Shaping the Education of Slow Learners Wilfred Kayran Brennan, 1974-01-01 **Curricular Needs of Slow Learners** W. K. Brennan, 2018-09-03 First published in 1979 This report discusses the existing practices of over 500 primary secondary and special schools with their special needs pupils The study outlines the variety of provisions facilities and equipment in the schools and the extent of use with slow learners It maps out the curricular activities in many organisational contexts and across all subject areas and discusses comparative strengths and weaknesses It relates the findings to the problems of improving the quality of education offered to slow learning pupils suggesting areas where improvement is needed and outlining possible new approaches *Routledge Library Editions: Special Educational Needs* Various, 2021-07-29 This set of 62 volumes originally published between 1951 and 1999 amalgamates a wide breadth of literature on Special Educational Needs with a particular focus on inclusivity class management and curriculum theory This collection of books from some of the leading scholars in the field provides a comprehensive overview of the subject how it has evolved over time and will be of particular interest to students of Education and those undertaking teaching qualifications **Teacher Training and**

Special Educational Needs John Sayer, Neville Jones, 2018-09-03 First published in 1985 The responses to special educational needs in the 1980s prompted radical changes in the initial and in service education of teachers This title is the result of a major conference which was called to anticipate the combined effects on training and special educational needs work and to project a spectrum of positive responses The authors are drawn from all branches of education in order to provide a critical review of developments since 1983 in teacher education and to discuss the current recommendations on training to meet special educational needs both in Great Britain and the rest of Europe **Trends in Education**, 1975

Bad Mouthing Jenny Corbett, 2013-11-05 The power of language is overwhelming and this is shown in the way in which

words are used to define portray and explain people and situations With this in mind then it is interesting to note how the language of special needs has always been composed of words and images which foster fear mistrust loathing and hostility idiot imbecile and moron are frequently used as terms of abuse Whilst there has been considerable theorizing on the psychological and sociological aspects of special education as well as a recognition of the influence of policies and politics there has not yet been a concerted attempt to analyze the way in which language is used to create codes and images This general lack of interest may be because semantics seem peripheral to special education the focus has rather been on individual case studies teaching programmes legislation and practice Jenny Corbett however has a particular interest in the language of special needs Over the past few years she has explored the ways in which new discourses have emerged to challenge those of enlightened modernity the political correctness of special needs language in the mid 1990s and the ways in which imagery is changing as proud labels displace the legacy of negativity In this book the author brings together the findings of these explorations as she looks at where the language of special needs has emerged from where it seems to be going at present and what is likely to become of it in the near future In order to more fully understand why some learners are marginalised and given an inferior status says Jenny Corbett it is important to explore the way in which language has been used

Patterns of Educational Integration Barrie Wade, Maggie Moore, 1992-01-01 The integration of children with special educational needs was a crucial issue for the 1990s Many countries were reassessing and reorganising their systems of provision in the light of legislation to provide entitlement for all There was noticeable worldwide trend away from entirely separate provision for learners with special educational needs At the same time there was no agreement on how exactly they should be integrated with other students The reader will gain a clear understanding of educational provision the societal forces that push for greater integration and the attitudes that promote or hinder educational success

Change in Special Education Richard Stakes, Garry Hornby, 1997 This study looks at the legal requirements of the relevant Education Act recommendations made in various reports relating to special education provision in mainstream schools The text examines the changes and the practitioners implementing them and discusses changes in the political and social climate within and outside education The reader is guided through these factors and shown how they have affected provision in secondary schools

Educating Pupils with Special Needs in the Ordinary School Seamus Hegarty, Keith Pocklington, Dorothy Lucas, 1981 Based on a three year study this book reports on a variety of schemes where children with special needs are being educated in ordinary schools It looks closely at the range of integration programmes assessing the implications for the school themselves and giving guidance on the practical constraints and problems which arise This book should be of interest to OREAD

The Education of People with Profound and Multiple Handicaps Judy Sebba, 1988 Designed as a basis for in service courses for staff working with people who have profound and multiple handicaps Topics covered include assessment curriculum teaching methods microelectronics problem behaviour and physiotherapy
