The New Tibetan-English Dictionary of Modern Tibetan Melvyn C. Goldstein, 2001-04-03 This most current Tibetan English dictionary surpasses existing dictionaries in both scope and comprehensiveness No self-love- from emotional dependence to codependence Lola Sola, 2019-07-01 This book contains clinical cases and personal experiences of patients who learn to recover from their emotional dependence and codependence in their treatment process r r Emotional pain is harder to feel and endure than physical pain Many people are hooked on emotional pain and drama r r Emotional dependence is a physical mental emotional and spiritual disease which a large portion of our society suffers from One of its symptoms is codependence and there is a solution for it r r Codependence is a syndrome made up of dysfunctional behavior patterns such as perfectionism pleasing manipulating need for controlling need for approval incapacity to take decisions permissiveness procrastination and victimhood among others r r Codependence entails the belief that we are incomplete This belief turns us into people with a great need of being needed We learn to seek love from a place of need and do whatever is necessary to get it r r Without self love we lose our connection to life There are only gratifications which leave us with anxiety and emptiness When we become dependent we lose our connection to life and end up having a second hand life r r Originally written in Spanish this book has been translated to English and Swedish r r **Rethinking Sport and Exercise**

Psychology Research Peter Hassmén, Richard Keegan, David Piggott, 2016-12-19 This book provides a comprehensive historical account of the evolution of Sport and Exercise Psychology research charting the progression of the field from the early days when well controlled experimental research was the standard to the subsequent paradigm war between positivism post positivism and constructivism The book challenges current thinking and makes a plea for a move towards a future in which the accumulation of knowledge is at the core of Sport and Exercise research rather than simply methods and measurements The result is a critique not only of exercise and sport psychology but of psychological research methods more broadly It will be of great interest to researchers and students working in Sport Science Research Methods and Psychology

Translations from Hung-ch'i (Red Flag) United States. Joint Publications Research Service, 1963 Principles and Practice of Research Hans Troidl, Walter O. Spitzer, Bucknam McPeck, David S. Mulder, Martin F. McKneally, Andrew S. Wechsler, Charles M. Balch, 2012-12-06 What is the best way to plan surgical research What problems are most often encountered in clinical research How should a research report be presented at a scientific meeting These questions and more are all answered in Principles and Practice of Research The second edition has added new sections on animal research models the molecular and cellular dimension of surgical research and practical guidelines for obtaining government and third party funding Other improvements include a friendlier discussion of statistics and updated material about on line computer literature searches This book provides every clinical researcher with a roadmap around the pitfalls of poorly designed studies through the jungle of incomprehensible statistics and over the hurdles of research reporting to a successful study from start

to finish From the reviews of the first edition For me it is a bible and a must for every Ph D or M D involved in clinical research especially in the field of surgery It should be on the table not on the book shelf of both the young as well as the experienced investigator as a readily accessible source of information to avoid the trial and error approach to problems in surgical research World Journal of Surgery 1 a carefully conceived concise blend of factual theory and principles practical guidelines and philosophical perspective I have found it hard to identify any omission even a selected bibliography on laboratory animals their care handling and anatomy is included and impossible to single out any individual contribution each is a treasure well written concise and complete The Lancet 2 The feature of the book is that despite attention to detail it maintains a clear and practical approach to the whole field beginning with the reasons for carrying out research the types of research and above all the reporting of research Almost all aspects of research are covered from small retrospective studies to departmental institutional national and international projects The chapter on writing for publication should be compulsory reading for all budding authors Journal of Bone and Joint Surgery 3

The Hijacked War David Cheng Chang, 2023-05-25

A study of the experiences of Chinese prisoners of war during the Korean War and the struggle over their repatriation The Korean War lasted for three years one month and two days but armistice talks occupied more than two of those years as more than 14 000 Chinese prisoners of war refused to return to Communist China and demanded to go to Nationalist Taiwan effectively hijacking the negotiations and thwarting the designs of world leaders at a pivotal moment in Cold War history In *The Hijacked War* David Cheng Chang vividly portrays the experiences of Chinese prisoners in the dark cold and damp tents of Koje and Cheju Islands in Korea and how their decisions derailed the high politics being conducted in the corridors of power in Washington Moscow and Beijing Chang demonstrates how the Truman Acheson administration's policies of voluntary repatriation and prisoner reindoctrination for psychological warfare purposes the first overt and the second covert had unintended consequences The success of the reindoctrination program backfired when anti Communist Chinese prisoners persuaded and coerced fellow POWs to renounce their homeland Drawing on newly declassified archival materials from China Taiwan and the United States and interviews with more than 80 surviving Chinese and North Korean prisoners of war Chang depicts the struggle over prisoner repatriation that dominated the second half of the Korean War from early 1952 to July 1953 in the prisoners own words Praise for *The Hijacked War* This book represents a giant step forward in our understanding of the prisoner of war issue in the Korean War The research on the Chinese prisoners is extraordinary the stories of individuals compelling and the analysis of the context in which they made choices balanced and persuasive William Stueck author of *The Korean War An International History* David Cheng Chang's superlative research reveals the use of Chinese POWs as pawns in the larger Cold War standoff between the US and China during the Korean War His cogent analysis encourages us to think about the aftermath of the war and the lives of those who made the voluntary choice to join or who faced forced conformity Barak Kushner author of *Men to Devils Devils to Men Japanese War Crimes and Chinese*

Justice Chang's exceptionally vivid prisoner's eye account based on camp archives and interviews with ex POWS leads him to condemn the key U.S. policymakers including President Harry Truman and Secretary of State Dean Acheson for their arrogance, ignorance, and negligence. Foreign Affairs

The State of Law Ulrich von Alemann, Detlef Briesen, Lai Quoc Khanh, 2017-09-30 This book is the result of the first interdisciplinary conference in Vietnam which took place on the Rule of Law. Instead of beginning immediately with a highly specialized debate from the perspective of one single academic discipline, we started to discuss numerous facets of the subject arising from a multidisciplinary dialogue. For this reason, the contributions for this publication come from various scientific disciplines in Vietnam and Germany: political, historical, social, economic, and legal sciences, but also members of Vietnamese governmental and non-governmental organizations. The aim of the volume is to open up a dialogue about the Rule of Law between two very different legal cultures: the German/European and the Vietnamese/Southeast Asian.

Self-Criticism After the Defeat Sadik J. Al-Azm, 2012-01-23 The 1967 War, which led to the defeat of Syria, Jordan, and Egypt by Israel, felt like an unprecedented and unimaginable disaster for the Arab world at the time. For many, the easiest solution was to shift the blame and to ignore some of the glaring defects of Arab society. Syrian philosopher Sadik al-Azm was one of the few to challenge such a view. In his seminal *Self-Criticism After the Defeat*, exposing the political and cultural faults that led to the defeat, he argued that the Arabs could only progress by embracing secularism, gender equality, democracy, and science. Available in English for the first time, *Self-Criticism After the Defeat* is a milestone in modern Arab intellectual history. It marked a turning point in Arab discourse about society and politics on publication in 1968 and spawned other intellectual ventures into Arab self-criticism.

Bahá'í Ethics in Light of Scripture: Virtues and divine commandments Udo Schaefer, 2007 There is a fundamental discrepancy between man as he is and man as he could be if only he recognized his true being and purpose. Ethics is the discipline by which man can understand how he can pass from the first condition to the second. Udo Schaefer's *Bahá'í Ethics in Light of Scripture* is an attempt to analyse the underlying structures and detect the interior architecture of the Bahá'í moral system and is a step towards developing a Bahá'í moral theology. *Doctrinal Fundamentals*, the first of two volumes, provides a historical overview of the Bahá'í Faith, a systematic survey of its doctrines, and an overview of the origin and derivation of moral values. It considers the metaphysical nature of human beings and human responsibilities, looks at reason and conscience, and explores liberty and its limits. Schaefer's second volume deals with concrete values: the virtues, divine commandments, and principles of social ethics from a Bahá'í perspective.
