The applause: delight: the wonder of the Stage.
Nature her self was proud of his designs
And joy'd to wear the dressing of his lines,
The learned will Confesse, his works are such
As neither man, nor Muses can praise to much.
For ever live thy fame, the world to tell.
Thy like, no age, shall ever parallell.*

English *The Definitive Shakespeare Companion* Joseph Rosenblum, 2017-06-22 This expansive four volume work gives students detailed explanations of Shakespeare's plays and poems and also covers his age, life, theater, texts and language. Numerous excerpts from primary source historical documents contextualize his works while reviews of productions chronicle his performance history and reception. Shakespeare's works often served to convey simple truths but they are also complex, multilayered masterpieces. Shakespeare drew on varied sources to create his plays and while the plays are sometimes set in worlds before the Elizabethan age, they nonetheless parallel and comment on situations in his own era. Written with the needs of students in mind, this four volume set demystifies Shakespeare for today's readers and provides the necessary perspective and analysis students need to better appreciate the genius of his work. This indispensable ready reference examines Shakespeare's plots, language and themes, his use of sources and exploration of issues important to his age, the interpretation of his works through productions from the Renaissance to the present, and the critical reaction to key questions concerning his writings. The book provides coverage of each key play and poems in discrete sections, with each section presenting summaries, discussions of themes, characters, language and imagery, and clear explications of key passages. Readers will be able to inspect historical documents related to the topics explored in the work being discussed and view excerpts from Shakespeare's sources as well as reviews of major productions. The work also provides a comprehensive list of print and electronic resources suitable for student research.

Shakespeare as Literary Dramatist Lukas Erne, 2003-03-13 In this 2003 study, Lukas Erne argues that Shakespeare, apart from being a playwright who wrote theatrical texts for the stage, was also a literary dramatist who produced reading texts for the page. The usual distinction that has been set up between Ben Jonson on the one hand, carefully preparing his manuscripts for publication, and Shakespeare the man of the theatre, writing for his actors and audience, indifferent to his plays as literature, is questioned in this book. Examining the evidence from early published playbooks, Erne argues that Shakespeare wrote many of his plays with a readership in mind and that these literary texts would have been abridged for the stage because they were too long for performance. The variant early texts of *Romeo and Juliet*, *Henry V* and *Hamlet* are shown to reveal important insights into the different media for which Shakespeare designed his plays.
