Biodiversity and ecosystem services in Nordic coastal ecosystems J. Berglund, J. Boström, P. Clausen, L. Gamfeldt, H. Gundersen, K. Hancke, J. L. S. Hansen, M. Häggblom, M. Højgård Petersen, H. Ilvessalo-Lax, K.-O. Jacobsen, M. Kvarnström, H.-G. Lax, M. Køie Poulsen, K. Magnussen, K. Mustonen, P. Norling, E. Oddsdóttir, E. Postmyr, E. Roth, J. Roto, G. Sogn Andersen, H. Svedäng, J. Sørensen, H. Tunón, S. Våvare, M. Kallio, 2018-06-18 This report contributes to a Nordic IPBES like assessment of biodiversity and ecosystem services in Nordic coastal areas. It is based on ten geographical cases in the Nordic countries: Denmark, Finland, Iceland, Norway, Sweden, and Faroe Islands, Greenland, and land. The purpose is to reflect upon local biodiversity and ecosystem services, e.g., status and trends, drivers of change, and policies for governance and what future we are to expect. The cases describe the situation in the N t m area: Kalix archipelago, Quark Lake, Puruvesi Bay of Lumparn, resund, Helgeland archipelago, Faroe Islands, the northern coastline of Iceland, and Disko Bay. It stretches from fresh water areas to ecosystems in the Atlantic Ocean and from urbanised areas with heavy pressures on the environment, e.g., resund, to sparsely populated areas like Greenland with a population of around 0.03 inhabitants/km². [Explore Shamanism](#) Alby Stone, 2003. [Shamanism](#) Gary Edson, 2014-04-14. The ancient practice of shamanism touches many cultures and spiritual philosophies. This book offers an in-depth look at the beliefs and practices centered on the shaman, a person believed to have powers to heal and communicate with the spirit world. It explores shamanism and its associated myths, artifacts, and legends as a communally endorsed acknowledgment of the supernatural or spirit world that evolved in the Neolithic Period and continues to appeal today. The work is heavily illustrated, featuring more than 90 of the author's drawings of masks, fetishes, carvings, and ongon, and 40 rare photographs of shamans, medicine men, and women, and healers. **The Oxford Handbook of the Prehistoric Arctic** T. Max Friesen, Owen K. Mason, 2016. Despite its extreme climate, the North American Arctic holds a complex archaeological record of global significance. In this volume, leading researchers provide comprehensive coverage of the region's cultural history, addressing issues as diverse as climate change impacts on human societies, European colonial expansion, and hunter-gatherer adaptations and social organization. [The Foragers of Point Hope](#) Charles E. Hilton, Benjamin M. Auerbach, Libby W. Cowgill, 2014-07-24. On the edge of the Arctic Ocean, above the Arctic Circle, the prehistoric settlements at Point Hope, Alaska, represent a truly remarkable accomplishment in human biological and cultural adaptations. Presenting a set of anthropological analyses on the human skeletal remains and cultural material from the Ipiutak and Tigara archaeological sites, *The Foragers of Point Hope* sheds new light on the excavations from 1939-41, which provided one of the largest sets of combined biological and cultural materials of northern latitude peoples in the world. A range of material items indicated successful human foraging strategies in this harsh Arctic environment. They also yielded enigmatic artifacts indicative of complex human cultural life filled with dense ritual and artistic expression. These remnants of past human activity contribute to a crucial understanding of past foraging lifeways and offer important insights into the

human condition at the extreme edges of the globe **Shamanism and Traditional Beliefs** Torben A. Vestergaard, 2001
 These papers represent the latest research on religion in the North Atlantic The relationship between human society and the other realms is explored looking at ritual dreams imagery and other shamanistic practices There are extensive cross cultural resemblances between such beliefs and practices within the northern regions Historically such issues have taken place in different disciplinary frameworks with limited mutual contact In the tradition of North Atlantic Studies scholars from different disciplines and research communities are brought together in the presentation of common themes in and around the North Atlantic areas In this volume the contributors are anthropologists archaeologists folklorists biologists and presenting a different viewpoint a shamanic therapist **Skilled Visions** Cristina Grasseni, 2007-01-01 Most arguments for a rediscovery of the body and the senses hinge on a critique of visualism in our globalized technified society This approach has led to a lack of actual research on the processes of visual enskillment Providing a comprehensive spectrum of case studies in relevant contexts this volume raises the issue of the rehabilitation of vision and contextualizes vision in the contemporary debate on the construction of local knowledge vs the hegemony of the socio technical network By maintaining an ethnographic approach the book provides practical examples that are both accessible to undergraduate students and informative for an academic audience *Inuit Studies*, 2003 **Inuit Shamanism and Christianity** Frédéric B. Laugrand, Jarich G. Oosten, 2010-01-01 Using archival material and oral testimony collected during workshops in Nunavut between 1996 and 2008 Frédéric Laugrand and Jarich Oosten provide a nuanced look at Inuit religion offering a strong counter narrative to the idea that traditional Inuit culture declined post contact They show that setting up a dichotomy between a past identified with traditional culture and a present involving Christianity obscures the continuity and dynamics of Inuit society which has long borrowed and adapted outside elements They argue that both Shamanism and Christianity are continually changing in the Arctic and ideas of transformation and transition are necessary to understand both how the ideology of a hunting society shaped Inuit Christian cosmology and how Christianity changed Inuit shamanic traditions

Traditions on the Move. Essays in Honour of Jarich Oosten, 2009 **Worldviews of the Greenlanders** Birgitte Sonne, 2018-01-15 Ninety years ago Knud Rasmussen's popular account of his scientific expeditions through Greenland and North America introduced readers to the culture and history of arctic Natives In the intervening century a robust field of ethnographic research has grown around the Inuit and Yupiit of North America but until now English language readers have had little access to the broad corpus of work on Greenlandic natives *Worldviews of the Greenlanders* draws upon extensive Danish and Greenlandic research on Inuit arctic peoples as well as Birgitte Sonne's own decades of scholarship and fieldwork to present in rich detail the key symbols and traditional beliefs of Greenlandic Natives as well as the changes brought about by contact with colonial traders and Christian missionaries It includes critical updates to our knowledge of the Greenlanders pre colonial world and their ideas on space time and other worldly beings This expansive work will be a touchstone of Arctic

Dreaming and the Imagination Matthew D. Newsom,2025-04-01 Of all the human behaviors anthropologists consider perhaps the most conceptually challenging are those that cannot be directly observed This volume draws from rich ethnographic data to offer theoretical and methodological tools for mapping the intersections between two such behaviors dreaming and imagination Although Western perspectives tend to cast these as personal experiences contained within individual minds each contributor explores diverse cultural and historical contexts to demonstrate how these behaviours are always in some sense cultural and influenced by social others The cross cultural approach suggests theoretical flexibility and expands the study of imagination across multiple disciplines [Historical Dictionary of Shamanism](#)
