Observing the Moon Peter T. Wlasuk,2013-04-17 Why write another guide to observing the Moon That was the question I was pondering as I began this project having a fine collection of classic lunar guidebooks dating back to 1791 in my own library As a Fellow of the Royal Astronomical Society RAS member of the American Astronomical Society s Division for Planetary Sciences AAS DPS and member of the American Geophysical Union AGU I am fortunate to know many professional lunar scientists who keep me up to date with developments in lunar science contrary to public perception lunar science has definitely not stagnated since the last Apollo No 17 left the surface of the Moon in December 1972 I am also lucky to know many amateur lunar observers who like me enjoy actually looking at the Moon with telescopes and imaging it with a wide variety of devices ranging from regular 35 mm cameras to video recorders and CCD cameras My friends who study the Moon whether in their professions or just for fun gave me several reasons for doing another lunar guidebook First the last lunar observer s guide of any length was published over ten years ago and many reviewers noted that it was badly out of date even then      *Northwestern Christian Advocate* ,1902      *Annual Statement of the Trade and Commerce of Saint Louis for the Year* Merchants' Exchange of St. Louis,1907      **Iowa Weekly Weather and Crop Report** ,1921 SUMMARY Data on Iowa weather and its effects on fields crops and livestock      *Saturday Review of Literature* ,1947      **Utility Corporations** United States.
