Public Opinion Polling in Mid-Century British Literature Megan Faragher,2021-08-19 Whereas modernist writers lauded the consecrated realm of subjective interiority mid century writers were engrossed by the materialization of the collective mind An obsession with group thinking was fuelled by the establishment of academic sociology and the ubiquitous infiltration of public opinion research into a bevy of cultural and governmental institutions As authors witnessed the materialization of the once opaque realm of public consciousness for the first time their writings imagined the potentialities of such technologies for the body politic Polling opened new horizons for mass politics *Public Opinion Polling in Mid Century British Literature* traces this most crucial period of group psychology s evolution the mid century when psychography a term originating in Victorian spiritualism transformed into a scientific praxis The imbrication of British writers within a growing institutionalized public opinion infrastructure bolstered an aesthetic turn towards collectivity and an interest in the political ramifications of meta psychological discourse Examining works by H G Wells Evelyn Waugh Val Gielgud Olaf Stapledon Virginia Woolf Naomi Mitchison Celia Fremlin Cecil Day Lewis and Elizabeth Bowen this book utilizes extensive archival research to trace the embeddedness of writers within public opinion institutions providing a fresh explanation for the new material turn so often associated with interwar writing

Things to Come Christopher Frayling,2019-07-25 The release of *Things to Come* in 1936 was one of the key moments in the history of science fiction in the cinema The film was the brainchild of H G Wells whose worldwide reputation as a thinker had persuaded its producer Alexander Korda to offer him a contract giving him virtually total control over the project Korda drafted a dazzling array of talents to render into pictures Wells s ideas of the future a hundred years hence His brother Vincent Korda a distinguished painter was employed as art director and the Bauhaus artist Laszlo Moholy Nagy contributed ideas for futuristic sets As director Korda hired William Cameron Menzies who had practically invented the profession of Hollywood art director through his work with Douglas Fairbanks on *The Thief of Baghdad* and Rudolf Valentino on *Son of the Sheik* and whose

career would climax with *Gone With the Wind*. The result was a landmark in cinematic design. Christopher Frayling shows with a wealth of illustrations how the boldness and brilliance of the sets and costumes mark out *Things to Come* as British cinema's greatest contribution to the science fiction genre, amply justifying his judgement that *Things to Come* is to modernism as *Blade Runner* is to postmodernism.

The Forrest J Ackerman Oeuvre Christopher M. O'Brien, 2012-09-18 Although he is most remembered for his vast collection of science fiction memorabilia, his influential magazine *Famous Monsters of Filmland* and his frequent sci-fi convention appearances, Forrest J Ackerman (1916-2008) also left a sizeable body of work in print. An introductory biographical section traces Ackerman's early enthusiasm for pulp magazines and film productions of a fantastic nature, his rise to prominence in fandom, his acquisition of memorabilia, his work as a literary agent, the founding of his landmark magazine in 1958, and his friendship with a number of performers and personnel from genre films. The extensive bibliography includes listings of books published, letters, articles, fiction, verse, speeches, screenplays, comics, discography, liner notes, and periodicals edited and published by Ackerman. A thorough filmography, a selected listing of nationally televised appearances, and rare photographs of Ackerman throughout his lifetime complete this definitive catalog of one of science fiction's most interesting personalities.

Nuclear Power Is Not The Answer To Global Warming Or Anything Else Helen Caldicott, 2006-07-01 In this revealing examination of the costs and consequences of nuclear energy, world renowned antinuclear spokesperson Helen Caldicott uncovers the facts that belie the nuclear industry propaganda: nuclear power contributes to global warming, the true cost of nuclear power is prohibitive with taxpayers picking up most of the tab, there's simply not enough uranium in the world to sustain nuclear power over the long term, and the potential for a catastrophic accident or a terrorist attack far outweighs any benefits. Trained as a physician and thoroughly versed in the science of nuclear energy, the bestselling author of *Nuclear Madness* and *Missile Envy* here turns her attention from nuclear bombs to nuclear lightbulbs. As she makes meticulously clear in this essential book, the world cannot withstand either.

Americanizing Britain Genevieve Abravanel, 2012-03-20 How did Great Britain, which entered the twentieth century as a dominant empire, reinvent itself in reaction to its fears and fantasies about the United States? Investigating the anxieties caused by the invasion of American culture from jazz to Ford motorcars to Hollywood films during the first half of the twentieth century, Genevieve Abravanel theorizes the rise of the American Entertainment Empire as a new style of imperialism that threatened Britain's own. In the early twentieth century, the United States excited a range of utopian and dystopian energies in Britain. Authors who might ordinarily seem to have little in common—H.G. Wells, Aldous Huxley, and Virginia Woolf—began to imagine Britain's future through America. Abravanel explores how these novelists fashioned transatlantic fictions as a response to the encroaching presence of Uncle Sam. She then turns her attention to the arrival of

jazz after World War I showing how a range of writers from Elizabeth Bowen to W H Auden deployed the new music as a metaphor for the modernization of England The global phenomenon of Hollywood film proved even more menacing than the jazz craze prompting nostalgia for English folk culture and a lament for Britain's literary heritage Abravanel then refracts British debates about America through the writing of two key cultural critics F R Leavis and T S Eliot In so doing she demonstrates the interdependencies of some of the most cherished categories of literary study language nation and artistic value by situating the high low debates within a transatlantic framework Economic Decisions of the Civil Aeronautics Board United States. Civil Aeronautics Board,1952 **Lost , British Science Fiction Film and Television** Tobias Hochscherf,James Leggott,Donald E. Palumbo,2014-01-10 Written by international experts from a range of disciplines these essays examine the uniquely British contribution to science fiction film and television Viewing British SF as a cultural phenomenon that challenges straightforward definitions of genre nationhood authorship and media the editors provide a conceptual introduction placing the essays within their critical context Essay topics include Hammer science fiction films the various incarnations of Doctor Who Stanley Kubrick's A Clockwork Orange and such 21st century productions as 28 Days Later and Torchwood A Dictionary of Cliches Eric Partridge,2003-09-02 This work is full of things better left unsaid hackneyed phrases idioms battered into senselessness infuriating Gallicisms once familiar quotations and tags from the ancient classics It makes a formidable list amplified as it is with definitions sources and indications of the cliché's venerability in every case **Congressional Record** United States.
