert W. Dimand, Harald Hagemann, 2019 The most influential and controversial economist of the twentieth century John Maynard Keynes was the leading founder of modern macroeconomics and was also an important historical figure as a critic of the Versailles Peace Treaty after World War I and an architect of the Bretton Woods international monetary system after World War II This comprehensive Companion elucidates his contributions his significance his historical context and his continuing legacy *A "second Edition" of The General Theory* Geoffrey Colin Harcourt, P. A. Riach, 1997 **Historical Perspectives on Macroeconomics** Philippe Fontaine, Albert Jolink, 2005-08-12 Since the publication of Keynes's General Theory of Employment Interest and Money in 1936 macroeconomic theory has altered considerably Each author in this volume focuses on an issue which either preceded accompanied or followed the Keynesian Revolution and helped to shape economics in subsequent years Contributors reconsider some of the major concepts of the General Theory unemployment and the identity of income and output They also highlight some of the controversies in macroeconomic theory and review the macroeconomic policy implications and consequences *Essays on New Institutional Economics* Rudolf Richter, 2015-04-29 This collection of essays comprises some of Rudolf Richter's important contributions to research on New Institutional Economics NIE It deals with the central idea principles and methodology of New Institutional Economics and explores its relation to sociology and law Other chapters examine applications of NIE to various microeconomic and macroeconomic issues in the face of uncertainty from entrepreneurship to the euro crisis *Research in the History of Economic Thought and Methodology* Warren J. Samuels, Jeff Biddle, 1994 Volume 25 C commences a series of class notes taken at Northwestern and Chicago during the period 1964-1967 The notes from courses at Northwestern are Robert Clower's course on economic theory and Frank Fetter's course on monetary institutions and policies The notes from Chicago include George Stigler's course on industrial organization Merton Miller's course on corporate finance and Daniel Orr's course on the theory of the firm Also included are Warren Samuels' notes from James Earley's courses on economic theory and on money income and price given at Wisconsin during 1954-1955 and Samuels's notes from a faculty seminar on myth theology and society given by Robert T Anderson at Michigan State University in 1974 The series presents review essays multiple reviews and mini symposia on new works in this field Volumes are broad in scope The series fills a substantial gap in this field **Reclaiming Pluralism in Economics** Jerry Courvisanos, James Doughney, Alex Millmow, 2016-03-31 Until the end of the early 1970s from a history of economic thought perspective the mainstream in economics was pluralist but once neoclassical economics became totally dominant it claimed the mainstream as its own Since then alternative views and schools of economics increasingly became minorities in the discipline and were considered heterodox This book is in honour of John Edward King who has an impressive publication record in the area of economic theory with specific interest in how economic thought in the past shapes current economic theory and enforces certain paths of economic policy and economic development This book

is divided into five themes based on King's interests. The first theme looks at the challenge in trying to reclaim pluralism in economics. The second faces head on the direct collision of mainstream economics with history of economic thought and heterodox economics. The third addresses classical economic ideas, their central influence in the past and how they can still primarily guide modern pluralist economics. The fourth examines Post Keynesian and Kaleckian economics with a view to providing a more coherent and extensive branch of heterodox economics. The final theme critiques the policy of neoliberalism that has entrenched itself in capitalist economies which have led to financial, industrial, labour and behavioural consumerist crises. This text aims to provide a clear path for pluralism to serve the economics discipline as its standard bearer and to no longer be merely a heterodox challenge to the mainstream. This book is of interest to those who study history of economic thought, political economy and heterodox economics. [Searching for Contemporary Legal Thought](#) Justin

Desautels-Stein, Christopher Tomlins, 2017-12-28. For more than a century law schools have trained students to think like a lawyer. In these times of legal crisis both in legal education and in global society, what does that mean for the rest of us? In this book, thirty leading international scholars including Louis Assier Andrieu, Marianne Constable, Yves Dezalay, Denise Ferreira da Silva, Bryant Garth, Peter Goodrich, Duncan Kennedy, Martti Koskeniemi, Shaun McVeigh, Samuel Moyn, Annelise Riles, Charles Sabel, and William Simon examine what is distinctive about legal thought. They probe the relation between law and time, law and culture, and legal thought and legal action; the nature of current legal thought; the geography of legal thought; and the conditions for recognition of a new contemporary style of law. This work will help theorists, social scientists, historians, and students understand the intellectual context of legal problems, legal doctrine, and jurisprudential trends in the current conjuncture. *How Economics Forgot History* Geoffrey M. Hodgson, 2001-08-23. In arguably his most important book to date, Hodgson calls into question the tendency of economic method to try and explain all economic phenomena by using the same catch-all theories and dealing in universal truths. He argues that you need different theories to analyze different economic phenomena and systems and that historical context must be taken into account.

A History of Economic Theory and Method Robert B. Ekelund, Jr., Robert F. Hébert, 2013-08-30. Known for its clarity, comprehensiveness, and balance, the latest edition of *A History of Economic Theory and Method* continues that tradition of excellence. Ekelund and Hébert's survey provides historical and international contexts for how economic models have served social needs throughout the centuries, beginning with the ancient Greeks through the present time. The authors not only trace ideas that have persisted but skillfully demonstrate that past discredited ideas also have a way of spawning critical thinking and encouraging new directions in economic analysis. Coverage that distinguishes the Sixth Edition from its predecessors includes a detailed analysis of economic solutions by John Stuart Mill and Edwin Chadwick to problems raised by the Industrial Revolution; the role of psychology and experiments in understanding demand and consumer behavior; discussions of modern economic theory as it interrelates with other social sciences; and a close look at the historical development of the critical role of entrepreneurship both in its productive and

unproductive variants The authors creative approach gives readers a feel for the thought processes of the great minds in economics and underscores key ideas impacting contemporary thought and practice Well crafted discussions are further enriched by absorbing examples and figures Thorough suggested reading lists give options for more in depth explorations by interested readers

Contributions to the History of Economic Thought Antoin Murphy, Renee Prendergast, 2000-12-14 Featuring original contributions from some of the leading contemporary figures in the history of economic thought this book offers new perspectives on key topics from Smith s Wealth of Nations to the Jevonian Revolution Drawing inspiration from the life and work of R D C Black formerly Professor of Economics at Queen s University Belfast this book will be of essential interest to any serious scholar of economic thought

Essays in Honour of Victoria Chick: Methodology, microeconomics, and Keynes Victoria Chick, 2002 This volume a companion to Money Macroeconomics and Keynes represents both consolidation and the breaking of new ground in Keynesian methodology and microeconomics by leading figures in these fields

Criminology and Political Theory Dr Anthony Amatrudo, 2009-07-09 A lucid sophisticated and timely vindication of the importance of Marxist feminist and other radical perspectives on the state and political economy to the analysis of crime control and justice It offers a valuable guide to issues of political philosophy for students and teachers of criminology critically deconstructing the taken for granted categories of law and criminal justice Professor Robert Reiner London School of Economics UK This clear and concise book sets out the relationship between political theory and criminology It critically analyzes key theories and debates within criminology and addresses the major political ideas that lie beneath them Organized around key criminological concepts and issues the book covers power and ideology the nature of the state social control and policing punishment economics and criminal activity morality The book has been carefully developed to support practical teaching and learning and contains chapter summaries further reading and a comprehensive glossary which combine to provide a full understanding of the themes

Handbook of Behavioural Economics and Smart Decision-Making Morris Altman, 2017-05-26 This Handbook is a unique and original contribution of over thirty chapters on behavioural economics examining and addressing an important stream of research where the starting assumption is that decision makers are for the most part relatively smart or rational This particular approach is in contrast to a theme running through much contemporary work where individuals behaviour is deemed irrational biased and error prone often due to how people are hardwired In the smart people approach where errors or biases occur and when social dilemmas arise more often than not improving the decision making environment can repair these problems without hijacking or manipulating the preferences of decision makers This book covers a wide range of themes from micro to macro including various sub disciplines within economics such as economic psychology heuristics fast and slow thinking neuroeconomics experiments the capabilities approach institutional economics methodology nudging ethics and public policy
