

Selections from the Restatement (Second) Contracts and Uniform Commercial Code for First-Year Contracts: 2021 Statutory Supplement (Supplements)

An invaluable supplement to any contracts law casebook (including the authors' own *K: A Common Law Approach to Contracts*), this concise statutory supplement provides the materials necessary to keep your first-year contracts course completely up-to-date. Inside you will find the materials necessary to learn how to use the most important sources of law (other than the judicial opinions which fill your casebook): the Restatement (Second) of Contracts and the principal commercial statute, the Uniform Commercial Code, as part of the foundation course in contracts. The authors have carefully selected sections from: The Restatement (Second) of Contracts, Uniform Commercial Code Article 1, Uniform Commercial Code Article 2. The judicious inclusion of comments and illustrations from the Restatement (Second) and the Uniform Commercial Code ensures students have access to resources which add helpful depth to the black letter law and avoids overwhelming students with dense and unnecessary detail. This statutory supplement aids students in the task of learning the essentials of contract law.

was written during my studies at Georgia State University Atlanta in Fall 2000 in the context of an exchange program between Georgia State University and Technische Universität Darmstadt Its subject is the new contract law in electronic commerce The paper starts with an illustration of the situation of legal uncertainty prior to the establishment of a specific contract law in electronic commerce Many laws governing contract formation were drafted before the existence of electronic messaging and did not adequately address the challenges of electronic transactions Furthermore electronic transactions

were often hindered by the diversity of state laws This situation was considered to place some severe legal obstacles to the development of electronic commerce In 1997 President Clinton and Vice President Gore unveiled their Framework for Global Electronic Commerce This issue defined the main goals for the future development of both domestic and global electronic commerce The general objective was to establish a Uniform Commercial Code for this ascending sector of commerce in order to facilitate and enforce electronic transactions The legislative efforts to achieve those goals recently resulted in two uniform acts the Uniform Computer Information Transactions Act UCITA and the Uniform Electronic Transactions Act UETA and the federal Electronic Signatures in Global and National Commerce Act E sign Act The paper deals with these new legislative approaches Aside from the presentation of the scopes of the different acts the paper focuses on their fundamental principles and major provisions Furthermore it discusses the new enactments in the context of a selection of fundamental legal issues raised by electronic commerce This discussion finally shows that although there have been a number of serious endeavors to achieve the above mentioned goals by drafting several electronic commerce statutes the recent enactments relating to contract law in electronic commerce are not able to achieve the goals set out in the Framework for Global Electronic Commerce There still remain significant legal obstacles that prohibit electronic commerce from reaching its full potential Zusammenfassung Diese Arbeit wurde während meines Studienaufenthaltes an der Georgia State University Atlanta im Herbstsemester 2000 im Rahmen eines Austauschprogramms zwischen der Georgia State University und der Technischen

David Slawson, 1996-07-08 During its classical period American contract law had three prominent characteristics nearly unlimited freedom to choose the contents of a contract a clear separation from the law of tort the law of civil wrongs and the power to make contracts without regard to the other party s ability to understand them Combining incisive historical analysis with a keen sense of judicial politics W David Slawson shows how judges brought the classical period to an end about 1960 with a period of reform that continues to this day American contract law no longer possesses any of the prominent characteristics of its classical period For instance courts now refuse to enforce standard contracts according to their terms they implement the consumer s reasonable expectations instead Businesses can no longer count on making the contracts they want laws for certain industries or for businesses generally set many business obligations regardless of what the contracts say A person who knowingly breaches a contract and then tries to avoid liability is subject to heavy penalties As Slawson demonstrates judges accomplished all these reforms although with some help from scholars Legislation contributed very little despite its presence in massive amounts and despite the efforts of modern institutions of law reform such as the Conference of Commissioners on Uniform State Laws Slawson argues persuasively that this comparison demonstrates the superiority of judge made law to legislation for reforming private law of any kind **Liability Insurance in International Arbitration** Richard Jacobs, Lorelie S Masters, Paul Stanley KC, 2021-11-04 This is the third revised edition of what was described by the English Court of Appeal in *C v D* as the standard work on Bermuda Form excess

insurance policies The Form first used in the 1980s covers liabilities for catastrophes such as serious explosions or mass tort litigation and is now widely used by insurance companies It is unusual in that it includes a clause requiring disputes to be arbitrated under English procedural rules in London but subject to New York substantive law This calls for a rare mix of knowledge and experience on the part of the lawyers involved each of whom is required to confront the many differences between English and US law and legal culture In addition since the awards of arbitrators are confidential and are not subject to the scrutiny of the courts the book helps professionals understand the Form s lengthy and complex provisions The book first published in 2004 was the first comprehensive analysis of the Bermuda Form It is frequently cited in Bermuda Form arbitrations and was the joint winner in 2012 of British Insurance Law Association Book Prize for the most notable contribution to literature in the field of law as it affects insurance It offers a detailed commentary on how the Form is to be construed its coverage the substantive law to be applied the limits of liability exceptions and of course the procedures to be followed during arbitration proceedings in London The book will prove invaluable to lawyers risk managers and executives of companies which purchase insurance on the Bermuda Form and to clients lawyers or arbitrators involved in disputes arising therefrom This title is included in Bloomsbury Professional s International Arbitration online service The Involvement of EU Law in Private Law Relationships Dorota Leczykiewicz, Stephen Weatherill, 2013-03-12 The involvement of the EU in regulating private conduct and relationships between individuals is increasing As a result EU law affects the scope of private autonomy in ever wider contexts sparking tensions with fundamental concepts of national private law systems This volume offers a descriptive and normative account of the involvement of EU law in private law relationships The recurring theme in the collected papers is the scope of policy objectives which are apt to legitimise the European Union s as yet unsystematic tendency to serve as a source of restrictions of private autonomy The nature and purpose of the involvement of European Union law in private law relationships is investigated by the authors from both the substantive and the constitutional perspective The papers look at such sectors regulating private law relationships as consumer law labour law competition law equal treatment law and the law of remedies While focusing on private law relationships the authors investigate more general concepts of EU law such as the Internal Market freedoms and general principles of law and the different modes of ensuring the effective application of EU secondary law
