Jonathan Kathrein, Margaret Kathrein

Sharks Of Red Triangle:

Surviving the Shark Jonathan Kathrein, Margaret Kathrein, 2012-07-01 In *Surviving the Shark* Jonathan Kathrein describes his incredible shark attack experience. The book covers all aspects of Kathrein's survival beginning with the eerie moments just before the attack when something smashes into Kathrein's hand as he paddles on his board waiting for a wave off Stinson Beach in northern California. Realizing it is probably a shark and possibly a great white, Kathrein tries to paddle away furiously trying to make it toward shore where he sees some of his friends on the beach. But it is too late as the great white returns, slams into him, then grabs his leg and pulls him underwater thrashing him back and forth trying to rip his leg off. How Kathrein is able to escape and make his way to shore despite his horrific wounds is nothing short of amazing. But that's just the beginning as he now faces months of physical and mental rehabilitation all the while dealing with the constant media attention that the attack has generated. Gradually with the help of his family and friends, Kathrein makes a recovery. Today Kathrein gives lectures on shark conservation as well as on such topics as avoiding shark attacks when you're in the water. In this book he not only writes of his ordeal but also delves into shark behavior and explains his desire to spread shark awareness. There is also an underlying theme of tremendous familial love and Kathrein's extreme fervor for life. **100**

The Fear Project began with one question: how can we overcome our fears to reach our full potential? Who among us has not been paralyzed by fear? In *The Fear Project*, award-winning journalist and surfer Jaimal Yogis sets out to better understand fear: why does it so often dominate our lives? What makes it tick, and is there even a way to use it to our advantage? In the process, he plunges readers into great white shark-infested waters, brings them along to surf 40-foot waves in the dead of winter, and gives them access to some of the world's best neuroscience labs, psychologists, and extreme athletes. In this entertaining, often laugh-out-loud narrative, Yogis also treats himself like a guinea pig for all of his research, pushing his own fears repeatedly to the limits in his sport in his life and in love. Ultimately, Yogis shares with his readers the best strategies to emerge triumphant from even the most paralyzing of fears. *The Fear Project* gives you insight into how fear evolved in the human brain, how to tell the difference between good fear and bad fear, how to use the latest neuroscience to transform fear memories, why fear spreads between us, and how to counteract fearful groupthink. How to turn fear into a performance enhancer, athletically and at work. In pursuing this terrifying and often thrilling journey with Yogis, we learn how to move through fear and unlock a sense of renewed possibility and a more rewarding life.
