Muzaffar Alam,Sanjay Subrahmanyam,2012 Between the mid sixteenth and early nineteenth century the Mughal Empire was an Indo Islamic dynasty that ruled as far as Bengal in the east and Kabul in the west as high as Kashmir in the north and the Kaveri basin in the south The Mughals constructed a sophisticated complex system of government that facilitated an era of profound artistic and architectural achievement They promoted the place of Persian culture in Indian society and set the groundwork for South Asia s future development In this volume two leading historians of early modern South Asia present nine major joint essays on the Mughal Empire framed by an essential introductory reflection Making creative use of materials written in Persian Indian vernacular languages and a variety of European languages their chapters accomplish the most significant innovations in Mughal historiography in decades intertwining political cultural and commercial themes while exploring diplomacy state formation history writing religious debate and political thought Muzaffar Alam and Sanjay Subrahmanyam center on confrontations between different source materials that they then reconcile enabling readers to participate in both the debate and resolution of competing claims Their introduction discusses the comparative and historiographical approach of their work and its place within the literature on Mughal rule Interdisciplinary and cutting edge this volume richly expands research on the Mughal state early modern South Asia and the comparative history of the Mughal Ottoman Safavid and other early modern empires **The Delhi Sultanate** Peter Jackson,2003-10-16 The Delhi Sultanate

was the first Islamic state to be established in India In a broad ranging accessible narrative Peter Jackson traces the history

of the Sultanate from its foundation in 1210 to its demise in 1400 at the sack of Delhi by the Central Asian conqueror Tamerlane. During the thirteenth and fourteenth centuries the Sultanate was the principal bastion of Islam in the subcontinent. While the book focuses on military and political affairs tracing the Sultanate's resistance to formidable Mongol invasions from the north west and the administrative developments that underpinned these exploits, it also explores the Sultans' relations with their non-Muslim subjects. As a comprehensive treatment of the period, the book will make a significant contribution to the literature on medieval Indo-Muslim history. Students of Islamic and Indian history and those with a general interest in the region will find it a valuable resource.

Muslim Rule in Medieval India Fouzia Farooq

Ahmed, 2016-09-27 The Delhi Sultanate ruled northern India for over three centuries. The era marked by the desecration of temples and construction of mosques from temple rubble is for many South Asians a lightning rod for debates on communalism, religious identity and inter-faith conflict. Using Persian and Arabic manuscripts, epigraphs and inscriptions, Fouzia Farooq Ahmad demystifies key aspects of governance and religion in this complex and controversial period. Why were small sets of foreign invaders and administrators able to dominate despite the cultural, linguistic and religious divides separating them from the ruled? And to what extent did people comply with the authority of sultans? They knew very little about. By focusing for the first time on the relationship between the sultans, the bureaucracy and the ruled, *Muslim Rule in Medieval India* outlines the practical dynamics of medieval Muslim political culture and its reception. This approach shows categorically that sultans did not possess meaningful political authority among the masses and that their symbols of legitimacy were merely post hoc socio-cultural embellishments. Ahmad's thoroughly researched revisionist account is essential reading for all students and researchers working on the history of South Asia from the medieval period to the present day.

Al-Hind, Volume 3 Indo-Islamic Society, 14th-15th Centuries André Wink, 2003-11-15 This third volume of André Wink's acclaimed and pioneering *Al-Hind: The Making of the Indo-Islamic World* takes the reader from the late Mongol invasions to the end of the medieval period and the beginnings of early modern times in the late fifteenth and early sixteenth century. It breaks new ground by focusing attention on the role of geography and more specifically on the interplay of nomadic, settled and maritime societies. In doing so, it presents a picture of the world of India and the Indian Ocean on the eve of the Portuguese discovery of the searoute: a world without stable parameters of pervasive geophysical change, inchoate and instable urbanism, highly volatile and itinerant elites of nomadic origin, far-flung merchant diasporas and a famine and disease-prone peasantry whose life was a gamble on the monsoon.

The Many Lives of a Rajput Queen Ramya

Sreenivasan, 2015-08-03 Winner of the 2009 Ananda Kentish Coomaraswamy Book Prize sponsored by the Association for Asian Studies. The medieval Rajput queen Padmini believed to have been pursued by Alauddin Khalji, the Sultan of Delhi, has been the focus of numerous South Asian narratives ranging from a Sufi mystical romance in the sixteenth century to nationalist histories in the late nineteenth century. *The Many Lives of a Rajput Queen* explores how early modern regional

elites caste groups and mystical and monastic communities shaped their distinctive versions of the past through the repeated refashioning of the legend of Padmini Ramya Sreenivasan investigates these legends and traces their subsequent appropriation by colonial administrators and nationalist intellectuals for varying different political ends Using Padmini as a means of illustrating the power of gender norms in constructing heroic memory she shows how such narratives about virtuous women changed as they circulated across particular communities in South Asia between the sixteenth and early twentieth centuries This book will interest historians of memory gender community culture and historywriting in South Asia Illustrating how enduring legends emerged out of particular precolonial repositories of tradition the book also addresses the nature of colonial transitions and precolonial historical consciousness **Situating Medieval India** Surinder Singh,2023

Explores state formation social fabrics and cultural mores of medieval India from 1200 1800 The states of medieval India operated under a ruling class that was largely Muslim colouring our understanding of the history of the period Increased availability of Persian chronicles emergence of a class of professional historians and progressive forces emanating from the anti colonial movement have led to new approaches to the period Situating Medieval India covers more than 6 centuries from the Delhi Sultanate to the arrival of Europeans Topics covered include approaches to exercise of sovereign power in medieval states and the social identity of government officers Dulla Bhatti s revolt against the Mughal State modes of resistance in the state of Punjab and religious diversity in Agra The author also examines scientific and technical innovations and the artworks of Mushtaqi Jahangir and Bhandari The book opens up medieval India in all its complexity and richness **Roots of North**

Indian Shi'ism in Iran and Iraq: Religion and State in Awadh, 1722-1859 Juan R. I. Cole,2024-11-28 In this pioneering study of the Twelver Shi i branch of Islam prevalent in Iraq and Iran Juan R I Cole traces the influence of Shi i rule on the development of religious communalism and conflict in the north Indian State of Awadh Oudh as well as the relationship of the Shi i clergy to the state and the clerical reaction to British imperialism and capitalism Based on research in rare manuscripts and in archives the book reveals that the Shi i clergy advocated policies that caused resentment among Sunnis and Hindus thereby promoting religious communalism and setting the stage for modern communal conflict The Shi i learned men took government posts in support of Awadh s Shi i nawabs and shahs Awadh state support in turn helped transform Shiism from a persecuted sect to a dominant if still minority religious establishment Sociologically the book draws attention to the specific role of the state in defining sect and church It also argues the importance of class divisions within the Shi i community showing that the dominant clerical ideology was often not accepted by the laboring strata Cole s study supports the view that Muslim communalism in northern India had genuine historical roots and was not simply an elite strategy of modern Muslim politicians Contrary to the arguments of some writers and to the image projected by Iran s current ayatollahs he argues that most Shi i clergy did not play a role of opposition to the state in premodern societies **Sultanate Architecture of**

Pre-Mughal India Elizabeth Schotten Merklinger,2005 Illustrations Numerous B w Illustrations Description The Mughals

ruled a united north India for over three centuries but the roots of the glorious monuments they built are found in earlier provincial styles of architecture In this richly illustrated work Dr Elizabeth Schotten Merklinger presents the first comprehensive study of the architecture of the Sultanate period During the pre Mughal centuries provincial Islamic styles of architecture developed some of great importance and originality each a spontaneous movement arising from its respective rulers and the desire to express particular aesthetic ideals Many factors influenced these regional styles the most important being the indigenous arts prevailing in the region prior to Islam the technical ability of the craftsmen the climatic conditions and the strength of the bond each province had with the capital Delhi In *Sultanate Architecture of Pre Mughal India* Elizabeth Schotten Merklinger traces the architectural development of each Sultanate She shows that each provincial style is a synthesis between opposing spiritual and aesthetic concepts faced by the early Muslims in India Nowhere else in the Islamic world was the clash of values more pronounced But it is precisely these counteracting forces which released the enormous energy that resulted in the construction of the splendid monuments of the Mughal age This book evolved out of a series of lectures on Indian Islamic architecture given at the Oriental Institute Oxford in 1991 There has been no update on Indo Islamic architecture since the definitive work Percy Brown *Indian Architecture Islamic Period* Bombay 1956 reprint 1968

Eunuchs in Politics or Politics in Eunuchs? Ayub Khan, 2015-01-01 The Book presents a factual account of the extent nature causes and consequences of the political overtones of the subordinated and marginalized eunuch community and their efforts to occupy a lofty and honourable position in society The study also identifies several sociological issues of the eunuch community that paved the way for their emergence in state and local politics In order to make the Book more expressive and easy to understand caricatures and cartoons that grasp the sensitivity and essence of the research have been included The Book presents a new perspective of the community how their emergence threatened the mainstream politicians making them feel insecure The Book also asks many questions related to our legal system that doesn't give them the right to choose their own path how the age old prejudices and discriminations still haunt them The Book incorporates results of a Research Project that was initiated by the UGC

Love's Subtle Magic Aditya Behl, 2016-07-01 The encounter between Muslim and Hindu remains one of the defining issues of South Asian society today It began as early as the 8th century and the first Muslim kingdom in India the Sultanate of Delhi was established at the end of the 12th century This power eventually reduced to vassalage almost every independent kingdom on the subcontinent In *Love's Subtle Magic* a remarkable and highly original book Aditya Behl uses a little understood genre of Sufi literature to paint an entirely new picture of the evolution of Indian culture during the earliest period of Muslim domination These curious romantic tales transmit a profound religious message through the medium of adventurous stories of love Although composed in the Muslim courts they are written in a vernacular Indian language and involve Hindu yogis Hindu princes and princesses and Hindu gods Until now they have defied analysis Behl shows that the Sufi authors of these charming tales sought to convey an Islamic vision via an Indian idiom They thus

constitute the earliest attempt at the indigenization of Islamic literature in an Indian setting More important however Behl s analysis brilliantly illuminates the cosmopolitan and composite culture of the Sultanate India in which they were composed This in turn compels us completely to rethink the standard of the opposition between Indian Hindu and foreign Muslim and recognize that the Indo Islamic culture of this era was already significantly Indian in many important ways *The Rise of Islam and the Bengal Frontier, 1204-1760* Richard Maxwell Eaton, 1993 In all of the South Asian subcontinent Bengal was the region most receptive to the Islamic faith This area today is home to the world s second largest Muslim ethnic population How and why did such a large Muslim population emerge there And how does such a religious conversion take place Richard Eaton uses archaeological evidence monuments narrative histories poetry and Mughal administrative documents to trace the long historical encounter between Islamic and Indic civilizations Moving from the year 1204 when Persianized Turks from North India annexed the former Hindu states of the lower Ganges delta to 1760 when the British East India Company rose to political dominance there Eaton explores these moving frontiers focusing especially on agrarian growth and religious change
