Psychopathology of Childhood and Adolescence

Andrew S. Davis,2012-12-20 Print CourseSmart *Assessing Competencies for Social and Emotional Learning* Jeremy Burrus,Samuel H. Rikoon,Meghan W. Brenneman,2022-07-12 Assessing Competencies for Social and Emotional Learning explores the conceptualization development and application of assessments of competencies and contextual factors related to social and emotional learning SEL As programs designed to teach students social and emotional competencies are being adopted at an ever increasing rate new measurements are needed to understand their impact on student attitudes behaviors and academic performance This book integrates standards of fairness reliability and validity and lessons learned from personality and attitude assessment to facilitate the principled development and use of SEL assessments Education professionals assessment developers and researchers will be better prepared to systematically develop and evaluate measures of social and emotional competencies Self-Esteem Research, Theory, and Practice Christopher J.

Mruk,Christopher J. J. Mruk,2006-05-09 Dr Mruk has produced a highly readable new edition of his original work on an often misunderstood psychological construct self esteem Mruk s view that self esteem is a critically important influence on psychological adjustment and quality of life is now an accepted tenet in personality theory Lack of self esteem is frequently a precursor to depression suicidal behavior and other personality disorders Nonetheless the clinical diagnosis of self esteem problems has lacked the basis of an overarching theory Dr Mruk s comprehensive analysis distills the literature on self esteem into practical and reliable treatment methods for both clinicians and researchers The new edition contains updated research and current terms and addresses the self esteem backlash He concludes with worksheets and detailed guidelines for conducting self esteem building workshops Added features include Major theories of self esteem Chapter on the new positive psychology 150 new references Dr Mruk has developed a writing style that is successfully oriented toward both academic and clinical audiences in the areas of counseling education nursing psychology and social work thus providing much needed information for teachers students and practicing clinicians in a clear concise way *The Construction of the Self, Second Edition* Susan Harter,2015-05-26 An important work from a leading scholar this book explores self development from early childhood to adulthood Susan Harter traces the normative stages that define the emergence of many self processes including self esteem She also addresses individual differences and societal influences on self development Presenting pioneering empirical research Harter shows that increasingly mature features of the self have both benefits and

liabilities for psychological adjustment The book highlights the causes and consequences of different types of self representations including those that are unrealistically negative or positive New to This Edition Reflects more than a decade of conceptual empirical and methodological advances Provides a broader sociocultural framework for understanding self development Chapters on emerging adulthood self esteem and physical appearance self processes in the classroom motivation cross cultural issues and the quest for authenticity Expanded chapters on childhood adolescence and the self conscious emotions Increased attention to the liabilities of our contemporary preoccupation with the self Merrill-Palmer Quarterly, 1990 **Encyclopedia of Primary Prevention and Health Promotion** Thomas P. Gullotta, Martin Bloom, 2003-01-31 Foundational topics such as history ethics and principles of primary prevention as well as specific issues such as consultation political issues and financing The second section addresses such topics as abuse depression eating disorders HIV AIDS injuries and religion and spirituality often dividing such topics into separate entries addressing childhood adolescence and adulthood *Self and Identity in Adolescent Foreign Language Learning* Florentina Taylor, 2013-07-04 This book explores the role of identity in adolescent foreign language learning to provide evidence that an identity focused approach can make a difference to achievement in education It uses both in depth exploratory interviews with language learners and a cross sectional survey to provide a unique glimpse into the identity dynamics that learners need to manage in their interaction with contradictory relational contexts e g teacher vs classmates parents vs friends and that appear to impair their perceived competence and declared achievement in language learning Furthermore this work presents a new model of identity which incorporates several educational psychology theories e g self discrepancy self presentation impression management developmental theories of adolescence and principles of foreign language teaching and learning This book gives rise to potentially policy changing insights and will be of importance to those interested in the relationship between self identity and language teaching and learning Gender Development Judith E. Owen Blakemore, Sheri A. Berenbaum, Lynn S. Liben, 2013-05-13 This text offers a unique developmental focus on gender Gender development is examined from infancy through adolescence integrating biological socialization and cognitive perspectives The book s current empirical focus is complemented by a lively and readable style that includes anecdotes about children s everyday experiences The book s accessibility is further enhanced with the use of bold face to highlight key terms when first introduced along with a complete glossary of these terms All three of the authors are respected researchers in divergent areas of children s gender role development and each of them teaches a course on the topic The book s primary focus is on gender role behaviors how they develop and the roles biological and experiential factors play in their development The first section of the text introduces the field and outlines its history Part 2 focuses on the differences between the sexes including the biology of sex and the latest research on behavioral sex differences including motor and cognitive behaviors and personality and social behaviors Contemporary theoretical perspectives on gender development biological social and environmental and cognitive approaches

are explored in Part 3 along with the research supporting these models The social agents of gender development including children themselves family peers the media and schools are addressed in the final part Cutting edge and comprehensive this is the perfect text for those who have been searching for an advanced undergraduate and or graduate book for courses in gender development the psychology of sex roles and or gender and or women or men taught in departments of psychology human development and educational psychology Although chapters have been designed to be read sequentially a full author citation is included the first time a reference is used within an individual chapter rather than only the first time it is used in the book making it easy to assign chapters in a variety of orders This referencing system will also appeal to scholars interested in using the book as a resource to review a particular content area

Communication Karl Erik Rosengren,2000-02-11 Written as an introduction for beginning students this book offers a thorough yet lively overview of human communication in all its aspects Accessibly written and assuming no prior knowledge of the discipline Communication An Introduction offers a thorough yet lively examination of all aspects of human communication including a summary of its nature form and function a detailed analysis of all the levels of communication a description and overview of the different traditions of communication studies and a consideration of the future of communication as a phenomenon and as a field of research

Research in Religious Education Leslie J. Francis,William K. Kay,William S. Campbell,1996

Understanding Children and Childhood Anne B. Smith,2013-11-22 Emphasising the voices and rights of children international expert Anne Smith examines the latest thinking on children s learning and development Contemporary theories and research about children and childhood are explained using observations from children s everyday experiences and debates about policy A sociocultural perspective presents development as driven by a child s learning supported by opportunities for reciprocal social interaction

across diverse cultural contexts *Understanding Child Maltreatment* Maria Scannapieco, Kelli Connell-Carrick, 2005-02-10

Child maltreatment professionals from all disciplines struggle to find better ways of understanding and treating the families and children affected by maltreatment. Since the mid 1960s the battered child syndrome and recent high profile abuse cases a plethora of research and literature on child maltreatment has emerged yet this is the first volume to offer a comprehensive integrated analysis for understanding assessing and treating child maltreatment within the ecological framework in a developmental context. This framework systematically organizes and integrates the complex empirical literature in child maltreatment and development including the often overlooked period of adolescence. Viewing child maltreatment from an ecological perspective this volume identifies the risk and protective factors correlated with abuse and neglect. The authors present a comprehensive assessment framework addressing the multiple developmental and environmental factors unique to each case. This framework fully considers risk and protective factors and their relationship to individuals families and environmental elements presenting a much needed perspective for today's child protective services workers. *Understanding Child Maltreatment* is the first of its kind. While most books broadly address the developmental consequences of maltreatment this volume goes further by proposing assessment and intervention strategies based on a deep understanding of each stage of a child's development. Interventions center on the caregiver and the family with particular attention to parenting skills and the challenges the child may experience within his or her developmental stage. Each chapter emphasizes empirically based interventions and includes a case illustration that guides readers in applying these concepts to their own practice. Providing a comprehensive nuanced perspective on maltreatment this book will be invaluable to students researchers and professionals.

Adolescence in America Jacqueline V. Lerner Ph.D., Richard M. Lerner, Jordan Finkelstein, 2001-06-04

An authoritative broad and practical survey of the social psychological and physical development of American teenagers. In *Adolescence in America* more than 100 leading experts from the fields of biology medicine behavioral and social science law education and the humanities piece together the puzzle of adolescence. In readable accessible language they analyze the explosion of research that has reshaped the study of adolescence in the last 30 years and explain how today's leading scientists and practitioners view the challenges of this developmental period. Best of all they show parents how to apply the latest scientific knowledge such as the 40 developmental assets that predict a child's behavior to their own family situation.

The Developmental Psychopathology of Eating Disorders Linda Smolak, Ruth H. Striegel-Moore, Michael P. Levine, 2013-01-11

Although eating problems ranging from body dissatisfaction and dieting to anorexia nervosa or bulimia nervosa can begin and typically have their roots in childhood theory and research in developmental psychopathology and developmental psychology have not received substantial attention in eating disorders research. This book provides crucial background material from both fields and then makes direct applications to numerous aspects of the field of eating disorders including theory research treatment and primary prevention. This book was born out of

a transaction between frustration and optimism The frustrations reflected the limitations of current knowledge about eating problems and disorders Etiological causes which are sensitive and specific to eating disorders have been elusive Although there is some understanding of risk factors little is known about protective factors This has made prevention among other things difficult Furthermore the mechanisms underlying the association between risk factors and disordered eating are poorly understood For example it is known that women are at greater risk than men are but clinicians are hard pressed to get beyond gender based speculations and demonstrate why this is true The optimism grows from familiarity with the field of developmental psychopathology It seems evident that this approach has much to offer the field of eating disorders This book is an early step in the integration of developmental psychopathology into theorizing research treatment and prevention of eating disorders It addresses four specific goals to introduce the principles and methodologies of developmental psychopathology to review the work of developmental psychologists in several major areas of behavior relevant to understanding the causes treatment and prevention of eating disorders to apply developmental psychopathology principles to the area of eating disorders both in the form of theoretical models and in specific areas issues raised by developmental psychopathology and to discuss the implications of developmental approaches for prevention programs and treatments

Understanding and Assessing Trauma in Children and Adolescents Kathleen Nader, 2007-09-26 There are many issues that are important to evaluating children and adolescents and it is increasingly clear that reliance on just one type of assessment is not enough In this volume Kathleen Nader has compiled an articulate and comprehensive guide to the complex process of assessment in youth and child trauma
