Shared Destiny Near East Regional Development And Cooperation:

A Shared Destiny Joyce Starr, Addeane S. Caelleigh, 1983 *Economic Cooperation in the Middle East* Gideon Fishelson, 2019-04-12 This book is an outcome of conference on Economic Cooperation in the Middle East held at Tel Aviv University in 1986 It examines economic integration in the Middle East its implications and possible costs The book analyzes the consequences of peace and economic cooperation in the Middle East Beyond the Handshake Dalia Dassa Kaye, 2012-08-14 Arabs and Israelis have battled one another in political and military arenas seemingly continuously for some fifty years The 1991 Madrid Peace Conference sought to change this pattern launching bilateral and multilateral tracks in the Arab Israeli peace process As a result a broad group of Arab states sat down with Israel and began to cooperate on a wide range of regional issues in what became known as the Middle East multilaterals Yet why did enemies reluctant even to recognize one another choose to cooperate on regional problems And once this process began what drove the parties to continue such cooperation or in some cases halt their cooperative efforts Beyond the Handshake addresses these fundamental questions exploring the origins of the multilaterals and the development of multilateral cooperation in the areas of arms control and regional security economic development water management and the environment Dalia Dassa Kaye challenging conventional concepts of cooperation argues that multilateral cooperation in the Middle East must be appreciated as a process of interaction rather than solely as a set of outcomes Presenting theoretical insights of value to students of regional and international relations Beyond the Handshake provides a unique look at the evolving nature of Arab Israeli relations and exposes the foundation the multilateral peace process laid for future regional cooperation in the Middle East Israel, Jordan, and the Peace Process Yehuda Lukacs, 1997 Israel and Jordan even though self proclaimed enemies of one another practiced a relationship of interdependence based on corresponding interests In the years following the 1967 war these two countries fates were delicately intertwined because of many factors like mutual reliance on natural resources especially water and parallel interests in the subordination of the Palestinian national movement These conditions of commonality led to extensive ties between the two countries and approximated a state of de facto peace that ironically made an official peace treaty almost impossible to sign A formal peace treaty would have required not only Israel's withdrawal from the West Bank but also Jordan's acknowledgment of the clandestine contacts between the two formal enemies Yehuda Lukacs gives us an account of how this relationship changed in 1988 when Jordan disengaged from the West Bank This event combined with the Palestinian uprising and the Gulf War paved the way for Israel and Jordan in 1994 to sign the Israeli Jordanian peace treaty By systematically examining the impact of functional cooperation between two official enemies Lukacs makes an important contribution to Middle East studies and international conflict resolution **The Politics Of Scarcity** Joyce R Starr, Daniel C. Stoll, Selig A Taubenblatt, Donald E Osborn, 2019-06-26 This book focuses on the impact that emerging water problems in the Middle East will have on U S strategic interests in that region It provides an invaluable study for

Water In The Middle East Thomas Naff, 2020-06-08 The scarcity and rapid depletion of water in one of the world's driest regions continues to be a major determinant of the domestic and external policies of the major actors in the Middle East Israel Jordan and the West Bank will have exhausted virtually all their renewable sources of fresh water by 1995 if current patterns of consumption are not radically altered This study examines the hydrological historical legal and strategic dimensions of water problems in the Middle East and discusses their implications for the future

Water and Peace for the People Jon Martin Trondalen, 2008-01-01 This book proposes practical and objective solutions to the entrenched water conflicts in the Middle East The author reveals and clarifies the complexity of the water conflicts drawing on years of experience facilitating and chairing water negotiations in the region The bottom line is Unless the countries involved co operate the consequences will be devastating The lack of plentiful and clean water for the people will not only result in severe human suffering but could also have grave geopolitical consequences The book covers four critical areas the Euphrates and Tigris Rivers where new documentation reveals alarming trends the politically sensitive Golan Heights with its water disputed by Israel and Syria the Hasbani water dispute between Lebanon and Israel the longstanding water resource dispute between the Israelis and Palestinians

The Palestine Yearbook of International Law, 1989 Asian Security and the Rise of China David Martin Jones, Michael Lawrence Rowan Smith, Nicholas Khoo, 2013-01-01. Khoo, Jones and Smith have pulled off a remarkable balancing act, crafting a well-grounded and multifaceted survey of China's rise in the context of Asian security. In a field which is often marked more by scholarly effervescence than substance, the authors provide a refreshingly detailed portrait of the last two decades and fairly mindedly point out evidence which might support both extremes of the debates they challenge with their own third way. Frank Scott Douglas, US Naval War College. US Congratulations to the authors for a clearly argued and comprehensive treatment of China's post-Cold War rise and what it means for existing and future dynamics of the Asia-Pacific region. Effectively employing realist theory in a fair-minded treatment of regional developments, the volume shows how and why power realities are more important than non-material factors in determining the region's trajectory and thereby demonstrates that China's ascendancy in Asia remains complicated and conflicted. Robert Sutter, George Washington University. US East Asia is without question a region of huge economic, political, and security significance. *Asian Security and the Rise of China* offers a comprehensive overview and assessment of the international politics of the Asia-Pacific since the end of the Cold War, seeking to address the overarching question of how we can most convincingly explain the central dynamics of Asia's international relations. Via a realist perspective on the dynamics and frictions associated with accommodating the rise of powerful states, this timely book addresses the core issue in contemporary Asian politics: the rise of China. The contributors expertly evaluate China's rise and the impact it has had on the dynamics of regional relations in North East and South East Asia. It demonstrates that China's economic development and its regional and international

ambition increasingly conflict with the existing consensus based regional arrangements like the ASEAN Regional Forum and the East Asian Summit mechanism As a consequence smaller states in the region increasingly resort to hedging and balancing strategies in an attempt to mitigate Chinese hegemony This leaves the region in the grip of a complex and potentially destabilizing security dilemma The book offers a compelling analysis of the problem that China presents for its region that will enlighten undergraduate students of regional political studies and international relations Postgraduate and Master s students on courses addressing East and South East Asia will also find plenty of information in this invaluable book

Foreign Affairs Archibald Cary Coolidge,Hamilton Fish Armstrong,1984 Contested Ideas of Regionalism in Asia

Baogang He,2016-09-13 Deepening regionalism in Asia demands new leadership Strong elites who are committed to a supranational identity are a minimum requirement of successful regionalism Regional leaders are increasingly seen as a new set of leaders in Europe Currently Asian regional leaders largely come from the diplomacy community or trade and economic sectors Yet further regionalization demands a new type of leadership from civil society and citizens In this context it is important to cultivate new regional leadership through the development of regional citizenship This book examines contested ideas of regionalism in Asia with a particular focus on two competing ideas of pan Asianism and Pacificism It also identifies a new trend and contestation the fundamental shift from a civilization understanding of regionalism to a technocratic and functional understanding of regionalism in the form of regulatory regionalism It also examines the other contested imaginations of regionalism in Asia including elitist versus participatory approaches to regionalism and democracy centric versus nationalism centric approaches to regionalism **Practical Peacemaking in the Middle East** Steve L.
