Movement Tamar S. Hermann, 2009-09-14 This book discusses the predicament of the Israeli peace movement which paradoxically following the launching of the Oslo peace process between Israel and the Palestinians in 1993 experienced a prolonged fatal decline in membership activity political significance and media visibility After presenting the regional and national background to the launching of the peace process and a short history of Israeli peace activism the book focuses on external and internal processes and interactions experienced by the peace movement after some basic postulates of its agenda were actually although never explicitly embraced by the Rabin government The book concludes that despite its organizational decline and the zero credit given to it by the policy makers in retrospect it appears that the movement contributed significantly to the integration of new ideas for possible solutions to the Middle East conflict in the Israeli mainstream political discourse **Handbook of Conflict Analysis and Resolution** Dennis J.D. , 1928 **Theological Anthropology in the Anthropocene** Jan-Olav Henriksen, 2022-12-14 The Anthropocene presents theology and especially theological anthropology with unprecedented challenges There are no immediately available resources in the theological tradition that reflect directly on such experiences Accordingly the situation calls for contextually based theological reflection of what it means to be human under such circumstances This book discusses the main elements in theological anthropology in light of the fundamental points a that theological anthropology needs to be articulated with reference to and informed by the concrete historical circumstances in which humanity presently finds itself and b that the notion of the Anthropocene can be used as a heuristic tool to describe important traits and conditions that call for a response by humanity and which entail the need for a renewal of what a Christian self understanding means Jan Olav Henriksen explores what such a response entails from the point of view of contemporary theological anthropology and discusses selected topics that can contribute to a contextually based position *The Warrior and the Pacifist* Lester R.

Kurtz, 2018-05-23 This book looks at two contradictory ethical motifs the warrior and the pacifist across four major faith traditions Buddhism Judaism Christianity and Islam and their role in shaping our understanding of violence and the morality of its use The Warrior and the Pacifist explores how these faith traditions which now mutually inhabit our life spaces bring with them across the millennia the moral teachings that have traveled from prehistoric humanity embedded in the beliefs rituals and institutions socially constructed by humans to deal with ultimate concerns core aspects of daily personal and

social life and life transitions **The Trinity, Creation and Pastoral Ministry** Graham Buxton, 2007-01-01 In this book the author proposes a three way conversation between theology science and pastoral ministry His approach draws on a Trinitarian understanding of God as a relational being of love whose life spills over into all created reality human and nonhuman By locating human meaning and purpose within God s creation community this book offers the possibility of a transforming engagement between those in pastoral ministry and the scientific community **Social Information**

Library Media Connection , 1992 **Zionist Israel and Apartheid South Africa** Amneh Badran, 2009-09-10 This book is a comparison of two ethnic national apartheid states South Africa and Israel which have been in conflict and how internal dissent has developed In particular it examines the evolution of effective white protest in South Africa and explores the reasons why comparably powerful movements have not emerged in Israel The book reveals patterns of behaviour shared by groups in both cases It argues that although the role played by protest groups in peace building may be limited a tipping point or magic point can become as significant as other major factors It highlights the role played by intermediate variables that affect the pathways of protest groups such as changes in the international system the visions and strategies of resistance movements and their degree of success the economic relationship between the dominant and dominated side and the legitimacy of the ideology in power apartheid or Zionism Although the politics and roles of protest groups in both cases share some similarities differences remain Whilst white protest groups moved towards an inclusive peace agenda that adopts the ANC vision of a united non racial democratic South Africa the Jewish Israeli protest groups are still by majority entrenched in their support for an exclusive Jewish state And as such they support separation between the two peoples and a limited division of mandatory Palestine Eretz Israel This timely book sheds light on a controversial and explosive political issue Israel being compared to apartheid South Africa

peace organizations in the West Founded in 1915 when a group of women from neutral and belligerent nations in World War I met at The Hague to formulate proposals for ending the war WILPF sent delegations of women to several countries to plead for peace and their final resolutions are often credited with influencing Woodrow Wilson's 14 Points Today the organization counts several thousand members in 36 countries on five continents Since 1948 it has enjoyed consultative status with the UN and it was instrumental in bringing about recent United Nations Security Council Resolutions on Women Peace and Security Beginning in 1945 WILPF began identifying the limitations of its ideological foundations in relation to the international liberal order Catia Cecilia Confortini argues that this period ushered in a turn in the organizations policies and activism one that culminated in the mid 70s and served as an important antecedent to feminist activism that continues today In *Intelligent Compassion* she traces the organizations changing strategies and ideas over a thirty year period focusing on three key areas of its work disarmament decolonization and the conflict in Israel Palestine By analyzing the shifting ideas and policies of the longest living international womens peace organization *Intelligent Compassion* finds answers to IR questions about the possibility of emancipatory agency in the theoretical methodology of women peace activists and the extent to which activists can transcend the prevailing practices rules and relations of their eras *Pathways for Theology in Peacebuilding* Sara Gehlin, 2020-06-02 The ambivalent role of religions in contemporary conflicts has generated an increasing call for faith based peacebuilding endeavours In *Pathways for Theology in Peacebuilding Ecumenical Approaches to Just Peace* Sara Gehlin discusses the ways theology can provide essential resources for such peacebuilding pursuits The pathways for theology in peacebuilding are investigated with regard to a recent faith based peace endeavour namely the creation of an international ecumenical declaration on just peace In the book Gehlin explores the meaning of a just peace from the perspectives of theological ethics biblical interpretation spirituality and ecumenical vision On the basis of this exploration the book maps out theological resources for peace in our time *Teaching Mitzvot* Barbara Binder Kadden, Behrman House, Bruce Kadden, 2005-06 This exceptional guide for learning and teaching about mitzvot offers overviews of 41 mitzvot in six areas holidays rituals word and thought tzedakah gemilut chasadim and ahavah All school programs for each mitzvah and more than 600 activities spanning all grade levels help you implement creative classroom techniques and enrich your students experiences *Peace on Earth* Thomas Matyók, Maureen Flaherty, Hamdesa Tusó, Jessica Senehi, Sean Byrne, 2013-12-16 *Peace on Earth The Role of Religion in Peace and Conflict Studies* provides a critical analysis of faith and religious institutions in peacebuilding practice and pedagogy The work captures the synergistic relationships among faith traditions and how multiple approaches to conflict transformation and peacebuilding result in a creative process that has the potential to achieve a more detailed view of peace on earth containing breadth as well as depth Library and bookstore shelves are filled with critiques of the negative impacts of religion in conflict scenarios *Peace on Earth The Role of Religion in Peace and Conflict Studies* offers an alternate view that suggests religious organizations play a more complex role in conflict
