## **Selfserve How Petrocanada Pumped Canadians Dry:**

Walter Gordon and the Rise of Canadian Nationalism Stephen Azzi, 1999-05-25 Walter Gordon and the Rise of Canadian Nationalism is an examination of the origins of Walter Gordon's nationalist ideology and its impact on Canada. It traces his ideas from his family influences and the intellectual currents present in his early years to his work as a chartered accountant, public servant and head of a small conglomerate. Drawing on extensive interviews and impressive research, Azzi provides not only a biography of an important political figure but a significant study of the political and intellectual controversies that Gordon and his ideas created, shedding light on the larger political and economic questions of the postwar era. *Self Serve* Peter Foster, 1992 Developing Alberta's Oil Sands Paul Anthony Chastko, 2004 Alberta's oil sands represent a vast and untapped oil reserve that could reasonably supply all of Canada's energy needs for the next 475 years. With an estimated 300 billion barrels of recoverable oil at stake, the quest to develop this natural resource has been undertaken by many powerful actors both nationally and internationally. Using research that integrates the economic, political, scientific and business factors that have been influential in discovering and developing the sands, this book provides a comprehensive history of the oil sands project and a window on the nature of the complex relationships between industry, government and transnational players. This book is the first comprehensive volume that examines the origins and development of the oil sands industry over the last century. The Canadian Business Review, 1993 Mavericks Aritha Van Herk, 2010-01-12 The fifth title in our provincial histories series, *Mavericks* is an idiosyncratic and episodic history of what is arguably Canada's most unconventional province. From mapmakers to ranchers, Stampede Wrestling to Stockwell Day, acclaimed writer Aritha van Herk brings the drama and combative beauty of this irascible province to stunning life. Van Herk's portrait of her home province embraces all its extremes, from deadly and spectacular weather to dinosaur graveyards and from oil gushers and geysers to barnstorming social reformers and political haymakers. Bronc riders of boom and bust, Alberta's people are a beguiling mixture of opinionated extremists, hardy pioneers and gentle sinners. Alberta is a province that most Canadians simply don't understand; the province most Canadians love to hate. It is regarded as a land of reckless redneck and ignorant individualists. But it is also the province where the Famous Five fought the landmark *Person's Case*, giving Canadian women the same status as men in the eyes of the law; a province that truly believes in free speech. Albertans tolerate in their midst people whose extreme views on any manner of subjects would make them outcasts elsewhere. And Albertans practice the creed of western neighbourliness, giving assiduously to charity and always lending a hand where help is needed. They are a tough, tender bunch, squinting into the wind of determined difference. If you're an Albertan, you'll recognize yourself and your home in this book. If you're not an Albertan, this book will be an education for you. *Mavericks* will open your eyes to the real Alberta as she was and is.
