**Sharing the Difference** Joke Johannetta Hermsen, Alkeline van Lenning, 1991 , **Perspectives on Feminist Political Thought in European History** Tjitske Akkerman, Siep Stuurman, 2013-06-17 Spanning six centuries of political thought in European history this book puts the ideas of thinkers from Christine de Pizan to Simone de Beauvoir in the broader contexts of their time This intriguing collection of essays shows that feminism is not a variant of modern radical discourse but a mode of analysing the issues of authority power and virtue that have been at the heart of European political thought from the middle ages Continental Feminism Reader Ann J. Cahill, Jennifer Hansen, 2004-09-01 In an era of backlash and supposed stagnation feminist philosophers are still providing fresh and challenging perspectives you just have to know where to look Continental feminist theory continues to address pressing questions of equality and difference identity and subjectivity Modern thinkers like Judith Butler Kelly Oliver and Drucilla Cornell give strikingly new perspectives on sex gender sexual politics and the various social reasons for gender inequality Yet their theories are not always well received Continental Feminism Reader responds to the marginalization of these thinkers and others like them In this volume Ann J Cahill and Jennifer Hansen collect the most groundbreaking recent work in Continental Feminist Theory introducing and explaining pieces that are often mystifying to those outside the field and outside academia With these essays Continental Feminism Reader begins the process of reanimating feminist politics through the critical tools of its contributors

Nomadic Subjects Rosi Braidotti, 2011 This revised and expanded edition retains all but two of Braidotti's original essays including her investigations into epistemology's relation to the woman question feminism and biomedical ethics European feminism and the possible relations between American feminism and European politics and philosophy A new piece integrates Deleuze and Guattari's concept of the becoming minoritarian more deeply into modern democratic thought and a chapter on methodology explains Braidotti's methods while engaging with her critics **The Politics of Affirmative**

**Action** Carol Lee Bacchi, 1996-09-24 This book makes a major contribution to an issue of central concern to feminists It is well written thoroughly researched and thoughtfully argued Wide ranging and comprehensive in scope the book is carefully structured using different countries to illustrate the specific ways in which affirmative action is co-opted and contained in practice Jeanne Gregory Middlesex University This timely and incisive book brings a theoretical lens to the debates around affirmative action It presents a comparative analysis of those countries reputed to be leading the way in policies for women the United States Canada Australia Sweden The Netherlands and Norway Carol Lee Bacchi draws upon current social and feminist theory to present a lucid analysis of the implementation of reform Taking account of the particular historical context of affirmative action policies she considers why expressed commitment to affirmative action for women has failed to translate into meaningful reform She describes how conceptual and identity categories are given meanings and positioned in debate in ways which work to contain the effects of the reform Bacchi concludes that proponents of affirmative action need to direct

more attention to the political uses of categories than to their abstract content and to concentrate their efforts upon exposing the effects of category politics
